Mrs. Fred Day of this place will please accept our thanks for a basket of very fine cucumbers sent us last week, and her little daughter, Minnie, a child fair to look upon, for the greatest vegetable curiosity yet brought in. It consisted of seven cucumbers on one stem, three of them grown together.

David Morse of this place last week caught a beautiful string of fish, including a thirteen inch bass, several smaller ones, some nice redeyes, chubs and sun perch. He is the boss fisherman of these parts. In a recent fishing contest with Dr. Kash and John Nickell he beat the two of them and is now claiming the championship.

G. T. Genter and G. W. Drake arrested a man by the name of Jones, who fills the description of one Ed Jones, charged with having committed murder in Salem, Ill. The boys think they have the right man. The murder was committed in 1880.

Joshua Robbins, about 78 years of age, was drowned in Big Caney, a tributary of Quicksand, on June 27. As no one saw him at the time of the accident, he is supposed to have been wading the creek just below his home, where he usually enjoyed. On the evening he was drowned the stream was exceedingly high and no person would have been safe in crossing. He was found at the mouth of the creek by a small boy while fishing, who notified Anderson Lovely and Phillip Gubard, who were passing. In a very few minutes the banks were crowded with friends. He was without relatives in this county. Corner Green Taulbee was immediately sent for and an inquest was held. An epidemic of typhoid fever at Concord, Lewis county, has called physicians from Maysville to assist in attending the patients.

The finding of a strange boy about four years of age in Adams county, O., across the river from Maysville, has set about all kinds of rumors. Some say perhaps he was a kidnapped child and was dropped by the kidnappers. The boy was found in the weeds on a farm crying and was so hysterical that he could not give his name or tell anything about himself. An attempt is being made to find out who the child is and how he came to be where he was found.

Amateur gardeners in Indiana who went into potato growing with any amount of courage in the spring are wondering why nothing has come of their efforts. It is true many plants were badly damaged by lice, but the gardeners cannot understand why hardly one potato can be found when the ground is spaded up. One gardener who hoped great things dug up half his garden and found only four potatoes, and those small ones, all on one healthy looking plant. His crop was eaten up by the bugs.

Notice to Correspondents.

During this week we sent out a new supply of stationery to our correspondents which no doubt you have received and of which you will make good use. Our able corps of correspondents are the envy of all country papers; in fact, The Herald is the only paper in the country that makes a speciality of correspondence. It is the aim of The Herald to give more news of persons than of things. It is a personal paper. It is not a daily paper and is not expected by reasonable people to supply all the news of the day. It is a local paper and intends to give the news of Hazel Green and points represented by its correspondents. The people living at places at which we have correspondents should and do owe their correspondents a debt of gratitude. They also owe The Herald a debt of gratitude. Through The Herald these places are advertised and placed on the map. Wherever The Herald goes your locality is advertised. The Herald travels farther and wider than most people imagine. It costs money to set type and advertise these different localities, and how many people appreciate the efforts of ourselves and our correspondents? They are willing to take what we have to give, but when it comes to helping us out in any way how many of the people whom we have advertised will give us an even show when it comes to job work? They are willing to have us print an obituary for them for nothing, but when it comes to job work they will send it to another State or another county and to a paper that never mentions either them or their town. It is not good business for people who benefit by the publication of The Herald to act in such a way as to hamper the thing that is doing them much good. Every place that is represented by correspondents should in justice do all they can for the paper that does for them. It is but right. We are not begging, but we like a fair deal. So we would kindly ask the people who we serve to give us a square deal. If you have printing to be done send it to the paper that prints your news. Our prices are guaranteed to be as reasonable as any one's prices, quality considered. Our correspondents are requested to make their letters as short as possible to contain the real news of their localities. Do not try to write a long letter just to fill up space. Space is valuable, in fact, that is our stock in trade. Be careful to give the real news of your locality especially in regard to births, deaths, weddings, parties, sales, transfers of real estate, oil wells, leasings, and good personals.

