

Half the mean things a man says  
are really meant for himself.

We give a man a medal for bravery  
than poke fun at him for wearing it.

As soon as one woman breaks a  
man's heart another woman comes  
along with some glue.

It is getting so you can't tell  
whether it is a candidate or an actor  
that does the heroic things nowa-  
days.

A German religious sect is divided  
against itself on the matter of the  
male churchmen's whiskers. This  
is hair-splitting.

The trouble in China seems to be  
that the dowager empress has awak-  
ened to a realization that her crown  
is not on straight.

An Oyster Bay correspondent says  
the President is burning the mid-  
night oil on coming addresses. But  
this is small consolation to the  
Standard Oil Company.

#### MAY RESUME BUSINESS.

Affairs of Watson & Co. Not as Bad  
as First Supposed.

Minneapolis, Sept. 1.—Developments  
in the case of Watson & Co., the big  
Minneapolis-New York grain commis-  
sion and stock exchange house that  
was declared in financial difficulties  
on Thursday, are so increasingly fa-  
vorable as to make it seem almost  
certain that there soon will be a re-  
sumption of business.

No statement of the exact standing  
of the firm is yet possible, but the  
showing of assets of nearly \$1,000,000  
available in the New York office made  
the situation better and as conditions  
are brought out more in detail it ap-  
pears that the firm is much stronger  
than was supposed when the an-  
nouncement of the receivership was made.

The statement that all claims will  
be paid in full and that no one hav-  
ing money due from the firm will lose  
a dollar seems warranted.

The offices of the firm, though not  
accepting business, are open and all  
connections have been maintained  
and in the event of the perfection of  
the necessary arrangements, which  
now seems almost assured, business  
can be resumed very promptly. H. P.  
Watson said:

"The reports about the connection  
of Mr. Hill with our firm are wholly  
unwarranted. Neither Mr. James J.  
Hill or Mr. Louis W. Hill ever had any  
connection whatever with Watson &  
Co. Neither of them ever did any  
business with us. We never had a  
transaction for either of them at any  
time since we have been in business."

#### WIRE STRIKE NEAR END.

Rumors to That Effect Are Again in  
Circulation.

Chicago, Sept. 1.—Well defined re-  
ports that the settlement of the tele-  
graphers' strike is near at hand are  
persistent among the striking op-  
erators.

Word has been received in Chicago  
from W. W. Beattie, international vice  
president of the Telegraphers' union  
in New York, that there is every rea-  
son to hope for an early ending of  
the struggle.

Rumors of an early settlement are  
also based on the fact that Labor  
Commissioner Neill is in New York  
in conference with President Small of  
the Commercial Telegraphers' union  
and President H. B. Perham of the  
Order of Railroad Telegraphers with  
a view of bringing about a settlement  
of troubles between the companies  
and the key men.

During the conference Commissioner  
Neill and President Small had a long  
talk over the long distance telephone  
with President Gompers of the Amer-  
ican Federation of Labor at Washing-  
ton.

#### USED COMPANY'S FUNDS.

Missing Head of Chicago Concern Said  
to Be Short \$315,000.

Chicago, Sept. 1.—The appointment  
of a receiver for the properties of the  
Belding-Hall Manufacturing company  
followed closely upon the heels of the  
discovery by the creditors of the con-  
cern that its missing president, Jesse  
Edison Hall, had appropriated to his  
own use at least \$315,000 of the cor-  
poration's funds.

As far as can be discovered every  
dollar of this money went into mining  
stock which was backed up with no  
tangible property, theatrical ventures  
which made no money and other se-  
curities which the creditors are will-  
ing to sell in a lump for something  
less than \$6,000.

Indications are that Hall will not  
voluntarily return from Canada and  
that criminal prosecution will be in-  
stituted to bring him back to this  
country by the First National bank,  
which holds notes of the company ag-  
gregating \$100,000.

Aged Wisconsin Pioneer Dead.  
Kenosha, Wis., Sept. 1.—James C.  
Dow of Pleasant Prairie, Kenosha  
county, who came to Wisconsin in  
1837 and who for half a century was  
prominent in political affairs, is dead,  
aged ninety-two years. He leaves a  
large estate.

