

NINE KILLED IN TRAIN WRECK

Awful Disaster Reported on Chicago & Northwestern Railway Near Casper, Wyoming.

TWELVE INJURED IN CATASTROPHE

Cheyenne, Wyo., March 26.—News has been received here to the effect that nine men were killed and 12 injured this morning in the wrecking of a passenger train on the Chicago & Northwestern railroad 30 miles west of Casper, Wyo. The wreck is said to have been caused by the washing out of a newly made roadbed, the tracks collapsing and the train being overturned.

POUNDED HEAD ON THE RAIL

Drunken Indian Attempted to Beat Brains Out Near Great Northern Depot.

A drunken Indian was picked up by the police near the Great Northern depot Saturday and taken to the city jail. When found the Indian was down on his hands and knees near the track and was beating his head against one of the rail, evidently trying to beat his brains out. His head was badly cut in a number of places but none of the wounds were serious. He was brought before Judge Skinvik this morning and allowed to go free after he had explained that he was on his way from the Red Lake reservation to Walker. The Indian was 64 years of age and gave his name as Harry Hans.

RECORDS WILL BE PUBLIC

Cancellations at Cass Lake Land Office May Hereafter Be Published.

The following letter received today from the officials of the U. S. land office at Cass Lake, is explanatory in itself:
Cass Lake, Minn., March 23, '06.
Sir: The commissioner of the General Land office, by his circular letter "A" of March 19, 1906, has instructed us to advise the press of our district that they may procure all cancellations from the Cancellation Record for publication as a matter of news, if they so desire. Under said circular, the said record will be kept on the counter at all times open to the inspection of the general public.

Respectfully,
E. S. OAKLEY, Register.
M. N. KNOLL, Receiver.

ALL VALUABLES SECURED.

Details of Raid by Chinese Pirates on Standard Oil Launch.
Hongkong, March 26.—Details of the capture and looting by Chinese pirates March 22 near Canton of a launch owned by the Standard Oil company have been obtained. The launch Comet was proceeding to Kowloon, between Wampoa and Canton, towing a lighter laden with kerosene oil. While passing what is known as the "second barrier," or second line of former obstructions to navigation, and when in sight of Wampoa, a number of junks manned by pirates closed around the Comet and her tow. A stinkpot (earthen jar containing gunpowder, resin and hand grenades) was thrown into her engine room, the pirates boarded the launch and her crew were overpowered. The pirates then beached the Comet and the lighter and removed all the valuables from the two vessels, including a number of Winchester rifles and 1,600 rounds of ammunition. The cargo of kerosene was not touched.
The pirates, it appears, missed capturing much more valuable booty. It was the intention of the Standard Oil company's officials to ship \$20,000 in specie on the Comet on her last trip, but the shipment of specie was transferred to a freight steamer.
The American consular officials are investigating the affair.

Dr. Jessie M. McGregor, a noted woman physician, is dead at Denver. Dr. McGregor ranked among the best of women physicians.

A BOLD, BAD CHARACTER

Feminine Artist Does the Real Hold-Up Stunt at Cass Lake.

SECURED \$500 FROM FOUR VICTIMS.

Was Arrested by the Police and Money Was Found on Her Person.

What would make Jesse James or any of the real live ones look like the remainder of a lead dime after the treats were paid for happened at Cass Lake Thursday night when some real bold bad member of the feminine sex with the aid of a trusty revolver got busy on the streets after the police had fallen asleep, and relieved four of her male friends of a sum of money not less than \$500.00.

No reports have been sent out from the village and all that could be learned was through persons who came down from there where the matter is apparently being hushed up to some extent.

It seems that the female after getting her victims full of Tom gin and other drinks got them out on the streets where she uncovered the cold steel and demanded money. One victim was relieved of \$200 and two in turn gave over \$100 while it could not be learned what the fourth one contributed. Each one was taken in turn and the whole plan was carried out in the neatest kind of fashion.

The woman was arrested in the morning and over \$500 together with the revolver were found on her person. What was done with her could not be learned but she will undoubtedly be given the limit of the "new code."

The affair is the first and only one of the nature that has ever been successfully carried out in the northwest and Cass Lake has the distinction of having the first successful female bandit ever brought before the public.

ALBERT CONAT NOT GUILTY

This Is Decision of Jury in Case Against Man Accused of Arson.

The jury in the case of the state against Albert Conat, accused of setting fire to the Newton building at Funkley, late Saturday night brought in a verdict of not guilty. The charge against Conat was arson in the first degree. He was represented by Henry Funkley and the state by County Attorney McDonald.

The case against Mike Walter, who was indicted on a charge of grand larceny committed by taking a considerable quantity of timber from state lands located near Turtle River, was continued over the term.

Today the civil suit of Rose Freeman vs. William Lennon, involving the ownership of a team of horses, is being tried, H. J. Loud appearing for the plaintiff and E. E. McDonald for the defendant.

