

GLASGOW REPUBLICAN.

It is known to most of those who subscribed for the paper proposed to be published by the undersigned, under the above title, that its publication has been abandoned.

By an arrangement with Messrs. GREEN & SHIRLEY, publishers of the Times, all who subscribed for the Republican, will be furnished with that paper, which is now permanently established in Glasgow, and will be published on the same terms which the Republican was proposed to be issued.

All who have Prospectus of the Republican in their hands, with names appended, will confer a favor by copying the names, and sending them to me, at the Times Office, which paper they will receive by return mail. The Prospectus can be kept and more names procured and forwarded.

I return my sincere thanks to the many friends who so generously stepped forward and gave me essential aid in the proposed undertaking; and while returning them my unfeigned thanks, would solicit a continuance of their efforts in behalf of the Glasgow Weekly Times, in the prosperity and success of which I am interested.

Friends who may desire to see me on business, will find me at the Times office.

Respectfully, CHARLES H. BARRON.

GEN. STERLING PRICE.

We understood from passengers on the Mandan, which lay here last night, that Gen. Price and a part of his staff have gotten in, and that Gen. P. left Independence for home, Tuesday morning. He most probably got home yesterday. They came in advance of the troops.

We do not see that our Cambridge friends can be benefited by the publication of the communications forwarded us.—They have nothing to gain by a controversy with as benighted a soul as the author of the fatherless production; who seems to have been unable to bring himself into notice through any other channel than by finding fault with a subject he knows nothing about.

Hon. Wm. A. Hall of this Judicial Circuit, who was appointed Associate Judge of Oregon, has declined the appointment. The Judge left this place for Calloway county this morning, to attend Court there. The information of the declination was obtained from him.

David Graham, Esq., of New York, who was one of the leaders in the Clay movement in that city, since the receipt of Gen. Taylor's last Allison letter, has written a letter to the New York Tribune, pledging himself to support Taylor and Fillmore.

MORE OF THE EL DORADO.

The following extract of a letter to a gentleman in Washington, is kindly furnished us for publication. It confirms all that we have said about the gold discovery in California, and is struck off in a very spirited style. We know not which most to admire, the curious facts which the writer states, or the charming manner in which they are presented.—Washington Union.

MONTEERY, UPPER CALIFORNIA, July 3, '48. DEAR SIR: I gave you in my last letter some account of the mineral wealth of California. Silver, quicksilver, lead, and zinc, have been found in our mountains, and now it has been discovered that the sands which lie along Feather river, on the American fork, branches of the Sacramento, are richly impregnated with gold. It is found in a shape resembling snow flakes, and is washed from the sand with great ease. A person with a basin or bowl, will wash out from one to two ounces a day. Some, who have been more fortunate in the selection of their spots, have more than quadrupled this amount. There is a man in Monterey who washed out five hundred dollars in six days. Every body is now going or gone to this gold region. Some thousands are on the spot, and more on the way. All Oregon, as soon as the news reaches there, will be down upon us. You can hardly hire a laborer here for ten dollars a day, and on the gold river he charges fifty. Mechanics, lawyers and doctors, have all left for the gold region. Soldiers run from their camps; sailors from their decks and women from their nurseries; their cradles answer for machines to wash out gold.

San Francisco, Sonoma, Santa Cruz, ad San Jose, are deserted of their inhabitants, and the mass is beginning to move from Monterey. I shall soon be in the condition of a colonel with his regiment disbanded. The tract of country in which the gold is found, extends over a hundred miles in one direction, and some forty in the other. It is supposed that ten thousand persons might work for years and not exhaust it. They have worked as yet only on the margin of the streams, on account of its convenience to the water; but gold has been found leagues distant, and even on the mountains. Bows and basins have been in great demand among the gold washers. Tin pans have found a ready sale at eight dollars each; shovels at ten dollars; a trough scooped out of a log, with a willow sieve in it, one hundred dollars; and boards, at the rate of five hundred dollars for a thousand feet. The price of board on the gold streams is three dollars a day. For this the boarder gets coarse bread, beef, beans, a tree to sleep under, and an owl to hoot in his ear at night. The gold is sold here for fourteen dollars the ounce, and is worth eighteen at any mint. I know a little boy only twelve years of age, who washes out his ounce of gold a day, while his mother makes root beer and sells it at a dollar a bottle.

