WRECK DAMAGE WILL BE COSTLY

HOGS, EGGS, ORANGES AND MERCHANDISE DESTROYED BY FIRE AFTER "Q" COLLISION.

INJURED MEN HOME

Engineer and Fireman Brought to Ottumwa on No. 6.—Rested Well During Night; Jumped From Engines.

Now that the men injured in the Burlington wreck yesterday near Tyrone have reached their homes, they are agreed that they were fortunate in getting off with their lives. The wreckage took fire shortly after the two trains collided and a fearful carnage for a time was the result. Fifteen cars of varied freight were destroyed and to a great extent the cargoes they carried. The loss in a financial way is not at present obtainable, although claim agents are busy on the settlement of the damage with the persons who lost stock and other freight by the accident. The class of freight damaged or destroyed with the cars in which the freight was carried, consisted of one car of eggs, one car of oranges, six cars of hogs and three cars of merchandise on train No. 78, while the loss to extra 2079 was four steel cars loaded with gravel. Both engines were badly crippled and the fire following the accident makes the prospect of remodeling engine No. 2092 which hauled train No. 78, rather a poor one. Both engines were practically new and are said to cost about \$19,000 when purchased new. The loss to the Burlington road will reach many thousands of dollars.

Injured Brought Home. Engineer M. J. Canny and Fireman William Bunch were brought to Ottumwa on No. 6, about 4:20 p. m., yesterday, it being the first train to pass the wreck after the south track was cleared and traffic resumed. Both men showed signs of having received a severe shock and were little inclined to talk, each one seeming to be in need of rest, as they had been on the road from 11 o'clock the night previous. This morning, however, both men are reported better and to have had a good rest during the night. The injuries consisted of a severe gash in the head of Engineer Canny, whose right arm sustained a bad sprain and whose face is minus cuticle in spots. Fireman Bunch did not sustain a broken leg as thought at first, but his right knee was wrenched badly and it is thought the bone is cracked near the knee. Engineer Henry Shafer of the west bound train, received a blow on the left side of the jaw and a bruise on one hand. No others in the wreck sustained injury.

Men Jump From Engines. When the enginesmen first saw the other train, they were but a few car

lengths apart, and reversing and applying the air brake in emergency, all made an effort to jump for safety. Fireman Bunch was frustrated in his endeavor to leap and was caught by the wreckage of the cars immediately behind the engine which shunted the tender high in the air and plumed him near the manhole of the tank. When found, he was standing against the manhole, resting his injured leg. Engineer Canny, after reaching the ground, struck a chunk of gravel ballast, which upset him and he rolled in safety across the south track. Engineer Shafer struck his jaw against one of the rails and bruised the left side of his chin. Fireman Winn Chambers and brakeman Harring alighted in safety.

The wrecking crew is still working at the scene of the wreck, clearing away the debris and will have occupation there for some time, so great was the amount of damage done. The track was cleared about 3 o'clock yesterday afternoon and traffic resumed.

CEDAR ROUTE 1.
J. D. Funk delivered hogs in Cedar Wednesday.
John Ross was shopping in Cedar on Tuesday.
W. T. Millisack of Oskaloosa was a business caller in Kirkville Wednesday.

SPECIAL SERVICES.
Chillicothe Will Observe Decoration Day With Appropriate Exercises Next Monday.
The Methodist Episcopal church of Chillicothe extends an invitation to all to participate in their memorial program which will be carried out Monday, May 30 at 2 p. m. Appropriate music will be sung during the services and a very good address is promised from the pastor, Rev. William Slack. Afterwards all will go to the cemetery and decorate the graves of the old soldiers. A special invitation is extended to all old soldiers.

HUSBAND DIES OF A BROKEN HEART

GRIEF KILLS A MAN TWO DAYS AFTER WIFE'S DEATH.

Lime Springs, May 27.—The final chapter in the life romance of John William Reed and Ruth Hazen Reed will be recorded today in a funeral here, their old home.

In the rugged hills of Vermont many years ago, John Reed, son of Irish immigrants, wooed and won Edith Hazen, daughter of Jabez and Sophronia Hazen of Puritan stock. They came west together, made their home in Lime Springs, Iowa, and reared their children there. Finally, when old age came on, they went to the home of their son, George J. Reed, in St. Paul. Having passed 70 years in age, both of them became feeble, and then she had a stroke of apoplexy and died three days ago. Two days later her husband died of heart failure. That was what the doctor said. It was really a broken heart.

Yesterday the two bodies were brought to Lime Springs, where they will be buried in the same grave.

FAMILY APART 25 YEARS; MEET

REUNION OF IOWA FATHER AND SONS BROUGHT ABOUT BY NEWSPAPER.

Victor, May 27.—This town will soon be the scene of a remarkable reunion of a German family, brought about by a farm paper published at St. Paul. Twenty-five years ago the Sarken family came to this country from Germany. The father was then an unsettled immigrant and moved from place to place until he finally took a claim near Carleton, Minn. In the meantime, the boys ran away and returned to the old home, but it was not the same and they came back to this country.

