CALL HIS OWN CONFERENCE

President Disatisfied With Hague Peace Meeting.

Washington, Sept. 7.—The latest rumor affecting Rooseveltian activity is to the effect that the president intends to call a "peace congress" of his own, to embrace the ambassadors of the powers accredited to Washington, as soon as they return from their summer haunts.

An anonymous diplomat, who is held responsible for the novel rumor, explains that the president is not at all satisfied with the results of the peace conference at The Hague and is determined to add another wreath of laurels to his crown of peace before he leaves the White House. It is stated that Ambassador Jusserand of France and Ambassador Sternburg of Germany have signified their willingness to participate in such a conference.

James Bryce, the British ambassador, is to be President Roosevelt's chief support during the meeting, according to the rumor, and if the reports be believed he already has received authorization from King Edward to co-operate with the president as far as possible, the possibility being left entirely to the ambassador's discretion.

The information is added that not only will the future peace of the world be generally discussed, but that several other international matters, such as Chinese affairs, the Pacific question, Korea's future, the Drago and the Monroe doctrines, South African territories and any other questions which interest two or more nations in diverse ways, will be taken up.

WILL VOTE AS HE PLEASES

Senator Foraker Declares He Will Not Be Dictated To.

Columbus, O., Sept. 7.—Senator Foraker made an address before the farmers, old soldiers and others at the state fair.

"The opposition to me here in Ohio," said the senator, "is because some other man wants to get my seat in the United States senate and I propose, if I can help it, that he shall not be successful in that matter. I have voted as far as light was given to me in the interests of my constituency and as my own judgment dictated and I propose to keep on in that course. I do not propose to be dictated to by any one as to the way I shall vote and if my constituents do not like that they may select some one else to do the voting for them."

GIVEN \$45,000 DAMAGES.

Man Shot by Rich Father-in-Law Secures Verdict.

Uniontown, Pa., Sept. 7.—William S. Wirsing has been awarded \$45,000 damages for injuries said to have been received at the hands of his father-in-law, James R. Smith, a wealthy coal operator.

A year ago Wirsing eloped with Smith's daughter. Upon the return of the young couple Smith met Wirsing with a rifle and shot him in the right arm, shattering the bone and, it is said, rendering it useless for life. Smith is now in the penitentiary serving a five-year sentence for felonious shooting with intent to murder.

HOPES FOR RESULTS

Immigration Commission Returns From Visit to Europe.

SCARCITY OF LABOR ABROAD

Strong Sentiment Against Emigration Has Developed in Many Countries Where Industries Are Suffering From Want of Sufficient Help.

New York, Sept. 7.—After several months' tour of inquiry into the immigration situation abroad, which carried them through England and Continental Europe, the members of the sub-committee of the United States immigration commission, with Senator William P. Dillingham of Vermont as chairman, have arrived here on the steamship Cedric.

The members obtained much data which they believe will aid in solving many of the immigration problems now confronting the United States. The whole committee will meet later and prepare a report which will be submitted to congress. Senator Dillingham made the following statement:

"The sub-committee has visited every European country from which we receive any considerable number of immigrants and has studied the more important phases of the question in each. The question of preventing the coming of criminal classes into the United States has been a chief subject of investigation by the sub-committee and it is probable that important recommendations on this matter will be made to congress.

Case of Cholera at Dantzic.

Dantzic, Prussia, Sept. 7.—The local health officers have announced that a rattlesnake from Russia, who descended the Vistula, had died here of cholera.

CABINET CHANGES RUMORED

Secretary Root and Others Will Retire, It Is Said.

Washington, Sept. 7.—From a trustworthy source it is intimated that Joseph H. Choate of New York soon would succeed Elihu Root as secretary of state in President Roosevelt's cabinet. Rumors of Mr. Root's forthcoming resignation after his visit to Mexico in October will not down. His health is impaired and his ambitions, politically, blighted. Had the president gone behind him instead of Taft for president it is believed that Root would be in better spirits.

MYSTERY STILL UNSOLVED

New Theories Regarding Death of Cleveland Man.

Cleveland, Sept. 7.—New theories, suspicions and developments in mystery surrounding the death of John J. Phillips, coal operator and broker, follow each other in rapid succession. A former employe is now suspected of having caused the death of Phillips. His name is known to the officials and a search is being made for him.

Last Monday Phillips was shot and killed at his home in the aristocratic part of East Cleveland. That day he was believed to have been killed by a burglar. Tuesday it was thought Phillips committed suicide. Wednesday this theory was disproved and suspicion was directed against the widow, Charlotte Phillips. A warrant alleging murder was issued for her arrest. Thursday the officials began to doubt this theory and they are now searching for the man formerly employed about the Phillips home, whom Mrs. Phillips says she saw in front of her

THREE MEMBERS PERISH.

Anglo-American Arctic Expedition Also Loses Its Steamer.

Athabasca Landing, Can., Sept. 7.—News of the probable loss of the schooner Duchess of Bedford, the ship belonging to the Anglo-American Arctic expedition which hoped to find a new continent north of the Mackenzie river, was brought here by Alfred Harrison, who has been in the Arctic circle for two years and who came here on the steamer Midnight Sun.

