A hearty welcome and the most courteous treatment to all. nov21,1y GUS LUIGART, Proprietor.

OVER THE WORLD IN A WEEK.

—The volcano Vesuvius has again burst forth into a state of eruption.

—From two to three hundred school teachers are wanted in New Mexico under the new public school law.

—A tremendous rain and hail storm destroyed nearly 4,000 of standing grain near Crookston, Minn., recently.

—John Brown, a negro desperado of Jackson, Tenn., was lynched for the unprovoked murder of John Gardner.

—Gov. Buchanan, of Tennessee, has designated September 7 as Labor day, and recommends its general observance.

—An American syndicate has been organized to work the coal and marble deposits in the State of Quirato, Mexico.

—At Kansas City, Mo., Frank Lindentine broke the world's high diving record by five feet. He dived eighty-five feet.

—Wm. Taylor, aged 22, son of Col. Taylor of Bath county, Kentucky, drank a pint of water in which Paris green had been mixed. Suicide; no cause.

—In the outskirts of Blocton, Ala., the dead body of Henry Smith, a citizen of Scottsville, was found. The man had been tied and shot. There is no clew.

—The Guarantee Company of North America has offered \$5,000 reward for the arrest of Sylvester Young, the absconded cashier of the N. N. & M. V. railroad.

—The business branch of the Kansas Alliance have made arrangements to store about three-fourths of the present wheat crop of that State and hold it for a higher price.

—Isaac Brown was shot and seriously wounded at Russellville, Ky., recently, by Miner Turner. Brown had been paying too much attention to Turner's wife, hence the shooting.

—The tobacco barn of Speed F. Owen, two miles south of Winchester, Ky., was struck by lightning and burned down. There were five thousand pounds of fine tobacco in the barn.

—Magnus T. Cockerill, who held the office of Coroner of Mason county, Ky., continuously for thirty years past, died last week at his home in Maysville at the advanced age of 83 years.

—During the past fiscal year 39,696 applications for patents were made, 25,307 of which granted. The Bureau's receipts from all sources were \$1,302,794, and the expenditures \$1,145,502.

—Judge Barr, of the United States Court, has decided that the Lexington Belt Line railroad is under the control of the Kentucky Union, and issued an order for the restoration of the property to Receiver Kean.

—Jesse Hulett, the oldest man in Bourbon county, Ky., died at his home near Clintonville last week at the age of 94 years. He was born in Clark county, November 14, 1797, but resided the most of his life in Bourbon.

—The new road from Nicholasville to Irvine, forty miles up the Kentucky river, was opened up for the first passenger train last week. It was crowded with merchants from Versailles, Nicholasville and Richmond.

—An extra session of the Tennessee legislature has been called by Governor Buchanan to convene August 31. A dozen or more subjects are enumerated for consideration, the principal ones being the care and employment of convicts.

—The Sixth, Eighth and Tenth districts of Kentucky are without cadets for the freshman class of the Military Academy. There are about twenty-five such vacancies which Southern Congressmen can fill by making appointments at once.

—Mrs. Helen M. Gougar, the Iowa prohibitionist, will start out soon and follow McKinley all over Ohio and answer all the high protective tariff arguments he makes. She proposes to preach low tariff and high wages all through the campaign.

—The Peoples party of Ohio nominated a State ticket last week, and adopted a "platform of principles." Among many other things the platform calls for woman suffrage, the suppression of bucket shops, election of United States Senators by direct popular vote, forfeiture of the Standard Oil company's charter, compulsory education and free school books, State control of the liquor traffic, Government loans to individuals, free silver coinage, income taxation, abolition of National banks, Government ownership of transportation lines, and plenty of greenbacks.

Beware of Ointments for Catarrh That Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, and acts directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made at Toledo, O., by F. J. Cheney & Co. Sold by druggists, price 75c. per bottle.

THE PROTECTIVE TARIFF

The Prime Cause of All the Farmer's Troubles.

The average tariff rate before the McKinley act was passed was about 47 per cent., or nearly half the foreign price of the imported article. The McKinley act raised the average tax rate to about 60 per cent., which is much more than half the price the farmer might buy at if there were no tariff. On many articles used by farmers the McKinley act more than doubled the foreign price of the imported article, with the effect, of course, of increasing to that extent the price our protected manufacturers, trusts, combines, etc., can get for like articles produced here. On one kind of wool dress goods, for example, of the sort used by the poor, the foreign price is 30 cents per yard; the McKinley tax is 28 cents per yard. On pearl buttons the McKinley tax is greater than the whole price of the foreign article. The same is to be said of spectacles, knives, and a number of other articles the poor must buy.

