Stock Market

New York, May 15.—Extensive realising made no impression upon stock prices today, the list with few important exceptions mounting to higher levels on broader operations. Reading and United States steel were especially active, the former adding to its new record with an extreme gain of 1 1/4% at 82 1/2, while Steel rose above 85 on the 82 1/2. Motor concerns, strongest of recent weeks, continued strongest of the specialties, but war and semi-war issues were 1 to 3 points higher. Bonds were firm with a marked demand for Anglo-French issues.

Developments over the week end imparted further strength to the stock list today, prices showing substantial though variable gains at the opening. Two new maximums were soon established, Reading rising a fraction over its previous best at 81 1/4, while Williams-Owland made a new record on its rise of 8 eighths to 27 1/2. Studebaker, which was a feature of last Saturday's active operations, made another point or better for a new weekly shipping shares, Westinghouse Air Brake, United States Rubber and Mexican Petroleum. Among rails, Canadian Pacific and New Haven were again strong.

The closing was strong.

Grain Review

Chicago, May 15.—Wheat today fluctuated nervously, influenced on the one hand by good rains in the south west and on the other hand by Kansas reports that the fields were badly infested with Hessian fly. The fact that Oklahoma received no moisture over Sunday tended to handicap the bears and, too, did higher quotations from Liverpool. Opening prices, which ranged from 1/4 decline to 1/4 advance with July at \$1.17 to \$1.17 1/2 and September at \$1.17 to \$1.17 1/2, were followed by a moderate general upturn, as then a material setback.

Later, a decided setback took place, the result of realising by longs who appeared to believe that general rains had brought about substantial improvement in the crop outlook as a whole. The market closed unsettled, 1/4 to 1/2 net lower, with July at \$1.16 1/2 and September at \$1.16 1/2.

Corn hardened owing to storms that delayed planting. Advances were checked, though, by the uncertain course of wheat. After opening a shade to 1/4 higher, prices gained a little more and then underwent a slight reaction.

Subsequently, corn turned downward when wheat prices developed unmistakable weakness. The close was steady at 1/4 to 1/2 net decline.

Oats merely reflected the action of corn. Trade was very light.

Higher prices on hogs brought about an advance in provisions. Commission houses were the chief buyers.

HOGS AT RECORD PRICE

Kansas City, Mo., May 15.—The best hogs sold for \$10.05 on the local market today, which is the highest ever paid here in the month of May. Light hogs, selling for \$9.95, also established a new May record here.

New local records in sheep quotations were established when western winter fed lambs sold for \$12.10 and western winter fed clipped lambs brought \$10.25.

RECEIVE 250 NEW MARKERS FOR GRAVES

B. W. Vander Veer, secretary of the soldiers' relief commission, has just received a shipment of 250 new grave markers for the resting places of Civil War veterans. They are silver colored and are in the shape of a star, smaller and much neater in design than the present ones in use. They bear the inscription Veteran 61-65 and in the corners are the letters F. C. L., meaning Fraternity, Charity and Loyalty.

MAY FESTIVAL IS QUITE SUCCESSFUL

CHILDREN OF VARIOUS GRADE SCHOOLS SHOW ABILITIES IN MANY WAYS.

Children from the grade schools of the city delighted large audiences Saturday afternoon and evening when they appeared in a varied program at the annual May festival in the Grand opera house. The remarkable versatility of children is noticeable in the way they seize every idea, posing, dancing, singing and acting, with all the charming abandon of childhood, mixed with a droll consciousness of their own importance. The appeal of the little folks to the audience was great, as evidenced by the prolonged applause given to each number. No encores were given, lest the program seem unduly long, and the entertainments proved very enjoyable throughout.

The Adams school appeared in a charming fairy tale, where the proverbial prince, princess, king, queen and wicked fairy were as usual, the principal characters. The dancing included, especially good.

The light clover mixed, \$8 @ 9; No. 3 timothy, \$7 @ 8; No. 2 mixed \$6 @ 7; Corn—65 @ 80c; rye, 50 @ 70c; oats, 35 @ 40c.

JOHN P. WHITE TO LAUNCH CAMPAIGN

INTERNATIONAL PRESIDENT OF U. M. W. A. WILL SPEAK AT DES MOINES BANQUET.

Des Moines, May 15.—John P. White, international president of the United States Mine Workers of America, is to be one of the speakers at the banquet May 31, inaugurating the ten day campaign of the Iowa Miners' and Industrial hospital.

Mr. White's enthusiastic interest in the purpose and plan of this new hospital in Des Moines has been a source of encouragement to the hospital people from the start. At the campaign headquarters in the Savery hotel there is much rejoicing over Mr. White's acceptance of the invitation to address the coming gathering.

Mayor MacVicar is to be one of the speakers at the banquet, and when the toastmaster calls upon them, other men of prominence are expected to respond.

Urges United Effort. Mr. White will address the Des Moines last Thursday in connection with the scale adjustment now before a joint committee of the miners and operators. He said the records of the miners' organization will show that he has been a consistent advocate of some hospital plan that would enable the Iowa miners and their families to obtain modern hospital treatment.

THINK SERUM IS INJURING MEATS

INSPECTORS IN THE BIG PACKING PLANTS OF IOWA SAY ITS INJECTION IS HARMFUL.

Des Moines, May 15.—Meat inspectors at the big packing houses are sending complaints to the state veterinarian that the practice of injecting serum for hog cholera prevention into the hams of the hogs is injuring the hams seriously for meat purposes. They are requesting that all veterinarians spare the hams when injecting serum and make the injection in the auxiliary space where the leg joins the body of the hog. Here it is quite effective and does not damage the ham.

The injection of serum into the ham of a live hog spoils the tissues for curing purposes in that particular spot and the hams come out when cured in an imperfect condition. The widespread practice of injecting the serum treatment in the hams is making it hard to get perfect hams.

The government veterinarian stationed in Dallas county, Dr. Koen, will request the railroads having stock yards in Dallas county and in the towns adjacent to that county to clean them up thoroughly and then he will disinfect them. If the railroads will clean them up he promises to do the rest and put them in good sanitary condition. The stock yards is one of the bad places for infection, the government man says, and if they are well disinfected