The fighting is all over with us here; people have no time to pick their flints; they are too much engrossed in picking gold. The Placer was discovered some time since by a Mormon, but kept it a secret till May last, when the golden chicken burst its shell, and is now a full grown cock, whose crowing has woken up all California, and will yet disturb the slumbers of other lands. The El Dorado of fiction never prompted dreams that revolved in gold like the streams which shoot their way from the mountains of California. They roll with an exulting bound, as if conscious that their pathway was paved with gold.

Mr. Wm. Probst, of the steamer White Cloud, will accept our thanks for a package of New Orleans and Memphis papers, forwarded per Haadee.

Honors.—The Hunkers have a most heroic set of managers and candidates. They have now before the country!

Cass.—The Hero of the Broken Sword. Cushing.—The Hero of the Broken Leg. Croswell.—The Hero of the Broken Bank. Walworth.—Hero of the broken down Court of Chancery.

We find the above slip in the Evening Post, and it is quite malicious enough to be original there. It is the sarcasm of an old supporter of these broken down sundries.

We find the following in the Natchez Courier of the 8th inst:

Hon. Henry Clay.—A letter from this distinguished statesman was received in town a few days since. In it he stated that he should cordially support Gen. Taylor, and expressed surprise that any one could have thought for an instant that he would take any other course.

FEVERS.

Fevers, like every other form of disease, are only an effort of nature to expel from the body something that is opposed to health; it is merely a struggle between the good and bad humors for supremacy, and the commotion which ensues is called Fever. The usual symptoms of a Fever are heaviness, anxiety, sighing and yawning, with alternate fits of cold and heat, after which the patient complains of pain in the head and back, thirst, difficulty of breathing, pain in the limbs, a sense of fullness about the region of the stomach, nausea and sickness, with sometimes a vomiting of bilious matter.

Wright's Indian Vegetable Pills will be found peculiarly adapted to the cure of ALL KINDS OF FEVER, because they not only thoroughly cleanse the stomach and bowels from all bilious humors, but they open those excretory vessels which empty into the bowels; and consequently the impurity contained in the circulation, (which is the cause of all disordered motions of the blood, called Fevers,) is thrown into the bowels, from whence it is carried off by the regular saline discharges.

In using Wright's Indian Vegetable Pills for Fevers, the only care necessary is, to have the medicine operate COPIOUSLY BY THE BOWELS. If the symptoms are urgent, from four to eight pills should be taken, night and morning, until the fever has subsided, after which smaller doses, one in twenty-four hours, will be sufficient to restore the body to a sound state of health.

Beware of Counterfeits.—THE ONLY ORIGINAL AND GENUINE INDIAN VEGETABLE PILLS HAVE THE SIGNATURE OF WILLIAM WRIGHT WRITTEN WITH A PEN ON THE TOP LABEL OF EACH BOX. None other is genuine, and to counterfeit this forgery. The genuine is for sale by BOON, TALBOT & SMITH, sole agents for Fayette; D. C. CHAMBERLAIN, Champion's Mill; S. CARROLL, Glasgow; FELIX REDDING, Keytesville; M. T. ATKINS, Brunswick; and wholesale and retail by HENRY BLANKLEY, St. Louis. Office and general depot, 109 Race Street, Philadelphia.

Commercial.

Office Glasgow Weekly Times, October 5, 1848. There has been a steady decline in our river for the past week or two, in consequence of which, shipping to any considerable extent is effected with difficulty even at a great advance upon former rates; we have had no arrival from Saint Louis since Monday Morning, when the Mary Blanc reached here and her officers report 30 inches water on the lower bars and gradually falling.