But the farmer will be more interested in the rates of duty and the increase of duty on the larger items of his yearly expenditure. Agricultural machinery is taxed in the McKinley act 45 per cent. That is to say, the protected home manufacturer is enabled to get nearly half as much again for his goods as they could be had for abroad. This is shown in the fact that our manufacturers sell their agricultural machinery abroad at a heavy discount. The Engineering and Mining Journal of New York, publishes regularly a list of articles which our manufacturers sell abroad for less than they will sell at here. It gives the wholesale prices to Americans and then the discounts off for foreigners. Preceding the list are the words, "Discounts are for wholesale export only." Of course, if our manufacturers sell abroad with a profit at the low prices fixed by English competition, they could, if they chose, do the same here. The discounts given below show, therefore, the extra profit they make out of the American farmer by means of the McKinley tariff. The following is a part of the Journal's illustrated list, and is authentic:

Planet, Jr., No. 2 seed drill, home price \$9; discount to the foreigner, 30 per cent. or \$2.70 off, net price to the foreigner, \$6.30.

Combined drill cultivator rake, plow, etc., home price \$12; to the foreigner, \$8.40.

Fire-Fly hand plow, home price \$2.50; to the foreigner \$1.75.

Hayforks, \$24 per dozen; to the foreigner \$8.40.

Hoes, \$9 per dozen; to the foreigner \$3.15.

Reversible Oneonta clipper plow, iron beam cutter, \$14; to the foreigner \$9.80.

Cast steel garden rakes, plain, per doz. \$8; to the foreigner \$3.20.

Scythes, fine cutlery steel, full polished, \$10; to the foreigner \$6.

Peck's axes, handled, per dozen, \$15; to the foreigner \$7.50.

Peck's hatchets, per dozen, \$8; to the foreigner \$4.

Knives, bone handles, \$15.35 per gross pairs; to the foreigner \$11.52.

Feed cutters, knives ten inches long, \$30; to the foreigner \$21.

Portable forges, \$30; to the foreigner \$12.

Horse lawn mower, \$65; to the foreigner \$32.50.

Empire scroll saw, boxed, \$25; to the foreigner \$20.

Lathe, \$40; to the foreigner \$30.

Meat cutter, \$4; to the foreigner \$2.

Syphon force pump, \$25; to the foreigner \$12.50.

Rat traps, \$30 per gross; to the foreigner \$15.

Butter trip scales, \$10.50; to the foreigner \$5.25.

Whiffletrees, double, 36 inches long, No. 3, \$3; to the foreigner \$1.60.

Windmills, ten feet, pumping, \$75; to the foreigner \$37.50.

These figures show sufficiently that the McKinley tariff is enabling the tariff lords to get too much for their goods, and they show how much more than a fair profit it enables them to get on the articles named.

But the farmer buys other things besides agricultural machinery and tools. He buys salt and pays a McKinley tax of 44 per cent. on it, which means that he pays \$1.44 for \$1 worth of salt. On stoves he pays a tax of 45 per cent.; on bridge and harness, 35 per cent.; on horse shoes, 52 per cent.; on tinware, 55 per cent.; on spoons, 45 per cent.; on saws, 55 per cent.; on wire nails, 150 per cent.; on hammers, 50 per cent.; on brooms, 35 per cent.; on thread, 74 per cent.; on common woolen goods, 111 per cent.; on glass tumblers and lamps, 180 per cent.; on hats, 155 per cent.; on locks, 45 per cent.; on flannel shirts, 100 per cent.; on socks, 120 per cent.; on clothes, 85 per cent.; on paregoric, 40 per cent.; on shoes, 23 per cent.; on bibles, 25 per cent.; on his coffin, 110 per cent. These figures are eloquent. They tell what has become of the farmer's money. His money has gone in the payment of taxes concealed in the price of what he had to buy. His remedy, of course, is to demand the repeal of laws that authorize his fellow-citizens to rob him. What he wants is to buy cheap and keep good money in his pocket, not to forget what hurts him and be persuaded to clamor for light-weight silver dollars.—Baltimore Sun.
