**FULL REPORT**

**Morris Law Was On the Whole a  
Very Satisfactory  
Measure.**

Cass Lake, June 27.—Senator Wm. O'Neil, superintendent of logging on the Chippewa reservation and ceded lands under the terms of the Morris law, has just completed his report of all the timber cut on the lands under his jurisdiction for the season of 1903-04, and the report makes good reading and brings out more fully the fact that the Morris law, while admittedly defective in a few of its minor provisions, was on the whole the wisest measure ever passed for the benefit of the Indian. One of the facts that stands out in bold relief, and proves the truth of the contentions of the supporters of the measure, is the exceedingly low figure at which the tops and debris left from the cuttings have been burned. A conservative estimate places the cost of the burning, at the maximum figure, at no more than \$1.50 per thousand for the timber cut on any one tract. This disproves the statements so often reiterated prior to the sales of the timber last December that the burning of the slashing would cost, at the least, \$4 per thousand.

The work of Supt. O'Neil and the various dealers, clerks, etc., in his employ has been done in a highly efficient and thoroughly honest manner. Outside of a few minor ticks, which some of the clerks at Washington must lodge against any official in order to hold their cheap jobs, there has been no fault-finding; on the contrary, there is commendation on every hand.

The various scalers have been furloughed until fall, and as far as is known at the present time, there will be no more actual cutting until early in the fall, although the various companies who have purchased the pine have their representatives out in the woods looking over the grounds for the preliminary operations.

**Triumphs of Surgery.**

Wonderful things are done for the human body by surgery. Organs are taken out and scraped and polished and put back, or they may be removed entirely; bones are spiced; pipes take the place of diseased sections of veins; antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one-third the time required by the old treatment. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering which such injuries entail. For sale by Barker's Drug store.

**Startling Evidence.**

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption, Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Bentonsville, Va., serves as example. He writes: "I had Bronchitis for three years and doctor-ed all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by all druggists. Trial bottles free, regular sizes 50c. and \$1.

**Deafness Cannot be Cured**

By local applications, as they cannot reach the diseased portions of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; increases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give \$100 for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

OFFICE HOURS: 10 a. m. to Noon, and 1 to 3:30 p. m.

I realize that it is sometimes very embarrassing for a lady to tell a physician about her troubles. For that reason I keep in attendance a lady at my office from 1 to 3:30 p. m. She assists (if desired) all ladies in getting ready for examinations; is present (if desired) while I am giving adjustments. The cause of all female diseases is in the spinal column (small of the back) and I find it unnecessary to adjust other than the cause; for the removal of the cause always allows the diseased organs to resume their natural positions and functions. Hence I never require local examination and never give local treatment, and even so, there is no line of diseases with which I have more complete success than those which afflict womankind.