Sales of produce to considerable extent have been made during the present week, though principally in the articles of Wheat and Bacon; the former readily commands for prime and choice lots 50c.; inferior to fair 40c.45c; though there is but little of the last grade in our section; and the latter which now comes in rather sparingly, commands for good clear Sides and sound Hams 3c. COLVER'S Patent Concave Beater Churn. WE call the attention of the public to the article heading this advertisement, and invite the enterprising and curious to call and witness its operation. All advertisement in relation to this invention, to the hundreds who have seen it tested, is supererogation.

First. This Churn will produce butter, gathering it in a mass, from a sweet milk, in five to ten minutes, and from cream prepared, as families usually prepare it, in three to five minutes.

Second. The utility of this invention is apparent, as better butter can be produced from sweet milk, or cream, than cream soured in the usual way; and by means of this Churn, a little girl or boy can perform, in five or ten minutes, what has heretofore required the labor of a woman or man for one or two hours, and sometimes half a day.

Third. By simply turning a thumb-screw, the whole inside dasher is taken out, leaving nothing but the butter and milk in the plain wooden box.

Fourth. It is the cheapest Churn ever invented, as the simplicity of its construction (though embodying a great philosophical principle,) makes it but little to manufacture it.

Fifth. It is a common sense Churn, as all will admit who will examine it.

We are now offering the complete monopoly of this staple article in States and counties, which will insure certain and large profits and a speedy return of investments.

Wright's Indian Vegetable Pills. CURE FOR FEVER AND AGUE. RESELLVILLE, PUTNAM CO., Indiana, July 1, 1848. Dr. WRIGHT—Some time since your agent left me a supply of Indian Vegetable Pills. I have found said pills to be in great demand lately for the cure of fever and ague. Mr. James Boyd has a son who has been laid up with fever and ague, and had tried various other remedies, all of which proved of no avail. He determined to try your pills, and he is using one box, and he is now sound and well. Mr. T. Spencer had a daughter, Mr. Hugh Groves a son, and Mr. Charles Nichols and three of his family, were all down at the same time with fever and ague, and had also tried the various other remedies without effect. Your Indian Vegetable Pills soon restored them all to perfect health. I can assure you, from what I have seen, your Indian Vegetable Pills may be relied on for a permanent cure of fever and ague. Yours, resp., JACOB DURHAM, P. M.

Also, an acting justice of the peace. This is to certify, that I was entirely cured of the chills and fevers of several months standing, by the use of four doses, of four pills each, of Wright's Indian Vegetable Pills, and after taking medicine from a regular physician for some time, and have had no symptoms of it since, which has been about one year ago. J. W. SENCENEL, Texas, Champaign county, Ohio.

This is to certify that I was cured of the chills and fevers by the use of Wright's Indian Vegetable Pills, after having had three attacks of it. DAVID BERRY, Sugar Grove, Fairfield county, Nov., 1846.

Let it be remembered that WRIGHT'S INDIAN VEGETABLE PILLS are prepared with special reference to the laws governing the human body. Consequently, they are always good, always useful, always effective in rooting out disease. Every family should keep them at hand. AGENTS IN HOWARD COUNTY.—BOON, TALBOT & SMITH, Fayette; D. C. It is an internal remedy, and cures by its action on the bowels and blood, the relaxed state, which is the cause of the above named diseases.

Letter of Capt. G. W. McLean, late of the U. S. Service, and member of the N. J. Legislature. RAILWAY, June 10, 1847. "I have been afflicted for years with the Piles, and have tried without anything like permanent benefit, almost everything assuming the name of a remedy. I had, as a matter of course, lost all confidence in medicine. Under this feeling I was induced—'not without reluctance, I confess—to use Uplam's Electuary; and having used it for about three weeks, according to the directions laid down, I find to my utter surprise, as well as satisfaction, that every symptom of the disease has left me. I think it due alike to Dr. Uplam and myself to make this statement."

Dr. McLane's Liver Pills. For the Cure of Liver Complaint, Dyspepsia, Sick Headach, and all Bilious Complaints. The liver is much more frequently the seat of disease than is generally supposed. It is now generally admitted by Physicians of reputation and experience, that more than one-half of the complaints which occur throughout the great valleys of the Mississippi, have their seat in a diseased state of the liver, and that more than three-fourths of the diseases enumerated under the head of Consumption, have also their seat in a diseased liver.

