GLASGOW LIVELY STABLE.
NEW ARRANGEMENT.
The subscriber begs to announce to his friends and the public that he has purchased the interest of his late partner in the Glasgow Lively Stable, and will continue the business at the old stand, where he will at all times be prepared to accommodate the travelling public, at moderate rates, with SADDLE HORSES, BUGGIES AND CARRIAGES. The stock and vehicles are good, and constant additions will be made, as the business may require. A GOOD HEARSE and carriages always ready to attend Funerals in the place or vicinity. Accounts with permanent citizens kept as usual, but in consequence of recent heavy losses, transient persons and "young men about town" will be expected to deal on the cash principle. A. A. PUGH, Glasgow, March 2, 1854.

HORSES CURED.
The subscriber will give particular attention to the diseases of Horses, such as Big Head, Poll Evil, Fistula, Ring Bone, Spavin, and all other diseases, warranting a cure or no pay. Having engaged the services of a gentleman experienced in horses and their diseases, those having diseased animals would do well to give him a call. Horses left in his charge will be grain fed or pastured, as the nature of the case may require, on moderate terms. A. A. PUGH.

Lands for Sale or Lease.
I have for sale or lease, on accommodating terms, both improved and unimproved farms in Howard, Cooper, Saline, and Chariton counties. For particulars apply to my residence near Glasgow. TALTON TURNER, Glasgow, November 24, 1853—14

AGENTS.
AUDRAN—\$50,000.—The County Court of Audrain, on the 13th inst, subscribed \$50,000 to the North Missouri Railroad.

PEORIA.—The first train of cars on the Bureau Valley Railroad came into Peoria last Tuesday amid the firing of cannon, the blazing of bonfires, and the shouts of citizens. The Peoria papers date the rise of their city from that day, and congratulate the citizens on the great event.

THE ENGINEERS.—The Trustees of the Association known as "The Engineers," having visited Kansas with a view of making a settlement in that Territory, have returned, and report a location made there of 100,000 acres.

RUNAWAY SLAVES IN CANADA.—A correspondent of the Republican, writing from Canada, says that American citizens will have no trouble to retake their slaves in Canada, if they can find them. He says there are a large number of them in the towns and villages in that country, and that the whites are tired of them and wish they were taken away. He saw a large number of negroes in Linden and Clinton, 120 miles from Detroit. The cars pass through these places twice a day, and the people informed him that nearly every train from the south brought in negroes. The British Parliament is now doing what it can to legislate all negroes out of Canada.

Rev. J. T. Hendly the author of the "Divers and sundry works," has been elected to the New York Legislature from the Newburgh District, Orange county.

A QUESTION OF COLOR.—A Mr. Pindell of Boston, sued the city for damages because his boy was ejected from the public school on account of his color, that of a light mulatto, and directed to be sent to the colored schools. The question to be settled, was whether the boy was sufficiently "colored" to come within the rule of the Supreme Court, that the city of Boston has a right to provide separate schools for colored children. The damages were laid at \$500.—The jury returned a verdict in favor of the city.

O. A. Brownson, the distinguished Catholic divine, is delivering a course of lectures in Chicago, on "The Mission of the United States."

The Presidency of the Senate.
The following is from the Washington Star—
"It is understood that Hon. Senator Atchison, of Missouri, will not be in Washington during the coming session of Congress. His term expires on the 4th of March next, and we take it for granted that his determination to remain in Missouri during the winter, to enable him to attend to his part of the contest with Col. Benton, the end of which may not come off for some months yet. His absence from the Senate chamber will make the election of another pro tem, President of the Senate necessary. From all we learn, there can be little doubt that that honor will fall upon Senator Rusk, of Texas. At least that is the opinion of all here who are credited with being men of shrewdness in looking upon things political.

Monument at Buena Vista.
The attention of the reader is seriously invited to the following paragraph, which is an extract from a letter dated at Vera Cruz, October 24:
"We were quite startled the other day, and scarcely trusted our eyes, when we read in the Eagle Comercio, of the 19th instant, that Don Jeronimo Corona, governor of Coahuila, (and I think a brother of the governor here,) had asked permission of the supreme government at Mexico, to have a monument erected on the battle-field of Angostura (at Buena Vista, as we call it) in commemoration of the glorious victory obtained by the arms of Mexico, headed by that war-metres the illustrious hero of a hundred fights, (and San Jacinto besides,) his serene highness Don Antonio Lopez de Santa Anna, over the North American invaders!"

Truth is strange—stranger than fiction!—This is one way of commemorating the achievements of an army of twenty thousand men who were repulsed, beaten, and finally driven off the field by a handful of raw but heroic volunteers. We shall next hear of monuments to Mexican valor and invincibility at Vera Cruz, Cerro Gordo, Molino del Rey, Chreschuzco, Chaltepoo, and the city of Mexico.

KANSAS ITEMS.
From the Kansas Herald, 10th DELEGATE TO CONGRESS.
We are authorized by Gov. Reeder to state that an election will be ordered for a Delegate to Congress, to be held on Wednesday, Nov. 29. The proclamation is not yet issued, because of the difficulty in defining the bounds of the election districts with certainty, and fixing the places of election with convenience to the settlers. All the necessary information as to the greater part of the Districts, was collected by the Governor on his recent trip through the Territory, taken principally for that purpose. Some few of the Districts, however, as we are informed, are not yet arranged, and cannot be for a few days. The election however, will certainly be held on the 29th, and the Proclamation, containing a list of the Districts and of the places of election, will appear next week.

