

MOON
MADE IN U.S.A.

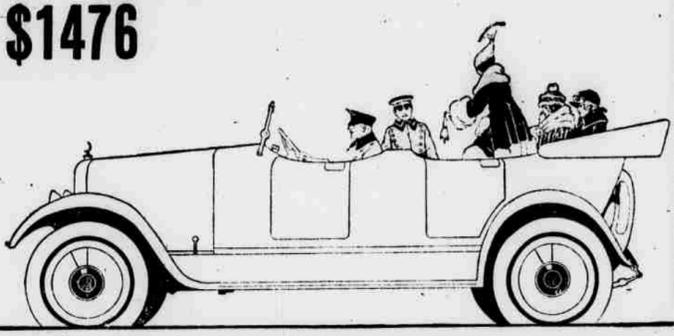

New MOON Six-36

strikes the dominant note of the day. A "military" car in its trim, debonair gracefulness, efficiency and "conservation" advantages. Scores another tremendous success for the producers of the big Moon Six-36—represents the utmost the expert designer, coach builder and mechanic can accomplish at the price—no more than you would be asked to pay for a "quantity" Four.

A glimpse at the car value we speak of: Wheelbase, 114 inches—double cowl and high honeycomb (Feddor) radiator—walnut instrument board, front and rear—solid, beautifully finished—windshield smartly slanted—Spicer joints—Timken bearings—Continental motor.

See this truly lightweight Moon light Six—let us demonstrate for you.

\$1476

C. & S. MOTOR COMPANY
SOUTH SIDE SQUARE BUTLER, MISSOURI.

Keep Your Soil Fertile

The fertility of your soil is your working capital. Everything you have depends upon it. It determines the value of your land, the yield of your crops, the size of your bank account, the measure of your success. Take care of it. Watch it as every business man watches and takes care of his capital.

Every planted acre in the United States that has not been properly fertilized in the past can be made to produce an increase this year. Take that pile of stable manure that has accumulated and spread it on your fields, using a

Low 20th Century Manure Spreader

This is an easy running, light draft, wide spreading machine. It saves labor. It saves time. It saves fertilizer. It increases crop yields. With a 20th Century you can make every acre produce to its limit. It spreads evenly because it gives the manure a double beating, breaks it up into small pieces, and spreads it out beyond the rear wheel tracks. Three sizes—small, medium, and large—all light draft machines with narrow boxes. The size you buy will do just the kind of spreading your soil needs to make it produce bumper crops. Telephone your order, or come in and get a 20th Century spreader. We can make immediate deliveries.

COL. JEFF McCOMBS, Auctioneer. GRANT WOLFE, Clerk.

* * * * *

THIRTY YEARS AGO.
August 15, 1888.

* * * * *

Born to the wife of Henry Randal, of the Harmony neighborhood.—August 4, a son.

Recent rains have insured an average corn crop in Bates county of at least 50 bushels per acre.

Charley Scott, a former Butler boy, has been appointed county clerk of Gray county, Kansas.

Mrs. G. E. Catterlin, wife of Bates county's county surveyor, presented him Saturday night with a fine baby girl.

Mayor G. B. Hickman was called to Carthage Tuesday by the death of his mother, which occurred in that city as the result of dropsy.

An item called the attention of the officials of the Missouri Pacific railway to the condition of the depot at this place. It was said to be the dirtiest and filthiest on the line and the need for a new one was very great. The new one was erected about 25 years later.

Capt. and Mrs. F. J. Tygard celebrated their silver wedding anniversary at their palatial home on Pine street Saturday night. A list of the guests present showed that it was a big affair.

Theo. Garten, who for the last few years has been employed as a cash boy at the Sam Levy store, resigned last week and started for Colorado. After he got to Pleasant Hill he changed his mind and concluded to come back to Butler. He attempted to board a moving freight train and fell beneath the wheels and one of his legs was so badly smashed that as soon as he was brought back to Butler it was amputated by Dr. Boulware, the company's surgeon.

A hailstorm demolished Schell City Saturday night. The News says that the hail stones were the size of croquet balls.

T. H. Smith, who has been spending the last few weeks in Arkansas for the benefit of his health has returned. During his absence his wife has been staying with her parents, Mr. and Mrs. J. G. Walker.

Flag raising and big political meetings were the order of the day, several being advertised in various parts of the county. In those days the people did not have the big daily newspaper, rural free delivery and telephones and had to depend more on the political speaker for the political information. The lawyers from the towns and the candidates were booked almost nightly for speeches at some school house or at some basket picnic.

Within less than 24 hours after the Diamond Shoal lightship off Cape Hatteras, North Carolina, had been destroyed by shell fire, the small unarmed American steamer Merak, 3-023 gross tons, was shelled, torpedoed and sunk by a German submarine near the North Carolina Coast, Tuesday afternoon.