## DOZEN PERSONS DEAD

As Many Others Seriously Hurt  
in Iowa Railroad Disaster.

### THREE CARS TELESКОPED

All Those Killed and Also Those In-  
jured Were Occupants of Smoker,  
Which Was Completely Demolished  
by the Collision.

Waterloo, Ia., Sept. 1.—Rock Island  
passenger train No. 31, northbound,  
was wrecked at Norris Siding, near  
Cedar Falls. The trucks of the tender  
jumped the track at a curve while the  
train was going under high speed.

The passenger crashed into a freight  
on the siding, telescoping the mail,  
baggage and smoking cars.

Twelve persons were killed in the  
smoker, which was reduced to kind-  
ling. Many were injured, all of them  
being in the smoker. None was seri-  
ously injured in the day coach. The  
dead are:

B. R. CHRISTY, Minneapolis.  
P. B. CLOVER, Waterloo, Ia.  
WILL GOODMAN, Waterloo, Ia.  
JOHN N. WATSON, Waterloo, Ia.  
C. L. LANDPHER, Shell Rock, Ia.  
W. RALPH JOHNSON, Dicke, Ia.  
LEPOVAN TOJO, Hammond, Ind.  
W. H. MEYERS, baggageman, Bur-  
lington, Ia.

LABORER, name unknown, Ham-  
mond, Ind.

THREE UNIDENTIFIED MEN.  
All of the dead and injured were in  
the smoking car, which was immedi-  
ately behind the baggage and mail  
cars.

Smoking Car Demolished.

The smoking car was completely  
demolished, there being not one piece  
of wood left large enough to make a  
top for an ordinary kitchen table.

The dead and injured were strewn  
about the wreckage.

The northbound express was ten  
minutes late at Norris Siding, which  
is a small station three miles north  
of Cedar Falls, Ia., and there a south-  
bound freight train was awaiting the  
express, which came thundering along  
at a terrific speed in an effort to make  
up time.

Just as the engine of the express  
was about to pass the freight engine  
the trucks of the express jumped the  
track and the engine crashed with  
terrible force into the engine of the  
freight, wrecking both engines and  
telescoping the baggage and mail cars  
and demolishing the smoking car, in  
which a number of men were riding.

It was among the occupants of this  
car that the only injuries and fatalities  
occurred.

The passengers of the two day  
coaches that followed the smoker es-  
caped with only a violent shaking or  
Rescuers were immediately at hand  
to care for the injured and to take  
the dead from among the wreckage.

There was great excitement and the  
scene was one to make the stoutest  
hearted man shudder.

### PREDICTS GREAT FIRE.

New York Insurance Man Sees Danger  
in Skyscrapers.

New York, Sept. 1.—Opposition to  
the building of skyscrapers was voiced  
vigorously at a public hearing before  
the commission on limitation of  
height and area of buildings.

George W. Babb, president of the  
New York board of fire underwriters,  
said his board was expecting a fire of  
unprecedented size at any time in the  
high buildings. He said it was the  
belief of the fire underwriters that if  
a fire started on the upper floors of  
some of the highest buildings it could  
not be checked, as the water pressure  
is insufficient, and he feared it would  
spread to many other high buildings,  
entailing an enormous loss. His  
board, he said, advocated limiting  
buildings entirely for office purposes  
to 125 feet.

Calvin Tomkins, president of the  
Municipal Art society, was also in  
favor of limitations. He said he be-  
lieved the time was coming when sky-  
scrapers will be demolished to make  
room for buildings built by the block.  
He said the courts do not take proper  
cognizance of the easement of light  
and air.

### PROGRESS OF THE PLAGUE

San Francisco People Believe Dr. Blue  
Will Quickly Stop It.

San Francisco, Sept. 1.—The board  
of health has recommended to the  
board of supervisors that the city and  
county hospital, which has sheltered a  
number of plague cases, be burned.  
The city and county hospital is a col-  
lection of frame buildings and it has  
long been threatened to demolish it.

