

HOLD THE KEY

DOES YOUR MONEY COME from what you earn each day? And stop coming the minute you stop work! Here is something that will make you independent the soonest of anything into which you can put your savings. It's a piece of land in the Swigart tract. I'll tell you why!

obtain by talking with them. It is only a short and inexpensive trip to the lands. See for yourself that the well drained, gently rolling and level lay of the land is perfectly adapted for the harrow, disc and planter. See the growing crops, the building going on, the many families moving in, the good schools and the growing towns. Good values greet the view on every side—land that raises 150 to 300 bushels of potatoes per acre, grows three and four cuttings of alfalfa a year, has as big crops of rye, wheat, oats, hay and clover as Illinois land, and vegetables of all kinds in perfection. Here is the natural home for fruit trees. Nowhere on the continent are conditions better for raising apples, peaches, pears, plums, cherries, grapes and berries.

THE SWIGART EASY PAYMENT plan is most liberal. Prices \$10 to \$35 per acre and terms as low as \$10 to \$50 down and \$5 to 10 per month on 40 acres or 5 per cent discount for all cash. A large selection of choice lands at \$17 per acre. If you should die the land will be deeded to your family free from any further payments—a good protection without extra cost.

THERE IS MUCH TO LEARN about these lands. Send me your address and I will mail a booklet that has 38 pages of pictures and descriptions about the lands and also a large map. There are over a thousand 40-acre tracts to select from and many larger and smaller. There are 10-acre tracts, especially well located near towns, just right for fruit, poultry and truck; business and residence lots in two new towns on the main line of the Peoria Marquette Railway, an summer resort lots on the Wellston chain of lakes.

MY NEXT EXCURSION LEAVES my Chicago offices at 11:30 a. m. Tuesday, August 6. A special Pullman car will be attached to the Pere Marquette train, as usual, for the exclusive use of my party; no extra charge. You are back in Chicago at 7 a. m. either Thursday or Friday following, being absent only one or two days, as you prefer. Round trip to Wellston, Mich., \$6. Fare related on your purchase. Good accommodations for both men and women at Michigan headquarters. Teams and guides free.

THERE IS VALUE in having for local markets Ludington and Manistee on the edge of the tract, which towns require our products for their 30,000 population. You surely recognize the value of the ample rainfall, wonderful supply of purest water in creeks, springs and inland lakes, and the value of the most healthful climate. Have confidence in your own judgment. Add the judgment of two policemen who were attracted by her interest.

Full particulars can be had by addressing George W. Swigart, owner, 1247 First National Bank Building, Chicago, Ill., or his agent,

Mrs. Marchmont's Recipes

CAKE AND PASTRY.

PASTRY CRUST—Three cups of sifted flour, 1 level teaspoon salt, 1 cup of lard, add enough cold water to bind. Mix with a knife. (About 2-3 of a cup). This will make 2 large pies or 3 small ones.

SPONGE CAKE—Four eggs, beaten separately, 1 scant cup of sugar, 3 tablespoons of cold water, 1 scant cup of flour, 1 1/2 tablespoons of cornstarch, a pinch of salt, 1 teaspoon lemon extract, 1/2 level teaspoonful baking powder. Beat eggs yolk till light and creamy, add sugar and beat again, then add the cold water and extract, sift flour, cornstarch and baking powder, add to sugar and eggs then fold in the stiffly beaten egg whites. Bake in a moderate oven 45 minutes.

CAKE—Mahogany cake—1/2 cups sugar, 1/2 a cup of butter, 1 cup sweet milk, 3 eggs, 2 cups of flour, 1 teaspoon of vanilla, 1 square of chocolate or 1 tablespoon of cocoa. Dissolve the chocolate in half the milk (heated) then add the rest of the milk, and vanilla and stand aside to cool. Cream the sugar, and butter together, add the eggs, one by one, beat thoroughly, add the chocolate mixture,

WEST POINT.

John W. Entler and J. A. Kreikenbaum left Wednesday for a business trip to Keota.

Mrs. Jos. Dierker, wife and baby Miss Eva Schroeder of Laurens, Neb., and Mrs. Eliza Schroeder of Davenport returned to their homes Monday after a visit at the Jos. Schroeder home.

Ruth Kreikenbaum left Wednesday for a visit with relatives at Burlington. Sam Fry of Burlington visited here Monday with his wife and children who are visiting at the Al Sheets home.

Prof. La Due's band will give an open air concert in the park Saturday evening. The band was organized about two months ago and this is their first appearance in public.

Miss Regina Leves visited her sister Mrs. Wm. Able in Ft. Madison this week.

