Grain Review—Stock Market

New York, May 24—United States Steel rose to 12 3/4 and Republic Iron, Lackawanna and Midvale Steels, Central Leather and the coppers registered substantial gains with numerous specialties before selling for profits caused average recessions of 1 to 1 1/2 points. Notably Union Pacific and Reading, also improved but fell back later on the acute weakness of several minor issues. New Haven dropped 3 1/2 points to the new minimum of 3 1/2. Denver and Rio Grande preferred broke 5 1/2 to 1 3/4, the common falling 1 1/2 to 3/4. Motors also were under renewed pressure. Trading dwindled on the more uncertain trend at noon. Bonds were irregular.

Many material recoveries from yesterday's late unsettlement attended today's early dealings on the stock exchange. The usual speculative favorites especially equipments, munitions and the war group as a whole, rose from 1 to 1 1/2 points. United States Steel came within a point of its maximum of 12 3/4, which also represented an overnight advance of a point. Shippings were 1 1/2. Cable, marine improving, while Atlantic, Gulf and West Indies reacted slightly. Rails were irregular and utilities were featureless aside from a point gain in Ohio Gas.

Steel dominated the list to the end of the day. Equipments and munitions made further gains, but rails and coppers yielded slightly. New Haven, however, rallied to 3 1/2. The closing was strong.

Chicago, May 24—Bearish crop reports acted as a weight today on wheat prices. The nearness of general harvest operations counted also in depressing values. Trade was slightly larger, but in the aggregate small. Opening quotations which ranged from 1 cent to 2 cents lower with July at 2 1/2 and September at 2 were followed by a little rally, but then by a sag further than before.

Houses with seaboard connections were the chief sellers. In the late dealings weakness was increased by talk of a probable bumper crop of domestic spring wheat, and because of vague rumors of a naval victory over the Germans. The close was heavy at 5c to 6 1/2c net decline.

Enlarged country offerings weakened the corn market. Commission houses led in the selling. After opening 3/4 off to 1 1/2 up, prices underwent a setback all around, to well below yesterday's finish.

Subsequently reports of complete stoppage of shipping demand from the east led to sharp declines. The close was weak at losses of 4 1/2 to 6 1/2c net. Oats turned down grade owing to favorable weather. Holders of the July delivery manifested quite a general desire to unload.

Weakness of the hog market was reflected by provisions. Special selling pressure on lard continued.

HOG MARKET SAGS IN CHICAGO TODAY

Chicago, May 24—liberal arrivals and the fact that their quality was poor made hog prices decline today. Good grades of cattle were in demand, but plain sorts were not easy to sell. Sheep supplies appeared inadequate.
