"UNCLE SAN." Created By an English Caricaturist Long

Some of the distinguishing marks of burlesque-the tags by which the comic artists make their victims known to the public-have been so long in use they can scarcely be traced to their in-

For, instance, there is the familiar and extraordinary figure of our Uncle Sam. Every American acknowledges k nship with him, but few know how he came into existence. Even some of the artists who have depicted him, year after year, in his different moods and attitudes, know nothing of his origin. After making many interrogatories in regard to him and considerable research into his genealogy I learned that an English caricaturist created him in derision long ago. The intent was to embody all the ignorance, egotism, crudeness, pretension and assertiveness of the saucy young country in the quaint figure of the old Yankee. But there was a dignity in the tall, angular, self-satisfied old man which his creators neither meant nor saw. The people of the new country saw it, however, and took him to their hearts. They adopted the idea of the beneficent uncle, and put him into song and story. Then they accepted him as he was portraved, thin and alongated, long-haired, hatchetfaced, and wearing raiment the like of which never was seen on land or seastriped pantaloons of an economical cut, a swallow-tailed coat of most antiquated design, a high hat that is a challenge to all modern headwear, and a vest gaudier than a tropical bird. This became the familiar figure which in comic art represented our beloved country. The idea took defin te form; it became fixed in our fancy, it was a creation destined to live and to grow. Uncle Sam became a fact, a reality, a part of ourselves and our history. He was first made familiar to his peo-

ple in Yankee Notions, a comic paper that flourished more than a quarter of a century ago, but has long since climbed the golden stair. Nast was the first artist to lift our revered uncle out of ridicule and contempt, endow him with proper dignity, and make him a distinctive and honored character, though he claims no credit for it. He says he remembers him as far back as he can remember anything in the way of pictures. The other artists assert that Nast has made him what he is a kind, wise, courageous, quickwitted, sunny-spirited, dignified, lovable old man, keenly active to everything affect ng the interests of his people-in short, a gentleman.

It is interesting to see how the character of Uncle Sam has developed with the character of his people. One realizes this by comparing some of the old for his own eating. He laid it down, and portraits of him with some of the more modern. In Nast's allegorical sketches we have seen him in all the phases of | to shuck. It was just like two old fellows his strong, spirited, and noble character. He has wept with Columbia over the bier of heroes; he has held fast to the old flag when it was riddled with shot and shell; but has turned his gray head aside in humiliation when the pub lie trusts were betraved and honors abused, he has mourned over his slain sons as they lay in the valleys, on the hills, and by the rivers of the South | weighed eight nundred and seventy-six His keen wit has mercilessly punctured shams, and his big heart overflowed with sympathy when the children of his adoption suffered. Dear, quaint, grand old Uncle Sam, may his kind and rugged face ever beam upon us in love and good will. When he smiles his people the sarcastic response.-Live Oak (Fla.) rejoice; when he weeps or frowns they are sorrowful or disobedient.

One of the whims of caricature to make Uncle Sam fat and jolly when when finances langu'sh. Keppler first made him fat in the prosperous days of '79. One of Nast's hits was g ving h m a swollen silver leg and one good solid silver leg during the monetary conference in France and the mining excitement in the West six years ago. The silver leg was gouty, and could only be moved by straps and pulleys. It tied him to a chair and made an invalid of him, of course. - Pillsburgh Dispatch.

### THRIFTY ELOPEMENTS. How the Affairs are Conducted in Si-

It may sound strange, if I mention the fact that, notwithstanding the low marriageable age fixed by law, elopements are common. It is true they are of a quite peculiar sort, and they m ght be divided into elopements with and elopements without the consent of the parents on either side. Tais custom so illustrates the character of the peasantry of all regions, that I must not dismiss it with too brief a mention. Elopement with consent is an important matter. The young pair are agreed | the other: and have the full acque escence of the parents on both sides. But every marriage calls for a wedding, and a farmer's wedding is. under ordinary circumstances, no child's p'ay. The relatives and friends must be invited from distances extending to fifty or a hun- I'm agin you for the Legislatur'."-Chidred miles. The substantial part of cago Herald. the feast is rather a secondary affair to the farmer richly provided with farm products and cattle. but then drink must be furnished, and the National drink is dear, and will be Her song to June's sweet music sweetness consumed on such occa-lons in im- Her carol through the whispering reeds a mense quantities. In order to escape the expense of this provision, which would be borne equally by both fami- List, how her song with birds and zephyr lies, the parents of the bridegroom advise him to elope with his beloved, and her parents advise her to consent to Growis down to G, and then again ascending, the elopement. After receiving the blessings of the crafty parents, the voung people steal away into the bush. On the next day the friends set up a cry as of murder, beat around for a while, and laugh in their sleeves. The young couple must, of course, come back after a little while and receive With love-born speed how swiftly she adforgiveness, for there can be no wedding-feast after such a "scandal." The latter is confined to a narrow circle, and the brandy is saved .- Dr. Alfred Brehm, in Popular Science Monthly.