Mrs. Tom Glashine and daughter Helen left Monday for a visit in Ottumwa.

John Publisky of Davenport arrived Saturday for a visit with his wife and son who are visiting at the Joseph Schroeder home.

Miss Anna Burke and little niece Helen Cameron of Keokuk are visiting

GOES INSANE OVER PRIMARY DEFEAT

Perry, July 26.—Roy King, a young man about 25 years of age, who formerly lived on a farm south of this city, is violently insane, and it has been necessary to send him to a hospital for treatment. King left here several years ago, and located on a ranch near Mitchell, S. D. He was one of the most popular men of the neighborhood, and was a candidate for county treasurer at the recent primaries. He was defeated for the nomination, and brooding over this fact caused him to lose his reason.

The young man's father, L. W. King, went to Mitchell last week and brought him back to this county. When near Sioux City the crazed man jumped through a window of the car in which he was riding, and although the train was running rapidly he was unhurt, and succeeded in eluding his friends for several hours.

NEGRO OUTLAW IS SHOT DOWN

"JACK THE SHOOTER" OF LITTLE ROCK, ARK., KILLED AS HE WAS ENTERING HOUSE

49 OFFENSES CHARGED

Believed He Committed Acts For Which Innocent Men Now Are Serving Sentences; Slayer to Get a Gold Medal.

Little Rock, Ark., July 26.—Forty minutes after he had entered the room of Maude Sumner, a stenographer, at Ninth and Center streets, shooting her in the hand when she resisted him, J. B. Brown, a negro attorney, Little Rock's "Jack the Shooter," was killed by Sam Collins, a negro trailer, as Brown was climbing into the window of Collins' residence.

All Little Rock now breathes easily and thousands have visited the morgue where the body of Brown awaited the action of the coroner's jury. Citizens have started to purchase a medal for Collins.

Little Rock for six months has been horrified by almost nightly burglaries and attacks upon women, and the situation was getting so grave that a mass meeting was held and a citizens' vigilance committee formed to patrol the streets. For a time this seemed to stop the crimes, but recently the attacks were renewed.

When slain, Brown had his face and hands covered with talcum powder, and being a mulatto this gave him the appearance of a white man of dark complexion, or a Mexican, such as was described by most of the women who were attacked. The police have a record of forty-nine crimes which they say undoubtedly were committed by Brown.

The most serious of the "Jack the Shooter" crimes occurred May 19 last, when the mysterious man entered the residence of Mrs. D. P. Coulter, three blocks from the center of the business district, and attacked Mrs. Coulter, who held her nine-months-old baby. The assailant fired at Mrs. Coulter twice, the baby being killed. He fled, and half an hour later the same man entered the home of M. M. Hankins, and fired at Mrs. Hankins and at two policemen who were attracted by her interest.

Convicts Thought Not Guilty. So positive are citizens and officials of Little Rock that three or four persons have been convicted for crimes laid at the door of "Jack the Shooter," one or more of them serving terms in the penitentiary now, that strong efforts will be made to have them granted new trials or pardoned by the governor.

David Brones, a Mexican, serving a sentence of nineteen years for shooting at May Noland and Ruth Andrews on the morning of May 30, is one who may be affected by the action of the citizens.

Robert Armstrong, a negro, is under sentence for the death of Mrs. J. F. Musser and of Ella Hardcastle. He is about the same size and general appearance of Brown, as the dead negro appeared with powder on his face. An identification of Armstrong always has been meager, efforts are being made to have Mr. Musser come and take a look at the dead bandit to see if he might not have been the slayer of his wife, instead of Armstrong.

An inquest was held over the body of Brown this morning, and Sam Collins immediately was discharged with the thanks of the coroner's jury.

EMBRYO CLAMS BEING PLANTED

Muscatoine, July 26.—One half million embryo clams, known to the scientific world as glochidia are being placed in the Mississippi river daily at the United States biological station at Fairport at the present time, in an endeavor to artificially propagate the clam. At the present time attaches of the station are sealing the sloughs and bayous along the big stream and after infecting the captured fish with the glochidia are placing them into the river. Daily from 400 to 600 fish are sealed and upon being removed from the nets are placed in large tubs containing millions of embryo mussels and following the infection of the members of the finny tribe, the fish are again set at liberty.

Sunfish, bass and croppies are used exclusively in this work, it being found that the glochidia will attach themselves to these fishes more readily than to others. The despised German carp is of no use whatever.

Scientific investigation has proven that after a few days the embryo mussels drop from the fish and upon sinking to the bottom of the river commence the usual process of animal life.

HOW TO PREVENT APPLE BLOTCH

NOT TOO LATE TO SPRAY IN JULY AND AUGUST, SAYS LAURENZ GREENE.