The announcement that the marine  
hospital service is to take charge of  
the plague situation is regarded here  
as an assurance that the progress of  
the disease will be stopped in short  
order. Dr. Rupert Blue, who has been  
assigned by Surgeon General Wyman  
to direct the campaign, had charge  
during the former appearance of the  
plague and has the confidence of the  
entire community.

### MRS. CARTER NOT GUILTY.

Jury Acquits Woman Accused of Re-  
ceiving Stolen Money.

New York, Sept. 1.—Mrs. Laura M.  
Carter, who has been on trial for a  
week on a charge of receiving stolen  
money, has been acquitted by the jury  
in the case. She was accused of hav-  
ing received from Chester B. Runyan,  
the defaulting teller of the Windsor Trust  
company, \$5,000 of the \$82,000 he  
stole from the bank. One of the jurors  
said that the jury agreed that the tes-  
timony of Runyan, who was the prin-  
cipal witness against Mrs. Carter, be-  
lieved on the ground that he was a  
self-confessed thief. Mrs. Carter ad-  
mitted getting \$5,000 from Runyan,  
but said that as soon as she knew it  
had been stolen, she returned it to  
him and betrayed him to the police.  
She denied that she demanded

or received an additional \$10,000, as  
Runyan testified.

### CHICAGO TRACTION CASE.

Federal Court of Appeals Reverses  
Former Decision.

Chicago, Sept. 1.—The United  
States court of appeals has reversed  
and remanded the Union Traction  
case, involving the unification of the  
street railway companies of the city.  
This places the properties again in  
the hands of the original receivers  
and renders of no avail all the work  
that has been done for several years  
toward improving the street car facili-  
ties on the West and North Sides of  
the city.

Cuban Census Begins Sept. 30.

Havana, Sept. 1.—Governor Magoon  
has issued a decree that the taking of  
the Cuban census shall begin Sept. 30  
and end Nov. 14. This census is a  
preliminary to the holding of the elec-  
tions.

### MEANS CONTROL OF TRADE

John Barrett Favors Deep Waterway  
From Lakes to Gulf.

Chicago, Sept. 10.—"The great Mid-  
dle West will control the trade of the  
entire west coast of South America  
when the Panama canal is completed,  
providing the deep waterway from the  
lakes to the gulf is constructed. Other-  
wise it will be Japan, Germany and  
England which will exercise com-  
mercial sway over this vast empire to be  
opened up."

This statement was made by John  
Barrett, director of the International  
Bureau of American Republics, who  
has been in Chicago for several days  
confering with men interested in the  
deep waterways proposition. It is his  
contention that the federal govern-  
ment should lend all the aid neces-  
sary for the construction of this ship  
canal to make the great advantages of  
the Panama canal available to the  
Mississippi valley. Mr. Barrett said:  
"It is not excessive to estimate the  
value of products which these repub-  
lics will then be purchasing from for-  
eign countries at \$500,000,000."

"The major portion of these supplies  
will come from America if the great  
manufacturing centers of the Middle  
West are provided with water trans-  
portation. It requires no stretch of  
imagination to conceive boats or  
barges loaded in Chicago, Joliet or  
other points in this manufacturing  
district making the entire trip. Amer-  
ica has been slow to improve its wa-  
terways, much more so than any other  
of the great powers, and it is time we  
awoke to the advantages to be ob-  
tained."

### GERMANY GAINS POINT.

Secures Suppression of Articles to  
Which She Objected.

The Hague, Sept. 10.—All the ar-  
ticles concerning the treatment of sub-  
jects of neutral powers in the terri-  
tory of belligerents, to which Germany  
objected at the plenary conference  
last Saturday, were suppressed by  
the committee on land warfare after  
a long and interesting discussion.

The delegate of the Grand Duchy of  
Luxemburg, which, according to the  
treaty of London of 1867, is neutral  
territory, introduced a motion, which  
was unanimously adopted, that the  
powers urge their subjects when they  
are in the territory of belligerents to  
respect the laws regarding the ob-  
servance of neutrality.

### BRIEF BITS OF NEWS.

The long drouth in Oklahoma and  
Indian Territory has been broken by  
a heavy rain. The rain was general.

