AMUSEMENTS

The Brooklyn Eagle, says in speaking of Fred Falkner's company in "The Girl From Sweden," which will appear at the City Opera house, Friday night. "It did not require an opera glass to see that the large audience at the Grand Opera House were more than pleased with Fred W. Falkner's company of comedians and comedienne in the new Swedish comedy drama, "The Girl From Sweden". Specialties are introduced by members of the company throughout the play and everyone who attended the play went away happy and pleased.

The Warner Comedy company will open in Bemidji at the City Opera house Monday night for a week's stand. The company has a repertoire of first class productions and is said to be giving good satisfaction.

Chicago, Oct. 19.—Federal Judge Humphrey during the day gave a divided decision on the demurrer of the meat packers charged with illegal conspiracy. He overruled the portion of the demurrer in which the packers attacked the odd numbered counts, charging conspiracy in restraint of trade. The demurrer to the even numbered counts, charging monopoly, was sustained.

INDIGESTION'S RECORD

"The best remedy I can prescribe for your indigestion, madam, is Green's August Flower. I know of several other physicians who prescribe it regularly."

Indigestion is making an awful record as a cause of sudden deaths. It is beating heart-failure in its ghastly harvest. You read in the papers daily of apparently healthy and even robust men being suddenly attacked with acute indigestion after enjoying a hearty meal, and of their dying in many cases before a physician could be called in.

This should be a warning to you who suffer with regular or periodical attacks of indigestion. If these unfortunate victims of acute indigestion had taken a small dose of Green's August Flower before or after their meals they would not have fallen a prey to such sudden seizures. August Flower prevents indigestion by creating good digestion. It also regulates the liver, purifies the blood and tones up the entire system in a natural way.

Two sizes, 25c and 75c. All druggists.

YOKAHOMA CHINA

The Japanese people are world renowned for the carrying out of details. In the manufacture of China and Porcelain they pride themselves. The Art has been handed down from generation to generation, and this line which we are offering is decorated and ornamented by their most skilled artists. The line which is distinctively Japanese in effect and execution, and at this time is much sought after in this country. As there is only a very limited quantity manufactured, the demand will exceed the supply.

E. A. BARKER

MODERATE

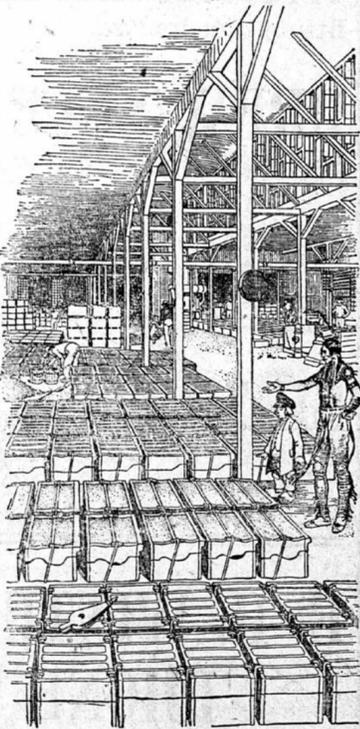

In price; thoroughly well made; beautifully ornamented; a fine, quick worker—the Round Oak Chief Steel Range is certain to gain your good opinion the moment you see it. And then it bears a good name—one that means good material, good workmanship, fine working and long service.

The Material is the best money will buy. The top of the range and all cast parts exposed to the fire are made of Round Oak cast iron, noted these many years for its strength and durability. The body of the chief is made of Wellsville polished steel, beautifully smooth and uniformly colored.

The nickel work is rich and smooth, and this, with the polished steel, enables one to quickly clean the entire range by simply wiping with a cloth.

And then the workmanship, we cannot speak too highly of it—the range is built the Round Oak way.

If interested in a range, you are invited to see the Chief, and have its many new and practical features fully set forth.

"This is the molding room. Fritz, where the Round Oak Chief Steel Range castings are made—another great molding room we will see later."

W. M. ROSS, HARDWARE.
