

IOWA COLONY

I am getting up an Iowa colony in the Fowler Bros. land in South Texas. It is Bermuda Onion and Orange land that will net the owner over \$400 per acre each year. They are Ten Acre tracts and will join each other. I sell them on the installment plan and give possession any time. No interest or taxes for three years and \$500 is plenty to start out on and get rich in five years. Best of climate and soils. It is the place for Farm Renters and Poor Men. Now write me for full explanation and don't fail, for this is your chance to get rich and be sure of it, as land which pays that much per acre beats an 160 acres here and but a few dollars invested. This is the fourth colony I have on sale and all sold but this one, which is the BEST EVER OFFERED.