At Eldorado, Kan., masked men  
broke and gagged the Missouri Pacific  
railway agent, robbed the safe of  
\$1,300 and escaped.

The Erie Railroad company has re-  
ceived an all steel passenger coach,  
which is on exhibition at the Jersey  
City terminal. The car is practically  
non-wreckable and will not burn.

The great council of the United  
States, Improved Order of Red Men,  
convened Monday at Norfolk, Va., in  
sixteenth annual session with upwards  
of 350 delegates and several thousand  
visitors.

The bishop of Winchester, Right Rev.  
Ernest Rolland Wilberforce, D. D., is  
dead at Bemburgh, Isle of Wight. He  
was born in 1840 and was a son of the  
late Right Rev. Samuel Wilberforce,  
bishop of Winchester.

### MARKET QUOTATIONS.

St. Paul Union Stock Yards.  
St. Paul, Sept. 9.—Cattle—Good to  
choice steers, \$5.50@6.25; fair to good,  
\$4.00@5.00; good to choice cows and  
heifers, \$3.50@5.00; veals, \$4.00@5.50.  
Hogs—\$5.25@6.05. Sheep—Wethers,  
\$5.00@5.25; good to choice lambs,  
\$6.00@6.75.

Minneapolis Wheat.  
Minneapolis, Sept. 9.—Wheat—  
Sept., \$1.04; Dec., \$1.05; May, \$1.09.  
On track—No. 1 hard, old, \$1.09;

5.20; Texans, \$3.50@5.00; Westerns,  
\$4.00@6.00; stockers and feeders,  
\$2.00@5.00; calves, \$5.50@8.00. Hogs  
—Light, \$8.15@8.52; mixed and  
butchers, \$8.55@8.50; heavy, \$5.50@  
6.20; rough, \$5.50@5.70; pigs, \$5.50@  
6.40. Sheep, \$3.25@5.75; lambs, \$5.00  
@7.55.

## NEW TRIAL GRANTED

William F. Bechtel of Minneap-  
olis May Go Free.

### WITNESSES ARE SCATTERED

Verdict Invalidated by the Alleged  
Misconduct of a Deputy Sheriff in  
Charge of the Jury at the Time of  
the Trial.

Minneapolis, Sept. 10.—William F.  
Bechtel, former president of the North-  
western National Life Insurance com-  
pany, who was sentenced on June 28  
to serve five years in prison at hard  
labor after he had been convicted of  
grand larceny from the Northwestern  
National Life Insurance company of  
Minneapolis, has been granted a new  
trial by Judge Dickinson.

Because it is unlikely that the coun-  
ty attorney's office will be able to ob-  
tain some of the most important wit-  
nesses who figured in the prosecution  
of the first case it is extremely doubt-  
ful if Mr. Bechtel will ever be placed  
on trial again.

In granting the new trial Judge  
Dickinson held that the verdict of the  
first trial was entirely invalidated by  
the fact that Deputy Sheriff Robert  
Hillier, who was in charge of the jury,  
made remarks in the hearing of the  
jurymen, which he holds to have been  
prejudicial and calculated to influence  
the verdict.

In the motion for a new trial affi-  
davits by jurors have been introduced  
showing that the deputy sheriff talked  
before the jury in a way likely to in-  
fluence the verdict.

### WOMEN SMUGGLERS CAUGHT

Had Jewelry and Lace Concealed on  
Their Persons.

New York, Sept. 10.—Customs in-  
spectors made a large seizure upon  
the arrival of the French line steamer  
La Gasconne when two young women,  
whose names appear on the passenger  
list as Misses Agnes and Catherine  
Barrett of French Lick Springs, Ind.,  
were searched and were each found  
to be wearing an opera coat of fine  
Irish point lace, both of which were  
undeclared. Thirty pieces of jewelry  
were found concealed around the  
waist of one of the young women.  
Both women broke down and sobbed  
after examination and protested their  
innocence. The jewelry and lace were  
seized by the officials, but the young  
women were allowed to go.

### SOLDIERS ARE DISPERSED

Plan Attack on Kansas Jail to Re-  
lease Comrade.