Mr. Harrison said Ernest Stefansson of Harvard university, after whom the expedition has been named, himself brought the news of the loss of their boat to Herschel Island. He also brought the news of the disappearance of three members of the party and expressed the fear that they had met death in the frozen North.

The missing men are Captain Mikkelson, a Dane; Ernest Leffingswell of Chicago and J. M. Marks. They left the ship in February with sixty days' provisions for the supposed land to the north and had been gone seventy days and no news had been received from them. One of their teams of dogs had returned and it is likely the party will never be heard from again.

The schooner Duchess of Bedford, Stefansson thought, had probably sunk. The ship had filled with water, probably from the ice strain, but they had been able to remove everything of value to the main shore.

AVERTED FOR THE PRESENT

Threatened Strike of Louisville Street Car Men.

Louisville, Sept. 7.—The threatened strike of the employes of the Louisville Railway company, which was believed to be inevitable, has been averted, for the present at least, and the cars are running as usual.

The credit for the settlement of the situation belongs to Mayor Bingham. Mr. Bingham secured the promise of the representatives of the company at a conference held in his office to give the union men further assurance that no discriminations will be made against them. This was agreed to in writing and placards to that effect were posted by the railway company.

At a meeting of the street car employes, attended by the mayor, the resolution embodying the plans for the settlement of the strike was unanimously adopted. It provides, however, that in case a settlement of the mooted question in relation to the discharged men, who have been the bone of contention, is not assured the whole question of striking is to be reopened.

Safecrackers Secure \$300.

St. Paul, Sept. 7.—Safecrackers blew the doors of the vault and safe in the Voerg Brewing company's office on the West Side and obtained \$300 in cash, besides considerable jewelry belonging to one of the collectors of the firm. One of the robbers in his haste to get away dropped a black satchel hat.

Whites Drive Hundreds of Blacks Out of Bellingham, Wash.

Bellingham, Wash., Sept. 7.—Six badly beaten Hindus are in the hospital, 400 frightened and half naked Sikhs are in jail guarded by policemen and somewhere between Bellingham and the British Columbian line are 750 natives of India beaten, hungry and half clothed, making their way along the Great Northern right of way bound for Canadian territory and the protection of the British flag.

The long expected cry, "Drive out the Hindus," has been heard throughout the city and along the water front. The police were helpless. All authority was paralyzed and for five hours a mob of 500 whites men raided the mills where the blacks were working, battered down doors of lodginghouses and, dragging the invaders from their beds, escorted them to the city limits with orders to keep on going.

Racial feeling has been growing in intensity lately. Every day whites were being replaced in the mills by blacks. The invaders had become bold and insolent, in many instances women being pushed into the gutter and insulted on the street cars.

General uneasiness of the whites is given as a reason for the outbreak. The Hindus are all British subjects and their case is being placed before the British authorities.

WIFE HELD FOR MURDER.

Brazil (Ind.) Physician Victim of Mysterious Shooting.

Brazil, Ind., Sept. 7.—Dr. Edward Glasgo, a physician, is dead from three bullet holes through his head and his wrist is slightly wounded in the left breast as a result of a mysterious shooting.

Glasgo and his wife had separated, Glasgo applying for a divorce. Mrs. Glasgo, accompanied by Attorney Charles Whitlock of Terre Haute, drove to a brick plant, where Glasgo was to try to arrange a settlement of alimony. Whitlock got out of the buggy and Glasgo got in and started to drive back to the city when the shooting occurred.

When physicians reached the scene Glasgo was unconscious in the buggy and soon died. Mrs. Glasgo refused to talk of the shooting. A revolver with five chambers empty was found near the buggy.

Buffalo, N. Y., Sept. 7.—Shipments of hard coal by lake from Buffalo during August amounted to 465,373 tons, breaking the record of July, when 421,525 tons were forwarded to the upper lake ports by boat. Of the total Duluth and Superior received 184,932 tons, Chicago 132,800 tons and Milwaukee 87,350 tons, the remainder being distributed among the smaller ports.

Milk Famine Menaces New York.

New York, Sept. 7.—A milk famine menaces the city, according to prominent dealers. They say the shortage is now 80,000 quarts a day and that the supply is decreasing daily. The price, they predict, will soon advance to 10 cents a quart. The late spring and the scarcity of fodder for the cows is said to be responsible for the decreased supply.

Shoots Wife and Himself.

Pittsburg, Sept. 7.—Peter Boyle, aged thirty-five years, a gardener, forced his way into a roominghouse in this city where his wife was staying and, dragging her from bed, where she was sleeping with her seven-year-old son, fired a bullet into her head and then killed himself. Mrs. Boyle is at a hospital and will probably die.

Crew Narrowly Escapes Death.

Gallipolis, O., Sept. 7.—The steamer Henry M. Stanley, a packet plying between Charleston, W. Va., and Cincinnati, burned to the water's edge at Gallipolis island. The crew was on board and narrowly escaped death. The loss was \$20,000, with no insurance. An exploding lantern caused the fire.
