STOCK MARKET IS STILL ADVANCING

MORNING'S BUSINESS IN WALL STREET VERY HEAVY—BETHLEHEM VACILLATES.

New York, April 14.—It was estimated that 700,000 shares changed hands on the stock exchange this morning. Bethlehem Steel became increasingly inactive after the first hour, recovering six points from its decline to 130, only to fall back again.

Realizing sales, which were general among professional traders, checked the advance by midday, Union Pacific, Reading, United States Steel and Coppers falling back a point.

Bonds were irregular. Bethlehem Steel was again the disturbing feature of today's stock market opening with a scale of 1,000 shares at 128, against yesterday's final price of 126. The stock steadily ascended to 140, then jumped to 145, an advance of 20 points in less than ten minutes. From this it descended even more speedily to 130.

The rest of the list was strong but orderly. Union Pacific, Southern Pacific and the coppers rose from 1 to almost 3 points with further substantial gains in automobile shares.

Pressure of profit taking became pronounced in the final hour, lowest prices of the day then being registered by many leaders. The closing was irregular.

JITNEYS IN MASON CITY.

Mason City, April 13.—The first jitney bus to be operated in Mason City has been placed in service by Alfred Wilson, who was kept busy up until a late hour conveying passengers to different parts of the city. Wilson has no established route and was busy bringing passengers to the downtown district and conveying others from the hotels to the depots. He expects to start a regular cross town service in the course of a few days. It is probable that other jitneys will be put into service here in the near future.

WHEAT SCORES LIVELY ADVANCE

REPORTS OF BIG SALES ON SEABOARD FOR SHIPMENT TO EUROPE, AFFECTS MARKET.

Chicago, April 14.—Wheat scored a lively advance in price today as a result of large export sales said to have been made yesterday at the seaboard. There was some selling later on account of weakness in corn, but the offerings were readily absorbed. Assertions that more moisture was needed in the domestic winter crop belted to favor the bulls. After opening 1/4 to 1 1/2 c higher, prices underwent a reaction and then again took the upgrade.

Extraordinary additional strength developed later owing to signs of great expansion of European demand. The close was excited at an advance of 3/4 to 1 c net advance.

The market closed firm at 1/4 to 1 1/2 @ 1 1/4 c net advance.

Speculators sold corn freely despite bullish cables. The trade here seemed disposed to ignore fears of damage to the Argentina crop. The opening, which varied from 1/4 c off to a like advance, was followed by a decline all around.

Oats weakened in sympathy with corn. Buying was only scattered.

Lower quotations for hogs had a bearish effect on provisions. The chief demand was from shorts.
