## AMUSEMENTS

Perfect pictures are always admired but perfect animated pictures have become a popular craze. The highest standard of excellence in moving pictures has been attained by the Bioscope company which opens a three nights engagement at the city opera house tonight. Expensive apparatus, the best artists and a careful discrimination between the interesting and the commonplace has been combined to make the selection of the Bioscope company's wonderful pictures an admirable effort. Tonight the visitor at the city opera house will live for two hours in the far east. He will see the Japanese soldiery marching through the streets of Tokio, to embark for the front, the ponderous battleships of the two great navies manoeuvring before Port Arthur, the grim visaged Cossack on picket duty and skirmish line in far off Korea and he will hear a lecture which will better enable him to comprehend the status of the great struggle in the east and permit of a more intelligent reading of one of the most bitter and picturesque struggles in history. As an instructive and thoroughly interesting entertainment the engagement of the Bioscope company promises to be the best thing ever seen in the city. The seat sale will continue at Barker's until seven o'clock.

## WAS NOT BEMIDJI

Feat of Famous Chief White Cloud Credited to Chief Bemidji.

In yesterday's Duluth Herald appeared an excellent and well written article from the pen of "Doc" Rutledge, the Cass Lake newspaper man, covering the life of chief Bemidji in Mr. Rutledge's best and most comprehensive manner.

Mr. Rutledge's story of the chief is one of the best things which has ever been written of him, but those familiar with the chief's history state that he is credited with one feat which does not rightfully belong to him. The story states that during one of the encounters between the Ojibway's and the Sioux, Bemidji slew in battle alone and unaided twelve Sioux warriors.

The event actually occurred according to the best historians at one of the battles between the Indians taking place on the ten sections near Cass Lake, that are historic as Indian battle grounds but the killing of the ten Sioux warriors was a feat performed by the venerable Chippewa chief White Cloud, who has been dead for a number of years and who in his younger days was one of the most famous warriors of the Chippewa nation.
