Distinctive Table Ware

Our showing of fine China and Cut Glass, Silver and Cut Metal wares is as different from the usual cut and dried assortments as possible.

Every pattern, every individual piece was selected for its artistic and utilitarian qualities from the largest importing and manufacturing houses, and very few of them can be duplicated out side of the large cities.

Yet the question of cost need cause no anxiety as every thing is priced very moderately.

We would appreciate an opportunity of showing you these wares if for no other reason than that it affords you pleasure to see them.

Watch For It!

THE Pioneer will shortly begin the publication of a serial story dealing with local events and written by local talent. The story is one of thrilling interest, replete with dramatic situations and sounds the depth of human sympathy and suffering. It portrays local conditions with a vivid touch and exposes some every day deceptions with a merciless hand. It will be more generally read than anything which has ever appeared in public print in Bemidji. Further announcements will be made in a day or two and the first chapter of the serial will be published in these columns within a very short time.

Separating the Chaff from the Wheat.

THE great American college game is football and like everything is that is great in American life it has its abuses. So serious have these abuses become that there is now on foot a movement among minor colleges to suspend playing entirely for a year or two until some of the evils which attend the game can be corrected.

Several preparatory schools have resolved to maintain no football, eleven next year and the movement bids fair to seriously cripple the big schools by cutting down their source of supply of available material for a real Varsity team.

There is every indication that football will continue for years to be the great college game and no doubt it will grow in popularity. Notwithstanding its evils, it is necessary. The physique of its young men is a matter of tremendous importance to the nation and there is nothing in college life which contributes more to manliness in mind and body than football—properly played. The small schools are doing a good work and their efforts will undoubtedly in time purge the game of those things which at present threaten to destroy its influence for good. May the game grow greater and better.

TO DISCUSS MANCHURIA.

Baron Komura Arrives at the Chinese Capital.

Washington, Nov. 12.—Minister Rockhill cabled the state department from Peking that Baron Komura had arrived at that place. It is understood that he is to take up with the Chinese government the details of the peace treaty relative to Manchuria. In accordance with the terms of that instrument, Japan was allowed a period of eighteen months in which to withdraw her troops from Manchuria, an unnecessary length of time in the Chinese view. The Chinese also object to the permanent retention of the force of Japanese guards along the Port Arthur railroad as equivalent to keeping a standing army and reproducing Russian methods in Manchuria. It was these matters which China regarded as warranting the effort made by her to have a voice in the framing of the peace treaty and having failed in that undertaking she must now try to adjust them, with other important details, directly with Baron Komura.

Colds

It should be borne in mind that every cold weakens the lungs, lowers the vitality and prepares the system for the more serious diseases, among which are the two greatest destroyers of human life, pneumonia and consumption.

Chamberlain's Cough Remedy

has won its great popularity by its prompt cures of this most common ailment. It aids expectoration, relieves the lungs and opens the secretions, effecting a speedy and permanent cure. It counteracts any tendency toward pneumonia.

Price 25c, Large Size 50c.

IT DRAWS HARD

On a woman's vitality to do work for which she is unfitted, and we wonder how some of the women of our land live through a single season of pleasure or dissipation. They will say with tears in their eyes, when they mention the subject at all, "it is a hard pull" that with pain, weakness and weariness they are "almost dragged out."

Many, in this condition, resort to alcoholic stimulants and "invigorants," the after effects of which are very injurious.

R. V. Pierce, forty years ago found that women were being misreated through ignorance or carelessness and determined to devote his life and energies to their relief. Having found the cause of their suffering, he next sought for the means of relief, and found in Nature's laboratory the earth, certain roots which had remarkable and valuable medicinal virtues for the cure of these ailments.

Using chemically pure glycerine, of proper strength instead of alcohol, he prepared extracts of these, and the result was so satisfactory that the combination became his favorite prescription. The world knows it as Dr. Pierce's Favorite Prescription, which has the wonderful and unparalleled record of a half-million of cures in the last forty years.

Write to Dr. Pierce, Buffalo, N. Y., for advice, given without charge.

"I am glad to be able to testify as to the merits of Dr. Pierce's Favorite Prescription for the many ills that women suffer with. I was Miss Gertrude Mitchell (President of the Ladies Christian Society) of Columbia Street, E. Detroit, Mich. After many years of suffering and pain, I took your medicine, and in a short time began to feel stronger, became more regular and ceased to have the sharp pains which had been my lot for so long. Shall never cease to be grateful that it was brought to my notice. I have no pains and feel much stronger generally."

Dr. Pierce's Pellets cleanse the clogged system from accumulated impurities.
