Obstinate constipation, indigestion and stomach disorders are permanently and positively cured by taking Hollister's Rocky Mountain Tea. 35 cents, tea or tablets. Barker's Drug store.

**Deafness Cannot Be Cured** by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

### October Diamonds

Home Again--Vacations do make a big hole in the pocket-book, but nevertheless, the relentless demand for diamonds continues. As the old colored brother said about the chickens on the elevated perch—"Dey sholy is high, but dey must be had."

**Before**—January 1st. Diamonds are going to advance 10 per cent. We have just received our fall assortment.

**E. A. Barker,**  
3rd. St. Jeweler.

The **WILSON** Improved Air Tight Heater

Will Burn Chips, Shavings, Bark, Roots, Corn Cobs, or Cord Wood

and give more heat in less time and retain it longer than any stove ever made. By the patent method of taking the draft from the top, we secure a perfect Air Tight Heater, giving us absolute control of the fire. The draft being obtained from descending currents, which are full of impurities, makes the heater the best of ventilators. The air becomes gradually heated as it passes thru draft pipe and therefore enters the fire at the right temperature, supplying the proper amount of Oxygen to produce and maintain a perfect combustion, and saving Fuel, because with our Damper we have complete control of the fire. The hot air coming from the top ignites and utilizes as fuel all the gases in the stove which in other Stoves goes to waste. This explains why the Wilson Heater consumes much less fuel than other Stoves and is therefore more economical. Call and see them. For sale only by

**FLEMING BROS.,**

Successors to FLEMING & DOWNS. Phone 57.

Opera house tonight—Columbian Entertainers.

The Columbian Entertainers come to Bemidji under a heavy guarantee. They give a splendid entertainment and the profit all goes to support the public library.

The safe plan for selling your grain and handling your option business is to deal direct with the old reliable firm of L. T. Soule & Son, Minneapolis. Established 1884.

### Wrecked Parlor Car Back Again.

"Bemidji" the Great Northern parlor car, which was wrecked on September 22nd, at Cloquet, has returned from the Great Northern shops in a mezza of fresh paint, fresh upholstery and entire new arrangement and is again in service on the line between this city and Duluth. The car as now warranted is one of the swiftest in the Northwest and would hardly be recognized by people familiar with it before the wreck at Cloquet.

### Amusements

#### "The Holy City."

Announcement of a performance of "The Holy City" interests theatre-goers to an uncommon degree. The great Biblical drama and sumptuous production given it, the strength of the acting company, the music and grand spectacle with which the play abounds, furnishes dramatic satisfaction and scenic pleasure so complete and grateful that Managers Gordon & Bennett's enterprise is a leading feature in all columns containing theatrical news. Seldom has a play been so immediately noted, because seldom has any one play so many points of value. The theatre goers who appreciate entertainment in the proportion given for following thought, will, in the thrillingly told story of the Apostle John, find reflection, dramatic study and future enjoyment rarely combined. The theatre goer who is more pleased with brilliant spectacle and wonderful stag effects, has his wish gratified by lavish preparation and almost unprecedented execution. In his application for a performance of "The Holy City" Manager Wheelock sought the most important theatrical offering of this season at Opera house tomorrow night.

Billousness, dyspepsia, loss of appetite, disturbed sleep, nervousness, headache, giddiness and drowsiness, wind and pain or fullness of the stomach after meals, cold chills and flushings of heat, shortness of breath—these are the blank cheques of physical bankruptcy. The man who suffers from these disorders and neglects them will soon be in the relentless grasp of some fatal disease. If he is naturally narrow chested and shallow lunged, it will probably be consumption; if his father or mother died of paralysis or some nervous trouble, it will probably be nervous exhaustion or prostration, or even insanity; if there is a taint in the family blood, it will be blood or skin disease; if he lives in a new or a low swampy country, it will be malaria; if he lives a life of exposure, it may be rheumatism. There is one safe course for a man to follow who finds himself "out of sorts" and suffering from the symptoms described. It is to resort to Dr. Pierce's Golden Medical Discovery. This medicine makes the appetite keen, corrects all disorders of the digestion, renders assimilation perfect, invigorates the liver, purifies and enriches the blood, and builds firm, healthy flesh and nerve tissue. It cures almost all diseases that result from insufficient or improper nourishment of the brain and nerves. Bronchial, throat, and even lung affections, when not too far advanced, readily yield to it.

Will Not Be Obeeyed. Injunction of Chicago Judge Against Striking Printers.

Chicago, Nov. 7.—John C. Harding sounded the keynote of the striking printers' "anti-injunction" demonstration at a North Side hall when he declared that the union "could not and would not" obey the restraining order issued by Judge Holdom in favor of the employers. Remedies for curbing court authority were offered, but Mr. Harding's solution met with most favor from the audience.

More than 1000 members of Typographical Union No. 16 and other trade unionists gathered to discuss the injunction question.

"Judge Holdom has granted an injunction," said Mr. Harding, "which it is absolutely impossible to obey. It is so broad and sweeping that I believe even the judge himself realizes that he has gone too far. But we stand on our rights; we know what our rights are, and we intend to maintain them, no matter what the result may be. 'This strike,' he continued, 'will be a long one, but we intend to carry on a plain, straightforward fight to the finish and we hope eventually to establish the eight-hour day in the printing shops of Chicago.'