We feel a deep sense of gratitude to our faithful correspondents, and no doubt there are many people scattered all over the United States who each week read the happenings around their old homes with much pleasure. So try to improve your letters each week and get them in just as early in the week as possible. We will do all within our power to print them each week. If we failed to send stationery to any one kindly remind us and we will send same.

Lecture at Lee City.

Lee City, Ky., July 18. Editor Hazel Green Herald: Miss Leona Belle Carter, the accomplished daughter of Dr. Frank Carter of West Liberty, was here today and gave a lecture telling us how to dry and save fruit and vegetables with as little cost as possible. She organized a drying club while here with Mrs. Wm. Montgomery, President; Mrs. Charles Garinger, Vice President, and Mrs. Dr. C. C. Wheeler, Secretary. We all enjoyed having Miss Carter with us, and feel that it has been a great benefit to us learning the new process of drying fruit and vegetables. Miss Carter will demonstrate in six counties—Morgan, Wolfe, Menifee, Elliott and Johnson.—Cor.

UNCLE SAM'S RHYMES

J. M. TESTER THE MAN.

J. M. Tester is a man Whose star is shining bright, Search but his record and you'll see The beauty of its light. For twenty years he knew no change, Will know none to the end, His banner bears these golden words, "I am Democracy's friend." J. M. Tester owns a heart Where pure ambitions rise, He seeks the County Attorney's place, And comes with no disguise. With all the knowledge of the law Stamped firmly on the brain, He'll do his duty, it is to him A scientific aim. None better could the county trace, Go search it through and through, And you will find he stands today Before the voter's view, As one whose judgment is so sound, They're not afraid to trust, This sterling man of noble worth, Because they know he's just. There's no use writing a column full Of this man's merits today, A man you've known these many years, Who never went astray. This man of honor, courage, worth, Is steadfast in the race, With one accord let's put him in The County Attorney's place. —UNCLE SAM.

Farmers, Attention.

Be Progressive! Enlighten the Public! Since the inauguration of the "Good Roads" movement in Kentucky and the construction of many miles of the best roads found in America, this state has been quite a haven for tourists, coming from almost every state in the union, and since many of our farmers have failed to recognize and grasp the benefits derived through the medium of publicity—in placing their names on gates and entrances to their farms—I am calling upon the land-owners in every county of this commonwealth to please have a board or sign painted, giving the name of the owner of each farm, also the name of the farm, if same bears such, and post in a conspicuous place, on the gate or post at the entrance to the farm. This will require but little effort and expense upon the part of each land-owner and the benefits derived through such simple and inexpensive methods of publicity can not be over-estimated. Mat S. Cohen, Commissioner of Agriculture.

Wolfe vs. Lee.

To the Voters of Wolfe County: Gentlemen—I have decided to withdraw from the race for County Attorney of Wolfe county for the reason that it looks like Wolfe is having a race with Lee county as to which county should furnish a County Attorney for Wolfe the next four years.

I wish to thank the voters for their efforts in my behalf so far, and at some future time, should the people ask it, I am ready to serve them in the capacity as their County Attorney or otherwise. With kindest regards, Leeburn Allen.

How to Address Letters to Soldiers.

The Postoffice department has issued instructions as to the addressing of letters to soldiers in the expeditionary forces in France. The postage is to be the usual domestic rate of 2 cents an ounce. The letters should be addressed simply with the name of the soldier, the company and regiment, and, as a final subscription, "America Expeditionary Forces." Under no circumstances should the sender attempt to designate on the addressed envelope the location of the unit. The Postoffice department will see that the letters are properly forwarded.

Xenia, O., July 23, 1917. James I. Hollon, Haz-I Green, Ky. Enclosed you will find money order for \$50 for which you will please send me The Herald for 6 months, or such time as it pays for. Give my regards to all. Thank you. Bert Nickell, 135 Center St. Xenia, O.