PRESERVE EGGS IN VASELINE

TEST FOR FRESHNESS

Ames, July 26.—The apple blotch is making its appearance in the orchards of southern Iowa. It has been reported from Rock, Ottumwa, Fremont and Page counties and is probably prevalent in other counties near the southern border of the state.

It is possible to control this apple disease by spraying and the experiment station at Iowa state college is advising the use of bordeaux mixture for this purpose.

"Spraying should begin with the beginning of the season," says Laurenz Greene, experimentalist in horticulture, "to get the best results. However, spraying late in July and early in August will help to prevent further spread of the disease and will aid in its control next year. It is a good idea to add poison to the bordeaux mixture to protect trees and fruit against the second insect pest, the European spruce sawfly."

Apple blotch is quite easily recognized. It shows itself first in more or less numerous small, light brown spots or blotches on the fruit. These spread out like rays, becoming darker in color and increase in size until they reach a diameter of one-half inch. Sometimes they grow together and cover a large portion of the apple's face and cracking of the fruit frequently follows.

Perfectly Fresh Egg is one That is Unfertilized—Twenty Methods Tested in Germany Show Great Results.

Perhaps no article of diet of animal origin is more common than eggs. In all countries or raised in a greater variety of ways than hens' eggs, yet how few understand the composition, the food value, the changes that take place within the egg after leaving the hen's body, or how to keep it for a long time without spoiling or losing its flavor or nutritive value, says a bulletin issued by the Illinois Farmers' Institute.

Some interesting experiments in preserving eggs were recently conducted by experts in Germany. Twenty eggs were kept for eight months with the following results: Those immersed in brine, all bad; those wrapped in paper, 80 per cent bad; those preserved in a solution of salicylic acid and glycerine, all bad; those packed in salt, 70 per cent bad; those packed in bran, 70 per cent bad; 70 per cent of those covered with paraffin or varnished with a solution of salicylic acid and glycerine were bad; those sterilized by placing in boiling water for 12 seconds, 50 per cent were bad. One-half of those treated with a solution of alum or put in a solution of salicylic acid, all bad. Forty per cent of the eggs varnished with water glass (potassium silicate or sodium silicate), or shellac were spoiled. Twenty per cent of those packed in a solution of boric acid and water glass, or with a solution of permanganate of potash were also bad. Cold storage, 70 per cent bad flavor. Eggs varnished with a solution of permanganate of potassium in lime water were all good, as were those immersed in a solution of water glass.

The Test for Freshness. The first test in determining the freshness of an egg is to know that the hen that laid it was not mated while the egg was in the oviduct; to be sure about this, separate from laying and make a mark on the egg at the beginning of the season. Each egg should be "candled" (held against a strong light). In candling, a fresh egg appears unclouded, almost translucent; if incubation has begun, a dark spot is visible. A rotten egg appears dark colored. A "rotted" egg is one in which the yolk appears attached to one side of the shell. With interested observation one may become expert in selecting fresh eggs in a short time.

Successful Preserving. To successfully preserve eggs, perfectly fresh ones must be selected. They must be kept clean and graded according to size; they must then be thoroughly tested for freshness and only the perfect eggs packed. Either of the following plans will be successful: (1) Immerse in a 10 per cent solution of water glass. When properly packed one gallon is sufficient for 50 dozen eggs. (2) Put two or three pounds of unslacked lime in five gallons of water and stir the mixture until clear, pack eggs in earthen jar, cover them with the clear lime water and keep in cool place.

Sixty Graduates at Cedar Falls. Cedar Falls, July 26.—The sixteenth annual summer session of the state teachers college closed today when a class of sixty students were graduated from the institution and awarded their diplomas.

Miller Chapel. The attendance last Sunday afternoon was excellent and a good interest was manifested in the service. Tuesday night meeting was the largest of the season thus far. The interest in the dedication of the chapel continues to grow. The men and women are busy this week getting the church and grounds in good condition for the event. Next Sunday, July 28, is the time set for the dedication of the chapel.

Teaching services at 11 a. m., Rev. E. J. Evans of Oskaloosa will have charge of the service. After the morning service there will be a basket dinner in the grove near the church. Everybody, whether members of the chapel or not, are invited to bring a basket dinner and join with us in the grove dinner.

The afternoon services will be taken up at 2 o'clock. Revs. Joseph Wells and E. J. Evans will have charge of this hour and will talk of Sunday school mission work. At 3 o'clock the regular dedicatory service will begin. Rev. R. Ames Montgomery will deliver the dedicatory sermon, and T. D. Foster will offer the dedicatory prayer. The old and familiar hymns will be sung throughout these services. Come and spend the day with us. The speakers on the program are strong and helpful men.

