Are Chiropractic Adjustments the same as Osteopathic Treatments?

No. The Chiropractic and the Osteopath both aim to put in place that which is out of place, to fight that which is wrong; but the Pathology, Diagnosis, Prognosis and Movements are entirely different. One of my patients, Mr. W. A. Casler, has taken both Chiropractic and Osteopathic treatments. The Chiropractic is ten times more direct in the adjustments and the results getting health ten times more thorough in one tenth of the time than an Osteopath would.