Junction City, Kan., Sept. 10.—A  
mob of nearly fifty soldiers of the  
farmers' school at Fort Riley came  
here for the purpose of releasing a  
comrade who was confined in the  
county jail.

The sheriff and city police force  
were notified of their coming and  
from positions in windows above the  
jail opened fire and quickly dispersed  
the mob as it sought to force an en-  
trance.

The authorities at Fort Riley have  
placed guards at the jail and are ad-  
ding in the effort to find the members  
of the mob. Two arrests have been  
made.

### DISCRIMINATION MUST STOP

Nebraska Officials Get After Great  
Northern Branch.

Lincoln, Neb., Sept. 10.—The Will-  
mar and Sioux Falls railway, a part  
of the Great Northern system, has  
been directed by the railway commis-  
sion to cease discrimination against  
Omaha in grain shipments. The  
Omaha Grain Exchange company  
complained that the railroad refused  
to furnish cars for shipment to South  
Omaha or Omaha, holding the cars  
for shipments to Sioux City and Min-  
neapolis. The commission ordered  
the railway officials to furnish cars in  
the order requested by patrons ir-  
respective of destination.

### FATAL TO DIPHTHERIA GERMS

New Antitoxin Wipes Out Disease in  
Three Minutes.

Columbus, O., Sept. 10.—Announce-  
ment of the discovery of an antitoxin  
that will kill diphtheria germs in the  
living human organism within the  
short space of three minutes has been  
made at the Ohio state university by  
Professor Blythe, physiological chem-  
ist, as the result of an exhaustive  
technical and intricate series of tests.  
The antitoxin was given tests in hos-  
pitals and private practice before an-  
nouncement of its discovery was  
made. It is applied by infusion and  
can be applied in any quantity to the  
youngest patient.

Many Fires Due to Carelessness.

New York, Sept. 10.—A yearly chart  
has just been completed covering 6-  
357 fires in Manhattan and the Bronx  
and calling attention to some interest-  
ing facts. It is estimated that fires  
started by carelessly dropped matches  
and cigarettes cause New York city a  
loss of about \$2,500,000 each year.

### Bursting Flywheel Causes Panic.

Chicago, Sept. 10.—Guests of the  
Lakota hotel were thrown into a panic  
and fled from the hotel diningroom  
when a flywheel in the engine room  
shot from its position and crashed  
into 1,000 pieces, many of which tore  
through the floor of the diningroom  
immediately above.

Peaches in South Dakota.

Sioux Falls, S. D., Sept. 10.—D. M.  
Dickerson, a fruit grower of Union  
county, has demonstrated that the  
southern portion of South Dakota is  
adapted to peach raising. Mr. Dick-  
erson has an orchard of 250 peach trees  
and has grown peaches to a moderate  
scale for about twenty years. Many  
of his trees are bearing this year and  
the fruit is fine in size and quality.

Arctic Explorers Safe.  
London, Sept. 9.—The Evening  
News announces that a telegram has

## TO GET PURE BLOOD

To get pure blood only the purest air should be breathed,  
the purest water drunk, and purest food eaten.

# DR. PRICE'S WHEAT FLAKE CELERY FOOD

is pure and cleanly. It is composed of wheat and celery, and in its  
making not a human hand touches it. The whole of the wheat but the  
outer husk is retained, so that it contains all the elements  
necessary to make pure blood. If you wish to keep in a  
healthy condition eat Dr. Price's Food with regularity  
every day. You will never tire of it. There is not another  
food that can compare with it in palatableness, clean-  
liness and nourishment.

been received in London from Gibben,  
Alaska, saying that Captain Mikkel-  
sen of the Arctic steamer Duchess of  
Bedford and his companions are safe,  
having traversed the ice to a place of  
safety after the wreck of the ship.

In Interest of Fairbanks.

Omaha, Sept. 9.—J. P. Goodrich of  
Indianapolis, Republican national com-  
mitteeman from Indiana, is making a  
tour of the Western states in the in-  
terest of Fairbanks as a presidential  
candidate and is holding conferences  
with prominent Republicans in Iowa  
and Nebraska.