There is only a few small civil cases yet to try and it is probable that the term will end tomorrow.

REPORT FREE AL- COHOL MEASURE

Sub-Committee of House on Ways and Means Will Report Bill Wednesday.

Washington, March 26.—A sub-committee of the house committee on ways and means today agreed to report the free alcohol bill to the full committee Wednesday next. The feature of the bill is that it takes the international revenue tax off all denatured domestic alcohol for technical uses, including the lighting, heating and motor uses.

GARDNER JUROR DISQUALIFIED

Will Be Tried for Contempt. Sensational Evidence Will Be Introduced.

Grand Rapids, March 26.—There were some sensational developments in the Gardner case Friday. At the morning session the attention of Judge McClenahan was called to the fact that Leonard Blanchard, the first juror sworn, had expressed very positive opinions as to the case.

At the beginning of the afternoon session it was moved by the defense that Blanchard be recalled for further examination and this was granted by the court. He was then challenged for actual bias. He stated he had never expressed an opinion that he remembered and denied that he had discussed the facts with others.

Following Blanchard witnesses were called to testify to conversations with him. It was shown that he had attended sessions of the first trial; that he had said Gardner was worse than Callahan, recently found guilty of assault, and that Blanchard had announced he would be drawn on the jury.

Witnesses stated that when remonstrated with by those who heard this latter statement, Blanchard replied that he "didn't give a damn if he had talked about the case and expressed his opinions."

After a record had been made the state admitted the truth of the challenge and Blanchard was then discharged from the jury. Immediately thereafter Judge McClenahan requested that proper steps be taken for the trial of Blanchard for contempt and an application for an order to show cause. Judge McClenahan signed the order fixing Monday evening as the time for the hearing. He instructed that the necessary witnesses be subpoenaed at once.

Blanchard is a young man, but is married and has a family.

Wanted To Explain

why men should not go west, but should secure employment at home.

Men shipped west are going into a country where it rains for the next three months.

They have been promised \$2.25 per day. This does not include board which costs at least \$1.00 per day, and every man must furnish and carry his own bedding.

They have been shipping men from Duluth, Minneapolis, St. Paul and Chicago since the first day of December.

The class of people of that country—the Japs, Chinamen and Dagoes—and men from this country will not work with that class of people when they get there.

I was told by Mr. Ross, a lumberman, that he had seen a letter in Duluth stating that there are now forty men for every job there.

As soon as spring opens and railroad work starts, railroad wages will be from \$2.00 to \$2.50 a day here, good camps, good board and your blankets furnished.

When the drive starts we will want a large number of men. We already have orders for 250 men.

150 men wanted for peeling and loading cedar, by the piece or by the month.

The Minneapolis Employment Agent now here, has not told one man the price of board or that you have to buy your own bedding.

It is a good long ride and a still longer walk back. You are not always sure of the work.

The more men going out there tends to cut the wages.

REMEMBER THE RELIABLE EMPLOYMENT AGENT,

Dick Hawkes

During the three sessions held during the day 30 veniremen were sworn. The jury men selected were four in number, as follows: George Rice, C. K. Munday, Mike McCambridge and Henry Volke.

But 15 remain of the present venire and no one anticipates that the four men necessary to fill the box can be procured from this number.

All Pure Beer Is Not Good Beer

Some Large Brewers Claim Purity and Sterilization and little else.

We Guarantee Purity, Sterilization and Excellence of Materials.

Superiority of Quality is the Test.

MOST beer, no matter by whom brewed, is clean, pure and sterilized.

These primary conditions prevail in nearly all breweries. Many pure, clean beers, however, are not good beers.

o o o o o

Clean, pure beer may be made from almost any cereal—and may be aged and sterilized, but it will not necessarily be good beer.

CORN OR OTHER CHEAP MATERIALS WILL NOT MAKE GOOD BEER.

The maximum of Quality is not there. The brewers of Corn-made beer can and do justly claim purity, cleanliness and freedom from germs.

BUT THEY CANNOT JUSTLY CLAIM QUALITY.

o o o o o

Science and experience have proved that good beer MUST contain two essential ingredients—HOPS and BARLEY, and for pale beer a small percentage of rice.

But it is much cheaper to use Corn-Grits as a substitute for Barley-Malt.

This is why some of the large brewers use Corn—it costs less.

o o o o o

We use those materials which are recognized in the science of brewing as the essential elements for a really healthful, palatable, honest and superior beer; and of these only the very best, regardless of cost.

Not a grain of corn ever enters our brewery in any manner or for any purpose.

Our precautions for pure, clean and perfectly sterilized beer are unequalled.

o o o o o

Our storing capacity of 600,000 barrels, exceeding that of any two other breweries in the world, enables us to lager (age) our beer from four to five months.

For these reasons

Budweiser

The King of All Beers

must and does command a higher price than any other beer, and has a greater sale than all other bottled beers.