GOVERNOR'S TOUR.
Gov. Reeder returned to the Fort on Wednesday last, after an absence of about two weeks, making a tour of observation in the interior of the country. We learn he is highly delighted with his trip, and speaks in the highest terms of the country over which he passed. He was welcomed with a right hearty good will wherever he went.—After leaving Uniontown he proceeded on as far as Council Grove, stopping on the way at Fort Riley. Council Grove is on the Santa Fe road, and upon the head waters of the Osage River, and is about 150 miles out from Independence. There is a fine body of timber on the stream, good springs, and the soil is equal to any portion of the country. Already there is quite a large settlement where the Santa Fe road crosses, where a town must be built, for it is about the last resting place before launching out upon the plains.

CANNEL COAL.
We have seen specimens of cannel coal of good quality, obtained in the vicinity of Leavenworth. Those who are well acquainted with this article, assure us it can be obtained in almost any quantity within two and three miles of it. We also learn that some two or three thousand bushels of coal have been dug out of a bank within four miles of our town. Coal, however, can be found along the river bank and in the ravines in large quantities. Taking this for granted as true, which no one here pretends to doubt, it will make fuel but a small object, and farms can be opened and supported with very little timber. What, then, will pretend to say that the Delaware country cannot be as densely populated as any portion of Kansas Territory. The soil is unsurpassed in fertility, water abundant, and many places in the interior well skirted with timber. It may be ascertained to a certainty that coal exists in the vicinity of Leavenworth, and in the interior upon the Delaware lands, there is no doubt but it will greatly enhance the value of the country, and cause it to be settled with a dense and thriving population.

BANK AT LEAVENWORTH.
A Banking establishment we learn is about to be located at this place, by Lucien Ayer, President E. W. Raymond, Cashier. The bills have already been printed, and are of all sizes, from one dollar up. We know nothing of the solvency of the gentlemen, or upon what basis the notes will be issued.—We will speak more of this hereafter. One thing we can say, Leavenworth is a good point for a sound and good banking establishment. The title of the bills of the proposed Banking institution is the "Merchants' and Farmers' Bank of Ft. Leavenworth."

Another Secret Society.—We have received an anonymous letter from Missouri stating that a secret organization exists in all the upper counties of that State, the object of which is to carry slavery into Kansas at all hazards. Men are pledged to repair to that territory on the night preceding the election, present themselves at the polls next day, and cast their suffrages for slavery, and its candidates. The society is said to number several thousand members already. Senator Atchison has the credit of organizing it, and the Rev. Thomas Johnson, late delegate in Congress from Nebraska, is employing it to tempt himself into the same position from Kansas.—New York Tribune.

The ladies will be interested by the following paragraph from a fashionable Journal:
A Parisian *modiste* has invented a new head covering which will supersede everything else. It is a bonnet, which also has a neat, tasty cap. By moving the upper part a process as easily done as raising your hat from your head, a charming *coiffure* is left which is one of the most becoming head dresses ever seen. "How nice!" as (bread and butter school girls would say) for delectables, theatres, concerts and the opera.—This novelty is already in London, and gives much satisfaction. It is original—very.

FROM THE PLAINS.
The Sacramento Union furnishes the following information relative to the overland immigration:
Messrs. Joseph Morton, Thos. J. Morofee, Richard O'mstead Thurman, R. and L. Baley, John Thompson, A. J. Tibbitt, and William Ryan, who left the Missouri river on the 13th of May, have all arrived in this city, with the exception of the latter person who died of Cholera at Fort Kearney. On the Humboldt, Mr. Barnes, John Riley, and a Mr. Crooks joined the party, and accompanied it the remainder of the journey.—Our informant started with two hundred and forty-five head of cattle, one hundred of which were lost, twelve of them perishing from the prevailing epidemic.

At Carson Valley was Mr. Bradley, who furnished our informant with the following particulars of his trip. On Bear river, near Soda Springs, about the 1st of August, Mr. Bradley and train were surprised by a large party of Indians, and robbed of a portion of their stock.

Immediately after their departure, a small party headed by Mr. Cooper, joined Bradley and, mustering thirty men, started in pursuit of the depredators. They came up with the Indians after a chase of some twenty-five miles.

The Indians, who numbered over a hundred, were well armed with bows and tomahawks, and some few of them had rifles.—After a desperate conflict, the emigrants succeeded in totally routing their red enemies, having killed thirty of them, and wounded many others. The whites lost but one man and five or six only were wounded.

Mr. Bradley lost four hundred head of cattle on Carson River by disease.

Mr. Myers, of Ohio, having fifty-five head of horses, lost three of them at the head of Goose Creek, the Indians riding up to the train in broad daylight, causing a stampede and then driving the stock off into the plains.

OREGON.
More massacres by the Indians are reported. On the 15th of August, about twenty-five miles east of Fort Boise, on the Jefferson road, three men named George Lake, Walter G. Perry, and F. B. Cantrel, attached to an emigrant train, were met by the Indians, and being behind their companions, were about leaving the Indians, when the latter fired at and wounded the two former. The whites killed two of the Indians, and in a running fight, which ensued, Cantrel was killed. The wounded men subsequently died. Great indignation is exhibited against the Agent of the Hudson Bay Company at Fort Boise, who continues to sell arms and ammunition to the Indians. They say that they will continue to do until orders are received. One party were saved from slaughter by a half-breed, who told the Indians that the company were not immigrants but attached to the settlements of the Hudson Bay Company. At this they evinced much friendliness.

Another Secret Society.—We have received an anonymous letter from Missouri stating that a secret organization exists in all the upper counties of that State, the object of which is to carry slavery into Kansas at all hazards. Men are pledged to repair to that territory on the night preceding the election, present themselves at the polls next day, and cast their suffrages for slavery, and its candidates. The society is said to number several thousand members already. Senator Atchison has the credit of organizing it, and the Rev. Thomas Johnson, late delegate in Congress from Nebraska, is employing it to tempt himself into the same position from Kansas.—New York Tribune.