There will be the regular weekly meeting for prayer and bible study Tuesday evening at 8:15.

Rev. Joseph Wells of Des Moines will be detained from attending the exercises at the chapel next Sunday on account of the death and funeral of one of his missionaries.

Mr. and Mrs. C. S. Cole and children of Batavia, Mr. and Mrs. Frank Cole of Ottumwa and R. D. Cole of Red Oak visited over Sunday with their mother Mrs. Wm. Cole of near Agency. Mr. and Mrs. C. S. Cole were accompanied home by Mrs. Wm. Cole and daughter Lela and also by R. D. Cole who visited over Sunday.

Rev. L. M. Darreen, formerly of this

202 Bushels From 4 Acres. Mt. Airy, July 26.—Probably the largest crop of oats ever thrashed in Ringgold county was on the farm of F. F. Leathers adjoining Mt. Airy, yesterday when they thrashed 202 bushels from four acres.

Suffrage Workers at Dallas Center. Dallas Center, July 26.—Suffrage workers of central Iowa will meet here August 9 in a big picnic and rally. A program of addresses and music has been arranged for the day.

We Use

The Kelly Springfield Rubber Tires. Beyond doubt, the best rubber tires to be had. We carry a good stock and can supply your needs on short notice.

BELMONT WAGON AND CARRIAGE CO.

114 So. Wapello New Phone 158. of Mr. and Mrs. Fred McHenry, 302 Oakwood avenue.

It will pay you when in need of shoes or oxfords to go to the old reliable Church Shoe Co. South Side.

OAK RIDGE NO. 2

The interest and attendance was good at this school last Sunday afternoon. John Loring is giving a series of three talks on the subject "The Beast in the Book of Revelation." He will be the speaker next Sunday afternoon. It is planned to give a series of presents to those who attend the bible class every Sunday without fail and to the boys and girls learning the most bible verses. Come and learn the particulars and win a prize. Lewis Lawson led the prayer meeting this week.

Sunday school at 2:30 p. m. Services for worship and preaching at 3:30 p. m. Speaker John Loring. Zell Zimmerman will lead the Wednesday evening prayer meeting. You will be welcome at all of these services.

Boys' Bible School. Last night a boys' bible school was organized at the Webster Street mission. The lesson was read from the 4th chapter of John. Subject "Jesus at Jacob's Well." A short program was also given. Another meeting will be held next Wednesday evening at 7:30. The children of the neighborhood are invited.

Dubuque Man Disappears. Dubuque, July 26.—A search has been instituted for E. L. Mitchell of this city who has mysteriously disappeared from his home. Mitchell, who is married, was employed as a janitor at an apartment house. No reason is known for his absence and foul play is feared.

Bon Brown, who resides on Wabash avenue, sustained a badly mashed foot Monday while at work at the Dam Manufacturing plant. The fly-wheel of a hay baler fell on his foot causing the injury. It is mending slowly.

Mrs. L. Jackson and children, 539 1/2 Church street, and Miss Madge Shaw, 214 North Ransom street, have returned from Burlington where they attended the wedding of Mrs. Jackson's cousin.

Mrs. F. S. Cruthers, 567 South Davis street, left today to join Mr. Cruthers at Seymour and to make that place their home.

Mr. and Mrs. Lee Latte and daughters Fay and Alberta, 605 Finley avenue, have gone to Belknap to make their future home.

Mrs. C. E. Stroud and son Howard, of Headrick, are visiting Mrs. Bert Smith, 717 First street.

Mrs. Fannie Lyons and daughter of Packwood, who have been spending a few days at the Milton Giltner home, 1014 North Elm street, have returned.

Mrs. J. E. Wilcoxson, who resides north of the city, has returned from a visit with relatives in Bloomfield.

James Treneman, 1719 East Main street, has returned home from a business trip in Mission, Tex., and other southern points.

George Ryttenburg, patrol and ambulance driver, returned to his duties this morning after a two weeks vacation in Joliet, Ill.

Miss Minnie DeFord, 241 South Ransom street, has returned from a visit with friends in Eldon.

Dr. A. W. Slaughter has returned from Chicago where he attended the funeral of his father-in-law, H. W. Matthews.

Miss Florence Eaton, 826 West Main street left today on the noon Rock Island for Des Moines, where she will spend a few days with friends and relatives.

Mrs. H. Peck of Agency is spending the day with Mrs. O. E. Sterner, 2325 East Main street.

Mrs. B. F. McHenry, and son Fred of Geneseo, are the guests at the home
