Are Chiropractic Adjustments the same as Osteopathic Treatments?

No. The Chiropractic and the Osteopath both aim to put in place that which is out of place, to right that which is wrong; but the Pathology Diagnosis, Prognosis and Movements are entirely different. One of my patients, Mr. W. A. Casler, has taken both Chiropractic and Osteopathic treatments. The Chiropractic is ten times more direct in the adjustments and the results getting health ten times more thorough in one tenth of the time than an Osteopath would.

RESERVOIR BURSTS SEVENTEEN DEAD

Millions of Gallons of Water Dashed Up-
on a Populous District With No
Word of Warning.--Miners Killed.

Winston Salem, N. C., Nov. 2.—The Winston reservoir burst this morning at 5:20. Seventeen are known to be dead and several others are missing. The north wall of the reservoir gave way carrying millions of gallons of water into the houses adjoining containing over fifty people.

Wilkesbarre, Pa., Nov. 2.—Ten miners were killed here today by the breaking of a steel cable while they were being lowered into a colliery into Nanticoke. The carriage dropped several hundred feet and every person on board perished.

RUSSIANS DRIVEN OUT EIGHT ARE WOUNDED

JAPS CAPTURE LAST FORTIFICA-
TION ON RIHLUNG MOUNTAIN
AT PORT ARTHUR.

OTHER ADVANCE POSITIONS OCCUPIED
BESIEGING FORCES GRADUALLY
DRAWING CLOSER TO THE
INNER FORTRESS.

Chefoo, Nov. 2.—The meager additional details reaching Chefoo concerning the last general assault on Port Arthur, which began in a preliminary way on Oct. 24 and later developed into the third attempt of the Japanese to secure a commanding position, disclose that on the night of Oct. 28 the Japanese, who on Oct. 26 had daringly entrenched themselves on the slope of Rihlung mountain, forced their way further and drove the Russians from their last trench before that fortification. The Russians retreated from their trenches to the other side of the mountain.

It is alleged that the Japanese might have entered the fortification, but they refrained from doing so, as it would obviously be impossible for them to hold the position in the face of the fire which would be sure to be directed against them from other forts.

It seems to be the intention of the Japanese to enter several co-operative forts simultaneously or not at all. The Japanese have found it impossible to remain in any solitary fortification while the other big forts were able to concentrate a fire upon them.

The Japanese also have advanced closer to the mountain, having occupied a position above the evacuation works. On the night of Oct. 30 the Japanese flag was seen flying over two new positions, the names of which are not known to the informant of the Associated Press correspondent.

JAP OFFICIAL REPORT.

Thousands of Guns Pounding Away at Port Arthur.

Tokio, Nov. 2.—Imperial headquarters has published a series of reports covering the operations against Port Arthur during the months of August, September and October. The chief interest centers in the tremendous attack which was begun Oct. 26 and is still continuing.

Thousands of Japanese guns began battering against the northerly and easterly forts on Oct. 26, the infantry moving forward with desperate rushes where the artillery had prepared the way, while the pioneers and sappers were running mines against the Russian forts.

The reports record a series of desperate encounters at close range and tell a dramatic story.

THREE ARMIES IN FIELD

RUSSIA PLANS TO HAVE FIGHT-
ING FORCE OF OVER HALF
MILLION MEN.

St. Petersburg, Nov. 2.—According to the day's advices from the theater of war no general engagement has yet begun. There was some skirmishing Monday, but nothing serious. No Japanese offensive has developed so far, the official reports show, although advices from the extreme east are belated.

General Kaulbars, who is to succeed General Kuropatkin in command of the first army, has arrived here. He passed the entire day closeted with the general staff and with General Alexieff, director of the bureau of operations, studying the details of the campaign in the light of secret dispatches and the war office archives. Kaulbars is Kuropatkin's personal selection.

Kaulbars' reconstituted first army will include the First, Tenth and Seventeenth European corps, one corps of rifles and two others to be sent out.

The second army will consist of the Eighth, Third and Sixteenth corps, one rifle corps and two others not yet designated.

The third army will be composed of six Siberian corps under General Linévitch.

When the present plans are realized, which will not be earlier than the spring, Russia will have three armies, each of six corps, altogether over 500,000 men, in the Far East. The rifle battalions, which are now beginning to start for the front, will provide two of the corps intended for the first and second armies.

Details Not Yet Completed.

St. Petersburg, Nov. 2.—According to the latest advices received at the foreign office here the details of the international commission which is to inquire into the North sea incident are being worked out in London and are not yet finished.

Battle Fleet Leaves Vigo.

Vigo, Spain, Nov. 2.—All the Russian warships left here at 8 a. m.

ONE FATALITY AS OUTCOME OF
HALLOWE'EEN LARK NEAR
PORT HURON, MICH.

SHOTGUNS TURNED ON YOUNG MEN

FARMER AND THREE EMPLOYES
OPEN FIRE FROM BEHIND
A STRAWSTACK.

Port Huron, Mich., Nov. 2.—Roy Lindsay, aged twenty-seven years, is dying and seven other young men are nursing shot wounds which they received during a Halloween lark at Smiths creek, near this city.

The young men, accompanied by several others who were not wounded, had gone to the farm of Joseph Lambert, who, it is claimed, threatened previous to Halloween that any pranks attempted at his expense would be severely punished. The young men had just stepped through his gate, it is alleged, when Lambert and his three hired men fired on them with shotguns from behind a strawstack. Lindsay fell fatally wounded and the other seven dropped to the ground with shot wounds in various parts of their bodies.

It is believed that the farmers, when they fired, failed to realize that the young men were near enough to be seriously injured by the shot.

HIT BY THEIR OWN SHELLS.

Russian Cruiser Aurora Damaged by
Sister Ship.

St. Petersburg, Nov. 2.—It is said that private information received here confirms the Vigo report that the Russian cruiser Aurora was struck by missiles from the other Russian ships and that her chaplain's arm was shattered by a shot. The admiralty, however, declares it has not any confirmation of the report.

Stoves! Stoves!