At the outbreak of the Spanish-American war, Frederick enlisted and went to the Philippines; Charles sought employment and the brothers neglected to keep up a correspondence. When Frederick was discharged he searched for his brother but could not find him.

A few days ago the father, Louis Sarken, asked a St. Paul paper to help him find his boys. Their description was published with the result that a day or two ago a reply came from Frederick, who lives here, and he was found. In a week another letter came from Charles, dated Centralia, Wash., explaining that a friend had told him of the efforts made to find him. The paper sent replies to both letters and communicated with the father.

ODD FELLOWS HOME COMING.

Members of the Order to Visit Mason City on the Fourth of July.

Mason City, May 27.—More than 2,000 people are expected here the week of July 4 to attend the home coming of Odd Fellows of the state, which will be held at the Odd Fellows' Orphans' home. The program has been practically arranged, with addresses by several of the grand officers of the lodge and officers of the Patriarch Militant. The principal address will be by Rev. Henry Grant of Decorah, chaplain of the Iowa encampment during the week at Clear Lake, and the culmination of the encampment will be the home coming at the orphans' home.

AUTO ASS'N FORMED AT MENLO.

The Society Includes Eight Towns Along the River-to-River Road.

Adair, May 27.—The Rock Island Automobile association was organized at Menlo Monday, comprising Wiota, Anita, Adair, Casey, Menlo, Stuart, Dexter and Earlham, with 100 members. Splendid feeling exists, with the road building spirit paramount, and is the main point in the constitution and by-laws adopted.

The members are pleased with the condition of the river to river road from Atlantic to Des Moines. They report that \$10,000 was spent on the roads.

All roads leading to these towns have been improved. Tilting and grading work has been completed. King drags are used regularly.

Officers were elected as follows: Orson Early, Earlham, president; W. C. Lyle, Adair, secretary; O. R. Savage, Adair, treasurer.

More Physical and Mental Wrecks

ARE CAUSED BY CATARRH OF THE NOSE, THROAT, STOMACH, BRONCHIAL TUBES AND LIVER, THAN BY ANY OTHER DISEASE.

Catarrh of any part of the body is at first a Local Disease that has a tendency to get well itself. In most cases it becomes chronic but can be quickly cured. Later on tissue changes take place, especially in the nose and throat. These tissue changes consist of granulations, ulcerations, and hypertrophies (thickening) of the mucous membranes. Polyp often forms from these diseased surfaces, causing nose to stop up at times. In children Adenoids form, giving the voice a nasal twang.

A cure can be effected in all these cases by removing the adenoids Polyp, Granulating Tissues and Hypertrophies, and in no other way. No amount of treatment will cure until these defects have been remedied. Our method of removing new growths and restoring diseased membrane to health is both harmless and painless. Anyone suffering from above forms of Catarrh may have some of these symptoms:

Drooping of mucus in throat; hawking and spitting; stopping up of one or both nostrils; loss of smell or taste; ringing noises in ears; partial loss of hearing; tinnitus; neuralgic headaches, shortness of breath. At night these poisonous discharges run into the bronchial tubes or pass into the stomach and are absorbed by the blood. This drain goes on month after month finally saps the vitality of the most robust constitutions.

If you have catarrh don't wait until your health and vitality are destroyed, or extensive ulcerations of the bony structures cause horrible deformities; or your hearing is destroyed. Our blood and local treatment cures Catarrh. There is absolutely no question about it. That is why we are treating more cases of catarrh than all other specialists in this city combined.

Do you know that doctors in common and many so-called specialists fail to cure catarrh because they have had no training along these lines and have not the necessary appliances to give the proper treatment. In selecting a physician investigate his record. It is not the long years of preparation he has made. Don't take any man's word for it. Just look up his college, hospital and post graduate courses.

We are giving Free Examinations including X-Ray Examinations in all cases of Catarrh and Chronic Diseases for the next thirty days.

Committee on arrangements and entertainment—E. M. Hanson, L. M. Coffey, A. B. Hughes, Keokuk.

Seek to Disbar Attorney.
Onawa, May 27.—Charging unprofessional acts and conduct unbecoming a member in good standing of the Monona County Bar association, a committee representing that association appeared before Judge John F. Oliver in the district court at Onawa and asked that C. R. Metcalfe, of Mapleton and Sioux City be disbarred.

The court named a committee of three, J. A. Pritchard, A. Kimball and C. E. Cooper, to draft the disbarment proceedings and submit them to the court within ninety days.

The application for disbarment came as a result of a meeting held by the Bar association following the charges against Metcalfe that he had not acted in good faith in handling funds for a church.

The disbarment is not asked on this account, but on the claim that Metcalfe is not an honor to the association and the charge that he has been guilty of such unprofessional practices as to make disbarment a punishment not too severe.

DRAKEVILLE.

Mr. and Mrs. Frank Hamilton of Ottumwa spent Sunday at the Ben Shull and Will Randolph homes.

Mr. and Mrs. Fent Duke spent Sunday with their daughter Mrs. Ivan Hamilton and husband near Belknap.

Mrs. Harriet Truitt spent Sunday with Mrs. Martha Housley.
