Stock Market

New York, May 24.—Reading was the center of concerted attacks on Wall street during the forenoon today, falling to 104 1/2, a decline of 8 points from its record price made on the day before. Other rails, Rock Island excepted, suffered, though in more limited degree, while specialties of various descriptions were variable higher. Chandler, Mo., 105, with gain of 1 point in Mexican advance was the only one to gain. These advances were largely surrendered on continuous realizing sales before noon. Bonds were firm.

Today's farm market operations showed a further reactionary trend, particularly in those issues which recently displayed greatest strength. Reading recorded an initial decline of 1 1/2 points at 107 1/2, subsequently going lower. Most other active rails were lightly lower. Motors were again prominent at gains of 2 to 5 points. Profit taking and short selling combined to depress prices before the end of the first half hour.

The closing was heavy.

Grain Review

Chicago, May 24.—Increasing complaints of crop damage in Oklahoma and southern Kansas resulted today in higher prices for wheat. There were predictions that if hot dry weather continued ten days the result would be an abnormally shrunken yield. Opening prices, which ranged from 1/4¢ to 1/2¢ higher, with July at \$1.09 1/4 to \$1.11 1/4 and September at \$1.08 1/4 to \$1.10 1/4, were followed by a slight reaction and then a substantial fresh advance.

Indiana reports of Hessian fly damage tended further to handicap the bears. Extreme gains, however, were not held. The market closed unsettled, 1/4 to 1/2¢ net higher, with July at \$1.09 1/4 to \$1.11 1/4 and September at \$1.08 1/4 to \$1.10 1/4.

Corn rose with wheat. After opening a shade off to 1/4¢ higher, prices continued almost uniformly higher. Less favorable weather resulted later in additional gains. The close, though, was nervous, at 1/4 to 1/2¢ net advance.

Oats sympathized with the upturn in other cereals.

Higher quotations on hogs caused provisions to mount. Offerings were notably scarce.