Case in St. Louis of one year's standing. St. Louis, Mo., May 5, 1847. Dr. E. EASTERLY—Sir: I hereby certify that I have been afflicted for more than a year, with the liver complaint, and have applied to different physicians, and all to little or no effect, until I made use of Dr. McLane's Liver Pills. I am happy to inform you that I was perfectly cured by the use of one box. I can therefore, in justice, recommend others who are troubled with a diseased liver, to make a trial of these Pills.

Truly yours, ROBERT HALL. Residence, Fourteenth and Biddle streets. Individuals suffering with Liver Complaint, Dyspepsia, Sick Headach, or any bilious disease, are earnestly advised to make a trial of Dr. McLane's Liver Pills, as they have been prepared by a regularly educated Physician, who has had an extensive practice and experience in treating the above complaint. He confidently recommends as being the very best and most deserving remedy ever presented to the notice of the afflicted.

Smith's Tonic Syrup. VEGETABLE FEBRIFUGE. SPEEDY SAFE & CERTAIN CURE OF AGUE & FEVER.

Chill Fever, Dumb Ague, Intermittent Fever, and all the various forms of BILIOUS DISEASES. This valuable medicine is undoubtedly the safest, surest and best remedy ever discovered for the cure of the above named diseases. It not only breaks the chill, but removes the cause from which the disease originates. Its operation is both general and specific.

While it acts generally upon the whole system, as a most powerful alterative, purifying the fluids, freeing the solids from all morbid secretions, and reinvigorating and bringing up all the vital energies to a standard of permanent health; it at the same time exerts a specific influence upon the liver, digestive organs and lymphatic and glandular systems; exciting them to healthful activity, removing all morbid matter, equalizing the circulation, restoring their proper and necessary secretions, thus accomplishing a complete renovation of the system, and restoration to sound and permanent health.

It will be readily conceded by every intelligent mind that a Tonic Syrup composed of the most valuable ingredients, carefully selected from the Vegetable Kingdom, must possess far more potent properties for the complete eradication of the diseases for which it is especially prepared, than can possibly be comprehended with the limited quantity usually administered in the form of Pills.

Those who are suffering with the prostrating AGUE and FEVERS common to the west and south—those whose constitutions have become enfeebled by the use of mercury, quinine, or other violent remedies—should resort at once to the use of this VALUABLE MEDICINE. It has cured all the most obstinate cases. Travelling with the circulation, it purges its impure current through every vein and artery of the human body. The whole animal economy is made to undergo a thorough radical change. Even the mind partakes of the healthful process, and life, that before appeared too dreary waste, begins again to seem worth possessing.

Pamphlets respecting this valuable medicine, can be obtained of the agents gratis.

As there are many spurious preparations of similar name hawked about the country and sold on the reputation of the genuine SMITH'S TONIC SYRUP, we therefore beg leave to caution the public against imposition, as we cannot hold ourselves responsible for the effects which may result from the use of spurious articles.

H. BLANKLEY & Co., south-west corner of Third and Chestnut streets, St. Louis, General Agents, to whom all orders must be addressed. Sold also by Dr. Snelson, Fayette; Dr. Henderson, Glasgow; MALONE & GARTH, Huntsville [May 6, '48.

JOHN W. ROBINSON, Administrator. September 30, 1848.—30w3

Men Die of their Prejudices! There have been thousands doubtless, who suffered disease to destroy their happiness here, and even life itself, rather than resort to the use of what is generally styled "Patent Medicines;" no matter what health-improving virtues these may have possessed. Accustomed to hear a cry against these remedies, they choose to deprive themselves of the happy benefits they might have received from them, and vainly endeavor to bolster up their falling condition by the ordinary patronage of the day, which were less efficient, though perhaps more harmless and costly. But we rejoice that these fearful prejudices are fast losing their sway over the minds of the people, by the many truly wonderful cures performed by the successful combination of medical agents for the removal of all diseases of the lungs and chest.