Seven deaths from accidents are recorded from flying fields in this country for the week ending August 3, the war department announced Saturday afternoon. The seven deaths represent one fatality to every 3,249.2 hours flown or 259,940.5 miles of air travel.

SHORT STORIES

Of Local Interest—Clipped From Our Exchanges.

Born to Mr. and Mrs. Elmer Crumley, on Saturday, August 3, a son.—Amsterdam Enterprise.

Mrs. Mollie Hartsell died at her home, 8 miles southeast of Adrian, Monday, August 5th, 1918; aged, 59 years, 4 months and 14 days.—Adrian Journal.

W. W. Hill died at the home of his nephew, E. E. Hill, in Mound township, July 24th, 1918. He was stricken with paralysis July 19th, and never rallied.—Adrian Journal.

Mrs. Flora VanBuskirk, a pioneer citizen of Appleton City, died at her home in that city August 1. She was about 76 years of age and had for many years been a resident of that city.

Postmaster Sam Jamison, of Rich Hill, has received notice that free mail delivery will be commenced in that town September 1. It will commence with one delivery each day to the residence part of town and two to the business part.

Dr. E. V. Rawlins, of Appleton City, who some time ago volunteered for army service, went to Springfield last week and successfully passed his examination, says the Journal. He was informed that he was liable to be called for service at any time.

Mayor Smith, of Urich, has received notice, says the Herald, that the Missouri Union Telephone company had filed an application with the Public Service commission asking permission to raise the rates for service in Clinton, Deepwater, Windsor and Urich.

The body of Wm. F. Lanman, who died in the State Hospital at Nevada, July 30, was shipped to Hume, Friday, and taken to Foster for burial. Deceased, was over 50 years of age, and a brother of Mrs. R. H. Goodman, of New Home township.—Hume Telephone.

H. B. McDaniel, who was so badly injured when he fell backwards off of the coal dump at the loading dump of the Appleton City Fuel Coal Company, died at the Stebbins hospital, at Nevada Monday of last week, says the Journal. Mr. McDaniel had driven his wagon on the dump and was trying to loosen the end gate when he lost his balance and fell backwards, striking his head on the car on the siding.

W. C. Foster, jr., lost nine head of cattle one day last week from prussic acid poisoning caused by eating kaffir corn. Mr. Foster turned the stock on kaffir for grazing. After eating a short time the cattle keeled over in their tracks, dead. Don't let stock on kaffir, milo maize, fetaria, or kindred forage crops, at this time of year, and especially when it is so dry and hot. The juice of these plants undergoes a process that turns a certain amount of the juice into prussic acid, a virulent poison.—Hume Telephone.

Last Sunday night between 10 and 11 o'clock fire broke out in Henry Harrison's barn on his farm northwest of Altona, and the building and its contents were soon destroyed. The building was 40x42 feet and 14 feet high and substantially built. The contents consisted of 400 bushels of oats, 20 tons of hay, a binder, buggy, disc, harness and many other things of value. At the time Mr. Harrison and daughter were at church in Altona, Mrs. Harrison being alone. The fire originated in the barn loft. Its origin is a mystery.—Adrian Journal.

Another Paper in Rockville.

Rockville has a new newspaper. There is nothing particularly new about that as there have been several new papers there in the last few years. It is rather fascinating for a subscriber to take his paper from the office and speculate on what name adorns the front page each week. Lewellyn Smith, now editor of the Republican Press, of this city, tried for a time to get out a booster, but some how it did not "boost" and Smith had all sorts of trouble and finally gave it up. Then along came a gentleman from "somewhere," it is not known just where, and took a shot at it. After awhile he secured a partner, from Kansas, and they got out a good, newsy paper, which they called the Rockville News. It seemed that the senior partner could not stand prosperity and according to the following story, under the heading Death and Birth, in the Rockville Review, successor to the News, he also folded his tent and stole away:

"With last week's issue The Rockville News passed out of being owing to the fact that the man who was responsible for its birth took upon himself the responsibility of collecting all the outstanding bills due the office, that he could reach, put the proceeds in his pocket, shook the dust of Rockville off his feet and departed. In addition to his business associate he also betrayed the gentlemen who assisted him to borrow the money necessary to pay for the services of the wet nurse who officiated at the birth thereof, and left them heir to the debt."

We wish the new editor all sorts of good luck and hope that he will be able to keep the Review afloat for many moons.

Only Real Wild Animal Show on Earth

Al. G. BARNES

BIG 4-RING WILD ANIMAL CIRCUS

The Show That's Different

1200 PERFORMING ANIMALS 1200-103 Big Sensation - 103 al Animal Acts