### RESULT OF COLLISION.

#### Marblehead Damaged and Floating Machine Shop Sunk.

Vallejo, Cal., Nov. 7.—Caught by a powerful gust of wind while trying to make a landing at the coal wharf at Mare Island navyyard the refrigerator ship Celtic crashed into the floating machine shop, doing them so severe damage that the Marblehead may have to go out of commission. It is said, while the machine shop was sunk, the force of the impact was so great that two of the five nine-inch guns of the cruiser were completely demolished, the bridge torn away and two angles reduced to kindling wood. Two plates of the Marblehead were badly bent and the machine shop, which had been rammed, soon sank. The Celtic suffered but slight damage in the collision.

### Tenement House Tragedy.

New York, Nov. 7.—Andrew Ingan, thirty-four years old, was shot and instantly killed in a fight at a tenement house on Canal street. Ignace Pontremick, twenty-four years old, was probably fatally wounded. Tony Mori, twenty years old, is charged with doing the shooting.

### Railroad Bonds Missing.

Pittsburg, Nov. 7.—Eighty thousand dollars' worth of bonds of the Santa Fe Central railroad, of which the late Cashier T. Lee Clark of the Enterprise National bank was treasurer, are reported missing. Receiver Cunningham of the defunct Enterprise bank has not been able to find them.

### VETERAN ACTOR DEAD.

#### William J. Le Moyne Passes Away at Age of Seventy-five.

New York, Nov. 7.—William J. Le Moyne, the veteran actor, is dead at Inwood-on-the-Hudson of Bright's disease. Present at the bedside were his wife, Sarah Cowell Le Moyne, and a few intimate friends of the family. Mr. Le Moyne was seventy-five years of age and sixty years of his life were spent on the stage. Mr. Le Moyne made his first theatrical appearance in Portland, Me., in "The Lady of Lyons" in a company which included Mrs. Edwin Forrest. Mr. Le Moyne served in the Northern army in the Civil war and rose to the rank of captain. He wounded at the battle of South Mountain.

### POSED AS MRS. J. J. HILL.

#### Police of Paterson, N. J., Looking for Woman Swindler.

Paterson, N. J., Nov. 7.—The police are looking for a middle aged woman who has been masquerading for some time past as the wife of James J. Hill, the railroad man. She spoke often of her private car, her residence at Newport and her many automobile excursions through California and the West. She is quite tall, of distinguished bearing and talks well. Her plan is to secure an invitation to stop at a house for a few days and then to secure a loan while waiting for a check from her husband. The police say that she has imposed upon people here, at Monclair and in the Oranges.

The qualities usually attributed to ten-cent cigars have been developed in the "Anna Held" cigar through the intelligent application of scientific principles to the culture of the tobacco leaf before it reaches the cigar factory. At a cost of over a million dollars the American Cigar Company has constructed immense "stermeries" where the leaf is put through different processes of curing, ripening, fermenting and blending.

## ANNA HELD CIGAR—5c.

This treatment—exclusive with the American Cigar Company—removes the last suspicion of harshness, thoroughly matures the leaf, and combines in a rich, mellow, uniform flavor the natural fragrance of the choicest tobaccos.

The "Anna Held" is a striking example of what has been accomplished by these new methods. It costs you a nickel—instead of a dime.

Sold by all dealers in good cigars. Trade supplied by GEO. R. NEWELL & CO. MINNEAPOLIS, MINN.

### Reward of \$25.

I will pay \$25 to any person who will furnish me with evidence that will secure the conviction of the parties who are stealing lumber from my yards. I am always at my office during office hours to wait upon and accommodate the public.

M. E. SMITH.

### "DO IT TO-DAY!"

And to think that ten months ago I looked like this! I owe it to German Syrup. The time-worn injunction, "Never put off 'til to-morrow what you can do to-day," is now generally presented in this form: "Do it to-day!" That is the terse advice we want to give you about that hacking cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it TO-DAY—and let that remedy be Dr. Boschee's German Syrup, which has been in use for over thirty-five years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At all druggists.

### Feed and Sale Stable. LIVELY ATTACHED

Goods of All Description Stored

J. P. Pogue. City Drug Store.

### SOME PEOPLE

like an oven thermometer on their range; some people do not. The Round Oak Chief Steel Range is made both ways—with and without—but the oven itself (the business part of the range), for baking, is the

most important, and in the Chief it has been most carefully looked after.

About three times the thickness of asbestos is used to insulate the oven as is commonly used making it a quick baker with little fault.

The saving is sure. The Chief is a range of quality. The workmanship is the same as the Round Oak Stove, and the price is right.

We are sure to please and suit you with this sterling good range. Remember the range is right and the price is right.

In this room, Fritz, we crate the Round Oak Chief Steel Ranges ready for shipment. See how well it is done. We take the same points in having it right that we do in making the range.

W. M. Ross - Dealer in Hardware & Coal.
