A Profane Man Turned Into Stone.

(Lima, O., Special to Globe-Democrat.)

The following remarkable story was related to the Globe-Democrat correspondent by a reliable farmer who lives near the county line, between Adams and Mercer county, Ohio: Last week, while at work in the fields, a farmer by the name of Sylvester Redyan, owner of several hundred acres of fine farming land in Mercer county, began cursing in a most shocking manner about the drouth injuring his crops, and wound up with an oath that he would cut God's heart out if he would come down. No sooner were the words uttered than a vivid streak of fire, resembling lightning, came down from the cloudless sky and struck Redyan. His companions, who were in the harvest field with him, were rendered insensible for several minutes. When they recovered they were nearly frightened to death at the sight which presented itself. Redyan, the man who just a few seconds before had uttered the terrible curse, had been transformed into stone, and lay on the ground near where he had stood when he made the shocking offer to the Supreme Being. His clothes had been burned from him, and the lips were parted in the stone figure just as Redyan had finished the oath. A awful heat arose from the piece of stone, and so intense that no person could go near it. While the story is so strange that it may not be believed by many, its truth is vouched for by my informant and several others as equally reliable men of that vicinity with whom your correspondent has talked regarding the strange affair. Each of them had been to the place and seen the transfixed body and did not hesitate to say that every word of the account which I have given is correct. One man offered to hire a rig and drive the Globe-Democrat man to the spot, and if things were not as he represented them to be, he would pay the expenses. Redyan was a man about forty years of age, and had a family of a wife and five children, who are nearly wild with grief. Redyan was addicted to swearing and could scarcely speak a word without accompanying it with an oath. The country where the affair happened is not very thickly populated, which accounts for the remarkable transaction not being given to the public sooner.
