

## WILL BUCK THE TICKET

Independent Candidates Getting Ready to File in Beltrami County.

J. F. GEORGE WILL FILE FOR COUNTY AUDITOR.

Hot Contest Will Be That Between Sheriff Bailey and Al Hazen.

Now that the returns for the primary election are practically all in there is considerable speculation as to independent candidates. It is claimed by some that a large democratic and populist vote was cast for the republican candidates at the primary but that at the general election the bulk of this vote may be found for independent candidates.

Interest today centers in the announced made by J. F. George of this city that he will be an independent candidate for county auditor. Mr. George is at the present time bookkeeper and general manager of the offices of Irwin & O'Brien and is without doubt one of the most popular gentlemen in Bemidji. He is admirably qualified by natural ability and by experience for the duties of the office and is well known throughout the county.

More interest will perhaps be taken in the contest for sheriff than that for and other office. Sheriff Bailey has filed as an independent candidate against the republican nominee, Al Hazen. Both gentlemen are well known and both are redoubtable campaigners while each are backed by strong friends and the contest will be a Titanic one.

Commissioner E. B. Anderson has filed as an independent candidate in the Fourth district while it is rumored that Con Thompson of Blackduck will be a candidate against George Gunderson in the Second. A. M. Crowell of Turtle is already prosecuting his campaign as an independent candidate against County Attorney Loud.

**In Praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy.**

"Allow me to give you a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mr. John Hamlett, of Eagle Pass, Texas. "I suffered one week with bowel trouble and took all kinds of medicine without getting any relief, when my friend, C. Johnson a merchant here, advised me to take this remedy. After taking one dose I felt greatly relieved and when I had taken the third dose was entirely cured. I thank you from the bottom of my heart for putting this great remedy in the hands of mankind. For sale by Barker's drug store.

T. J. Miller & Co.'s employment office shipped a number of men to Kelliher last night. The men will be employed at the logging camps of R. E. White.

## OUR ANDY QUITE HANDY

Tenstrike - Bemidji - Nebish Gentleman Credited With Startling Ambition.

THE ADVANTAGES OF HAVING MANY PLACES AS RESIDENCE.

A Novel Scheme Which Appears To Lack Nothing of Being Feasible.

Andy Danaher, commissioner-nominatee from the fifth district, is credited with being possessed of an ambition that quite out-herods anything ever before dreamed of in this or any other county on the top of the poor old earth.

The scope of Andy's ambition, so the story runs, is limited by nothing less than the centering in his own person of the entire political government of Beltrami county. Let us make no mistake. It is not of being a boss that Andy dreams; nothing so crude and insignificant will do for Andy. It is the government itself that he must be. With Louis XIV he would exclaim, "I am the State."

The manner in which this is to be accomplished is a credit to Mr. Danaher's genius. Only a man named Andy could ever conceive so clever a scheme. This is the manner of it: he is already as good as elected commissioner from the fifth district; he is also a resident of the fourth district; being in business at Nebish—what more simple than to be elected from the fourth district too? Then he is a legal resident of the first district, his family making Bemidji their home—why not be elected from the first district also? To think is to act with Andy and it is already as good as done.

Two year's hence behold the board of county commissioners—First district, Mr. Andy Danaher, Fourth district, Mr. Andy Danaher, Fifth district, Mr. Andy Danaher, we need not bother to call the roll for the other two; they will draw their per diem, it is true, but Mr. Danaher will do the rest.

It is said that Mr. Danaher denies this marvelous story in its entirety; says it is a regular "cock and bull story" but there is a suspicion abroad that Mr. Danaher, like other great men, masks his real purposes behind this bold and bluff denial.

## TIE UP YOUR DOG

Poison Seems to Be Scattered Everywhere and Canines Are Partaking Freely.

It is advisable for all those who own valuable dogs to see that they are either muzzled, tied up or closely watched, as poison seems to be scattered promiscuously over the entire city. A half dozen canines met death yesterday afternoon as a result of taking poison and it is evident that almost every section of the city has been liberally strewn with strychnine or some other poison equally effective. Not the slightest reason can be attributed for the distribution of poison unless some one who poses incogni-

## DISPOSE OF CONTRACT

Blakely & Farley Sell Contract to Log on Reservation to Wisconsin Firm.

FIFTY MILLION FEET OF TIMBER INVOLVED IN SALE.

Deal Will Affect North Line Towns as Operations Will Be Larger Than Expected.

Blakely & Farley of Farley, the most extensive logging contractors in Minnesota, closed a deal yesterday whereby they dispose their contract to cut and haul 50,000,000 feet of pine on the reservation to the Gibson Lumber company of Medford, Wis.

The final details of the sale were completed yesterday when Wm. Blakely conferred with representatives of the Wisconsin firm and signed papers for the transfer of the contract.

The consideration is not given out but a rough estimate places the amount of the contract at \$150,000 and there is little doubt that the price paid will be considerably more than this.

Blakely & Farley had intended to do the bulk of their logging during the coming winter on the reservation and in fact had made a number of improvements in the way of building camps, cutting roads, etc., but the offer made them by the Wisconsin firm was very alluring and they accepted it.

