Leaky Joints in Stove or Range Construction Mean Waste Fuel---There Are No Leaky Joints in Buck's Stoves and Ranges---and Therefore No Waste : : :

Then why buy a poorly constructed stove or range? Wasting fuel is simply throwing money away. Poor construction in a stove or range can easily be covered up with a little stove putty and polish. Appearance is but little---it is well to have an attractive stove or range---and Buck's are decidedly so---none to compare with them, but what counts more and is of far greater importance to you is the quality of material used in their construction and the manner in which they are constructed. The quality of material entering into Buck's answers lasting service and the manner of construction, the greatest economy in operation.

Every person should read the article on page three by J. Ellis Barker the English economist. It is a practical article, dealing with the facts regarding social and governmental conditions as he has found them, and contains much valuable information for all who give any thought to governmental policies. It should be read by every man and woman, young and old, and especially high school students, and all those at an age when they are about to begin to make their own way.

CALUMET BAKING POWDER. The wonder of baking powders--Calumet. Wonderful in its raising powers--its uniformity, its never failing results, its purity. Wonderful in its economy. It costs less than the high-price trust brands, but it is worth as much. It costs a trifle more than the cheap and big can kinds--it is worth more. But proves its real economy in the baking. Use CALUMET--the Modern Baking Powder. At all Grocers. Received Highest Award World's Pure Food Exposition.

CHARGED WITH BRUTAL CRIME GOV. CARROLL IS CHALLENGED

(Continued From Page 1)

Night Captain Mier through a clever ruse. Johnson professed innocence of the crime until Captain Mier told him that they had found one of his letters on the roof of the house where Stoker was murdered. Johnson then blamed Cruzen for his carelessness and confessed. The signed statements of the two men were made between 3 and 4 o'clock this morning in the presence of Night Captain Mier, Patrolman Harris, Chief of Police John Ruggenberg of Oskaloosa, Special Agent E. Y. Muir of the Iowa Central railway and Night Desk Sergeant William H. Maloney. The signed confessions of the two men follow:

Cruzen's Confession. "I, Glen Cruzen, state that I got with Johnson Saturday night about 9 o'clock. Seen roll of money on Stoker and Homer said to me 'Let's get this money, Glen.' After that we took John Stoker to his room and left him there. We went down town again and came back to the porch. Homer tore the screen and raised the window and went into the room. Found him asleep in the room. Homer cut his pocket. I got the money. John Stoker was lying on the bed just as we found him. Went to Iowa Central depot and split the money. Got high and started for Ottumwa. This is now the truth as I remember. I make this statement without any promises or threats of any kind. (Signed) "Glen Cruzen." Witnesses: Matt Mier, W. H. Maloney, F. H. Harris, John Ruggenberg, E. Y. Muir.

Johnson's Confession. "I was in Oskaloosa on Saturday, October 15, and met Glen down town about 7 p. m. and we met John Stoker about 9 p. m. and he said that he was going to leave and that he did not give a d--- about anything. He showed his money to me and Glen, and Glen goes and tapped John for his money. I seen Glen go up over the porch and go through the window. I was standing about twenty yards from the house. (Signed) "Homer Johnson." Witnesses: E. Y. Muir, Matt Mier, F. H. Harris, W. H. Maloney, John Ruggenberg.

Spent Money Freely. The two men exhibited large sums of money while here. They rented a carriage from a local livery firm and took a couple of young women out driving. Night Captain Mier and Patrolman Harris were highly complimented by Chief of Police Ruggenberg for making such a quick capture of the two suspects, who were taken back to Oskaloosa this morning on the Rock Island at 6:40 o'clock. The Oskaloosa chief was alarmed as he feared the Oskaloosa people might hear of the capture of the two murderers, meet the train this morning and take the law in their own hands.

Stoker Was Wealthy. John Stoker, the murdered man, was 58 years of age and was very wealthy. He had a habit when getting intoxicated of exhibiting his money. Stoker had \$700 on his person Saturday night but no money was found on his dead body when searched. The Oskaloosa officers believe that Cruzen and Johnson spent a large sum of money in Ottumwa yesterday. The men will be given a preliminary trial at Oskaloosa, probably tomorrow morning, and Night Captain Mier and Patrolman Harris will go to Oskaloosa to testify in the case.
