MAY CLEAN UP AN OLD TIME MURDER

(Continued From Page 1.)

Collins is supposed to have told the James boys of the treasure. John and Henry Darnewood were brought to Bedford shortly before noon, and arraigned. They pleaded not guilty and were then released on bonds of \$5,000 each.

Scrivner, the most prominent of the quartet is 75 years old and reputed to be very wealthy. He is leading member of the Masonic order in this section.

Assistant Attorney General Robbins, however, insists that his investigation shows that the case will prove a strong one when it is called for trial.

Villisca, July 9.—The assistant attorney general here today in connection with the Bedford murder case, announced today that Maria Collins, who is now Mrs. Maria Porter, and who lives in Quitman, Mo., will be at Bedford next Tuesday to testify for the state against Bates Huntsman, Sam Scrivner and John and Henry Darnewood.

Chariton, July 9.—(Special to The Courier.)—With the arrest of four men in western Iowa Thursday at 5:17 p. m. the mystery surrounding a double murder committed in 1868 may be cleared up.

Recently the services of Attorney W. Bulman of Chariton were enlisted by Samuel Anderson of Lucas county, who desired pay for work done twelve years ago when he was residing on a farm in Missouri. He stated that he had been employed by several men to search for hidden money which they claimed was buried during the civil war.

The boy's body was buried in a log-cabin near by, and the big body of which the murderers stole from the cattle buyers, was also buried there. A plot of hiding place was made, but it was afterward destroyed in a fire which burned the home of the man who had the plot, and the gang was unable to discover the hiding place.

In the meantime the plot of ground changed hands, and finally became the property of Samuel Anderson, who was found to be the murderer's son. Mr. Anderson was hired about twelve years ago by the outlaws to search for the money, claiming they had sold a big tract of land many years ago, and had buried the money for safe keeping.

Ground Changes Hands. The plot of ground changed hands, and finally became the property of Samuel Anderson, who was found to be the murderer's son.

GERMANY LOSES LANDS IN AFRICA

(Continued From Page 1.)

with mines and in the Argonne there were rifle and cannon exchanges, but no important infantry engagements.

"Between the river Meuse and the river Moselle the night brought considerable activity. Between Feyta-Haye and the forest of Lepretre French troops, by the use of hand grenades, were successful in retaking about 150 yards of the trenches lost by us July 4. At Croix-Des-Carmes the enemy delivered an attack yesterday evening along a front of 350 yards. This action followed a bombardment by aeroplanes, which threw down terpedoes, and the hurrying of burning liquids. After having been successful in gaining a footing in our first line of defenses, the Germans were driven out of these positions by an immediate counter-attack. They were able to maintain themselves only in some few of our most advanced trenches.

"In the Vosges: In the region of Ban-de-Sapt, at Fontanelle we gained a notable success. After having driven the enemy from that portion of our old positions, which they captured from us on the 22nd of June, we took possession of all the defensive positions of the Germans reaching from the hill to the southeast of Fontanelle as far as the road running from Lannois to Moyon-Moutie. This total gain represents an advance of 700 yards along a front of 600 yards. We took the following prisoners: Nine teen officers, including one battalion commander; two doctors and 787 men, none of whom were wounded, and belonging to seven different battalions. Our ambulances picked up one officer and thirty-two German soldiers. We captured also one machine gun, several bombs, and ammunition in great quantity.

"Since the break of day the enemy has been cannonading violently the positions lost by them."

German Official Report. Berlin, July 9.—Official statement: "A French attack north of the sugar refinery at Souchez was repulsed. Small bodies of men were penetrated into our position and were killed."

"Up to the present we have not succeeded in clearing the enemy from the trench section which we lost the day before yesterday west of Souchez. The report circulated by the French army and the administration regarding the capture of German cannon is incorrect.

"East of Ailly unsuccessful isolated attacks took place. We captured by storm several French lines of trenches extending over a width of 350 yards and joining our newly captured positions in the forest of Lepretre to the east. On this occasion we captured 250 prisoners and four machine guns. Otherwise only unimportant patrol engagements took place between Ailly and the Moselle.

"After artillery preparation the enemy attacked Hill 821 near Ban-de-Sapt by storm. We were forced to evacuate the destroyed trenches on top of the hill. In the east and southeast the situation remains unchanged."

INTERVENTION IN MEXICO ADVISED

Defeat for Carranza. El Paso, Texas, July 9.—Carranza forces were severely defeated by General Villa near Aguas Calientes, according to a telegram received from Col. E. Perez Rul, chief of staff to Villa. The Carranza troops, heavily in killed, wounded and war munitions, lost.

The message states that Villa permitted the enemy to approach close to the city before resistance continued until late in the day when the attacking forces were driven back to San Bartolo. The Carranza cavalry, infantry and artillery were engaged only by Villa cavalry, according to Rul's message, and plans were made by Villa to resume the fighting tomorrow, with Villa artillery and machine guns participating. No mention was made of Villa's losses.

