The Licking Valley Scorchers says: There are 16 registered distillers reported as being in active operation in Morgan. If their product does not exceed as many blended, twice as many broken barrels, blasted hopes blighted expectations, not to mention the destinies of young men turned bellwads, then this people escape full well.

Jack Wood, Joe Ross, David Morse, E. P. and G. W. Cecil and others, are building a stone wall in front of the Methodist church premises at this place, to protect the embankment. In color it was a pale yellow running into a sickly green in places. Inside its body. Black and bright gold ornamented its head and pedal extremities. What was it? BIG BRANCH, Aug. 23.—The teacher of Big Branch school desires me to say that he put his pupils through an examination on Friday last, and they went through with credit. Among those examined were Howard Brewer, W. J. Brewer, Emily J. Swango, James Brewer and Johnnie Brewer, in the advanced class, who surpassed all expectations of the patrons, for the time, five weeks. In the primary class Laura Brewer and J. W. BREATHITT COUNTY.

FROZEN CREEK, Aug. 31.—One of our best farmers had a cow bell lost off of one of his cattle last week, and as soon as he discovered that the bell was gone, he took three of his work hands and started through the woods in search of it, after rambling for some time over the hills they found themselves in a very bad predicament, so they thought no harm of going in and partaking of some of the large melons that lay thick all over the patch. They had scarcely loaded themselves with one, when they saw the owner of the patch coming with a large mill of bacon on his back, and they, of course started to run in different directions, this attracted the owner's attention, so he laid his bacon on the fence and started after one of the party through the green corn; he was not long in overtaking the fellow, who, when found had the corn and melons, and they with his melon, made the owner of the patch help him eat it. When they had finished it the man went back for his bacon, when, behold, one of the party had carried it away. We understand that Jim has offered a reward for his meat, but as yet he has been unable to find it.

Now let the authorities at Camp-pana see that good order is maintained, and to do this no spirituous liquors should be used.