-A bank book, which has an interesting history, was presented at the Center Savings Bank, a Massachusetts of the book, an aged lady, who s dead, took it out in 1855, depositing 891. In 1856 she added \$35 to her nest-egg, the following December she deposited \$20. 8920, -Boston Globe

A QUEER TRADE. How a Couple of Florida Turtles Managed

to Trade Shells. "I had a soft-shell turtle once," said the Major, "that could beat any turtle on a trade I ever saw. Where I lived the pond on my place was a very small one, and in summer time got pretty low, especially if the season was a very dry one. The summer was a very dry one in 1371, and Judas, which was the name of my turtle, and he was a little fellow-wouldn't weigh over eight pounds-had a bad time of it. The fleas stung him so badly that he was in a fever most all the time. One day I was walking down by the pond when I noticed him and a big turtle talking very earnestly together. I stepped behind a tree so that they couldn't see me, and watched the fun. Judas was trying to get the land turtle to trade shells with him. They argued a long time, and I was afraid Judas wasn't going to make it. Presently a bright idea seemed to strike him. He whispered to old hard-shell, the latter nodded yes, and then Judas went into the pond. When he came out he had a young gosling that had got killed somehow, and he had stored it away

This has been the history of several of the best known proprietary articles now on the market. - Boston Globe.

### The "Mousquetaire."

A Parisian paper prints some amusing reminiscenes of Alexandre Dumas' short-lived paper, the Monsquetaire. The romancer, whose little idiosyncrasies were we'l known, inserted a daily untouched silence, cover d over with notice to the effect that the editor snow-wreaths of exquisite purity, would receive neither complimentary tickets for the theaters, nor books for review, since he made it a rule to pay for the one and to buy the other. Nevertheless the contributor to the Mousquetaire who writes these reminiscences says that he never received so many books and stalls; whenever he asked the cashier for a five-franc piece to buy a stall he was laughed at, and he was obliged to allow hierself to be corrupted. The daily recei ts of the paper were from £16 to £20; but Dumas had always some Jew to quiet, or some bonne amie to soothe, and the cash-box was usually emptyike the pockets of the printer and paper-maker. The unfortunate cashier, who had to bear the heat and burden of the demands for money, spent his time in reading "Jerusalem Delivered." The contributors were no better off than the printer, and when they asked Michel, the cashier-he had formerly Mr. Jones-"A man went down in the been one of Dumas' gardeners at the Bowery last night and killed a woman he Chateau de Monte Cristo -for the price never saw before without the slightest prov- of an article, he would show them with a melancholy air his empt cash-box. Like so many of the romancer's s milar enterprises, the Mousquetaire at length come to an inglorious end.

The second dose eased me so much that I slept two hours, something I had not done for two months. Before I had used five bottles, I was well and at work as hard as any man could, for over three weeks; but I worked too hard for my strength, and taking a hard cold, I was taken with the most acute and painful rheumatism all through my system that ever was known. "I called the doctors again, and after several weeks they left me a cripple on crutches for life, as they said. I met a friend and told him my case, and he said Hop Bitters had cured him and would cure me. I poohed at him, but he was so earnest I was induced to use them again. In less than four weeks I threw away my crutches and went to work lightly and kept on using the bitters for five weeks, until I became as well as any man living, and have been to for six years since. A Sad Case of Poisoning is that of any man or woman afflicted with disease or derangement of the liver, resulting in poisonous accumulations in the blood, scrofulous affections, sick-headaches, and diseases of the kidneys, lungs or heart. These troubles can be cured only by going to the primary cause, and put-ting the liver in a healthy condition. To accomplish this result speedily and effect-ually nothing has proved itself so effica-cious as Dr. Pierce's "Golden Medical Discovery," which has never failed to do the work claimed for it, and never will.

FRANCE presents America with the statue of liberty, and we put up the pedestal-a sort of base ingratitude .- Texas

What can be more disagreeable, more disgusting, than to sit in a room with a person who is troubled with catarrh, and has to keep coughing and clearing his or her throat of the mucus which drops into it? Such persons are always to be pitied if they try to cure themselves and fail. But if they get Dr. Sage's Catarrh Remedy there need be no failure.

THE sky, unlike man, is most cheerful when the bluest .- Worcester Gazette. The grass, unlike man, is most delightful when the greenest .- Oil City Derrick.