Washington, D. C., July 9.—General Villa has been defeated by Carranza troops ten miles south of Aguas Calientes and is retreating north, according to consular advices, dated last night, from Aguas Calientes. The message was brief and indicated that telegraphic communication probably would be interrupted north of Aguas Calientes within a few days. No details were given.

The Carranza agency's advices relating to the same battle said: "Villa's crippled army is retreating from Aguas Calientes, with a view to making a new stand against the advance of the constitutionalists at Zacatecas. Villa has only about six or seven thousand men, all told, remaining to him. It is also said that the fight at Penuelas he lost what little artillery remained to him after the successive defeats at and near Leon."

Laredo, Texas, July 9.—Confirmation of the reported victory of Carranza troops in Wednesday's battle for possession of Icamole, northwest of Monterrey, was brought here today by passengers from Monterrey, train service having been re-established. The Carranza troops took 800 prisoners to Monterrey after the battle, passengers said.

STOCKS UNABLE TO KEEP RISING

GAINS MADE DURING RALLY OF EARLY MORNING WIPED OUT LATER IN THE DAY.

New York, July 9.—A sharp reversal in stock prices occurred by the end of the first hour today under lead of New Haven, which broke to 5 1/2, a loss of 5 points. Reading and Union Pacific also developed heaviness and other active stocks fell under yesterday's losses.

U. S. Steel was strongest of the speculative issues but even in that on every advance, American coal product was prominent among the high priced specialties with a gain of 11 points. Bonds were active.

War specialties were the features of today's strong opening with gains of 1 to 3 points. Representative railroads also recovered somewhat after some heaviness. Union Pacific, Canadian Pacific and Reading gained 1 to 1 1/2 points with more moderate advances in copper and obscure industrials. U. S. Steel rose half a point on fair demand. Missouri, Kansas & Texas and Southern Railway descended to new low prices. Trading was broad and fairly active.

WHEAT IN RALLY AFTER A DECLINE

CORN PRICE ALSO GOES UP ON A SPRING DEMAND FROM THE EAST.

Chicago, July 9.—After an early decline, due to the bearish construction placed on the U. S. government crop report, wheat rallied today. After opening quarter to 1/2 c lower, the market rose about close. The close was unsettled at 1/4 to 1/2 c net advance.

The baby, however, escaped without a scratch and suffers no ill effects.

GERMAN REPLY UNSATISFACTORY

(Continued From Page 1.)

even some of the excerpts from it were somewhat garbled in transmission and it is not altogether certain that all the points made by Germany are clearly understood as yet. Of the chief questions at issue, however, the German government, according to officials of the United States, is not ready to concede Americans the right to travel anywhere on the high seas on unarmed merchant ships as contended for in the last American note. Germany has suggested that Americans may travel on belligerent ships if there is a guarantee in advance that they carry no munitions of war and are unarmed, and that the vessels are in such a way as to be distinguishable in the way to German submarines, and if there is notification of the character of the ship.

To comply with these suggestions, would be an unneutral act on the part of the American government since it is not considered proper to notify one belligerent of the departure of another belligerent's ships. The proposals made by the German government would not be objectionable, it is declared, if arranged as between a belligerent in a modus vivendi or a temporary arrangement concluded merely for a fixed period of time. There is no indication, however, of any disposition on the part of the allies to separate passenger and contraband traffic, but if proposals made in the form of suggestions to Great Britain had been conveyed by the United States, it is believed in well informed quarters here that pressure might have been brought to bear by the American government to secure their adoption.

It is understood that Count von Bernstorff, the German ambassador, has informed his government that the form of the proposals appear not to be satisfactory and has urged that if possible there be an agreement on the principle involved, leaving for further discussion the arrangement of a modus vivendi or an informal arrangement concerning the separation of passenger and contraband traffic.

Frank Jaques, who attended the convention of Iowa shoe dealers that is in session at Davenport, has returned to Ottumwa expressing much satisfaction with the meeting of the men who deal in footwear in Iowa. Mr. Jaques was chairman of the discussion Wednesday on "Odds and Ends," and "How Best to Dispose of Them." C. A. Hagberg, who is also at the convention, did not return.

FRANK'S SAVIOR WELL SATISFIED. Chicago, July 9.—Former Governor Slaton of Georgia, who commuted the sentence of Leo M. Frank and then resigned, arrived in Chicago today on his first vacation in fifteen years.

"Some day my lost friends will see the Frank case as I see it," said Mr. Slaton. "I paid little attention to thousands of petitions that swamped me asking leniency for Frank. Most of the persons who signed them had not studied the evidence. I did study it, and it was on conclusions drawn therefrom that I commuted the sentence of death."

DAISY BIGHAM TAKES CASE TO HIGH COURT. Daisy Bigham has appealed the action of the district court last March in her case against Jerry and Ollie Orndorff to the supreme court of Iowa and it is noted for trial before that body during the September term which will begin on September 21. The decision of the court was in favor of the defendants when the plaintiff sought to recover on some notes and to regain possession of a mortgage alleged to have been transacted between the contending parties.