The sale of the contract will affect every north line town, as they will do considerable logging near Farley and Tenstrike which they had intended to postpone until a year hence. Instead of three camps which they intended to operate near Farley, four will be operated and the size of the camps and the number of men employed will be materially increased.

## Wet Weather in Wheat Belt.

Reports from Crookston and other cities in the wheat belt indicate that the continued wet weather which has been prevalent all through the Red River valley for some time past is interfering materially with thrashing and that some grain will be left in stacks over winter. Threshers returning from North Dakota also report similar condition of affairs and express the opinion that quite a large percentage of grain will not be threshed this fall.

## Fearful Odds Against Him.

Bedridden, alone and destitute. Such, in brief was the condition of an old soldier by name of J. J. Havens, Versailles, O. For years he was troubled with kidney disease and neither doctors nor medicines gave him relief. At length he tried Electric Bitters. It put him on his feet in short order and now he testifies, "I'm on the road to complete recovery." Best on earth for kidney and liver troubles and all forms of stomach and bowel complaint. Only 50c. Guaranteed by all druggists.

tion as a public benefactor has attempted to rid the city of its surplus curs. He should have remembered, however, that the valuable dogs and the worthless ones partake alike of the poison.

## READY FOR BUSINESS

Bemidji Elevator Company Puts Their New Plant in Operation.

STOCK ARRIVING DAILY IN CAR LOAD LOTS.

Elevator Began Business Yesterday—Fine Prospect for The New Concern.

Steam was turned on at the new elevator of the Bemidji Elevator company yesterday for the first time and the company is now fully prepared for business.

The plant of the company is very complete and is provided with every convenience. The elevator has a capacity of 20,000 bushels while the warehouse will accommodate between twenty and twenty five car loads of stock. The engine at the elevator is an 18 horse power. A feed mill is now being installed and will be ready for operation very shortly.

Manager Snow informs the Pioneer that several car loads of hay, oats and corn have already been received while the company has fifteen cars now on the way.

The promoters of the enterprise are much encouraged with the outlook and there is every indication that a brisk business will be done from the start. Bemidji is much to be congratulated that it has secured such an institution backed by ample capital and the Bemidji Elevator company will doubtless contribute in no small measure to the permanent prosperity of the city.

## CABINET TALKS POLITICS.

Chairman Cortelyou Meets President and His Advisers.

Washington, Sept. 28.—While members of the cabinet who are in the city remained with the president a considerable time the meeting of the body was comparatively brief. At the conclusion of the meeting National Chairman Cortelyou arrived at the executive offices. For an hour or more the president, Chairman Cortelyou and the members of the cabinet discussed the political situation. While Chairman Cortelyou's visit to Washington at this time was on personal matters chiefly he embraced the opportunity to consider some subjects connected with the campaign with the president and his advisers.

TO COST \$101,000,000.

Work on New York Barge Canal to Begin Shortly.

Albany, N. Y., Sept. 28.—State Engineer Van Alstyne said during the day that if the state canal board at its meeting Thursday approves the plans and specifications prepared by him for seven contracts, as he believes they will, work on the \$101,000,000 barge canal will probably begin before the end of the year. The time limit set for its completion is two years. The work can proceed, he says, without interruption, being independent of the present canal.

## JAPS ON IRON RANGE.

Mikado's Engineers Studying Minnesota Methods of Mining.

Two Harbors, Minn., Sept. 28.—A trio of Japanese civil engineers named T. Kuroda, Y. Sakai and K. Takagi of Tokio, Japan, are visiting the town and are making a thorough inspection of the mines with a view to adopting in their own country anything that may appeal to them as superior to their methods. The visitors are bright and exceedingly well informed.

## BRIEF BITS OF NEWS.

There is great rejoicing in Montevideo over the ending of the Uruguayan revolution.

Charles A. Morey, president of the Minnesota state normal board, died suddenly from apoplexy at Winona.

David B. Hill will speak in Indiana on Oct. 17, 18 and 19, the places to be designated by the Democratic state committee.

The British torpedo boat destroyer Chamois has been shot off the island of Cephalonia, in the Mediterranean. All on board were saved.

A dispatch from Strasburg, Germany, announces that D. H. Goss, president of the American Institute there, has shot and killed himself.

Preparations are being made for the resumption of operations at many window glass factories throughout the country, after a suspension of nearly five months.

Rev. Dr. Patrick Gibson Robert, aged seventy-seven years, one of the best known Episcopal clergymen in St. Louis, is dead after an illness of seven years.

**Emergency Medicines.**  
It is a great convenience to have at hand reliable remedies for use in cases of accident and for slight injuries and ailments. A good liniment and one that is fast becoming a favorite if not a household necessity is Chamberlain's Pain Balm. By applying it promptly to a cut, bruise or burn it allays the pain and causes the injury to heal in about one-third the time usually required, and as it is an antiseptic it prevents any danger of blood poisoning. When Pain Balm is kept at hand a sprain may be treated before the inflammation sets in, which insures a quick recovery. For sale by Barker's drug store.

**Bookkeeping -- Shorthand**  
New classes will be formed each Monday.  
We teach Bookkeeping, Shorthand, Arithmetic and Penmanship in the evening.  
**Conway's Commercial College.**