### Protoplasm.

All life on the earth appears only in  
connection with one substance—a wa-  
tery jelly—closely related chemically  
to egg albumen—and this substance is  
known as protoplasm. Every living  
thing is built of this one substance—  
jellyfish, trees, whales, men—every-  
thing that lives. Biologists have suc-  
ceeded in doing some wonderful  
things. Five or six starfish eggs have  
been fused into one, from which a  
monster starfish has been produced.  
Other starfish eggs have been separated  
into eight pieces, from which eight  
dwarf starfish have been brought forth.  
Crabs can be made to order, with the  
large claw on either the right or the  
left side, and flatfish have been pro-  
duced with the color pattern on the  
underside.—New York American.

### Modest Contributors.

A man was coming up from Chun-  
chen province with a sum of money  
which had been subscribed for the pay-  
ment of the public debt. He was met  
by robbers, who took the money and  
started away. He called after them  
that the money was a subscription to  
the fund for the raising of the debt,  
whereupon they came back and handed  
him the money and begged his pardon  
for their mistake, and they gave him  
10 yen extra as a contribution on their  
own part. He asked their names to  
publish in the papers, but they said  
they did not want to obtain notoriety  
in that way and declined, but said they  
were glad to pay something toward  
helping the country.—Korean News.

### Why Shells Fly Straight.

Many people wonder why the cone  
shaped projectiles in their flight  
through the air do not wobble, but  
drive straight ahead. This is easily  
explained. Round the bottom of the  
shell is a narrow band of copper which  
varies in width according to the size of  
the projectile. Being made of soft  
metal, this band is cut by the steel  
rifling of the gun on the shock of ex-  
plosion. This action causes the shell  
to revolve with lightning rapidity, with  
the result that it keeps steady during  
its flight through the air.—London

20 years experience  
as a

## SPECIALIST

DR. REA

Eye, Ear, Nose, Throat

Diseases of Men; Diseases  
of Women; Nervous Dis-  
eases; Chronic Diseases.  
Coming to Bemidji

Thursday, Sept. 12  
at Markham Hotel 9 a. m.  
to 3:30 p. m.

## One Day Only!

Dr. Rea has made more re-  
markable cures in the Nor-  
thwestern states than any  
living man.

All curable medical and surgical diseases  
acute and chronic catarrh, and Special Dis-  
eases of the Eye, Ear, Nose and Throat, Lung  
Disease, Early Consumption, Bronchitis, Bron-  
chial Catarrh, Constitutional Catarrh, Dys-  
pepsia, Sick Headache, Stomach and Bowel  
Troubles, Rheumatism, Neuralgia, Sciatica,  
Bright's Disease, Diabetes, Kidney, Liver,  
Bladder, Prostatic and Female Diseases, Bir-  
diness, Nervousness, Indigestion, Obesity, In-  
terrupted Nutrition, Slow growth in children,  
cases of deafness, ringing in the ears, loss of  
sight, cataract, cross eyes, etc., that have  
been improperly treated or neglected, can be  
easily restored. Deformities, club foot, cur-  
vature of the spine, disease of the brain,  
paralysis, epilepsy, heart disease, dropsy,  
swelling of the limbs, stricture, open sores,  
pain in the bone, granular enlargements and  
all long-standing diseases properly treated.  
Young men and all who suffer from lost man-  
hood, nervous debility, spermatorrhea, semi-  
nal losses, sexual decay, failing memory,  
weak eyes, stunted development, lack of  
energy, impoverished blood, pimples, impedi-  
ments to marriage; also blood and skin dis-  
eases, syphilis, eruptions, hair falling, bone  
pains, swellings, sore throat, ulcers, effects of  
mercury, kidney and bladder troubles, weak  
back, burning urine, passing urine too often,  
gonorrhoea, gleet, stricture, receiving treat-  
ment prompt relief for life.

Cancers, Tumors, Gout, Fistula, Piles  
varicose and enlarged glands, with the sub-  
cutaneous injection method, absolutely with-  
out pain and without the loss of a drop of  
blood, is one of his own discoveries, and is the  
most really scientific and certainly sure cure  
of the twentieth century. Consultation to  
those interested, \$1.00.

# Daily Pioneer For News

That the Pioneer Gets and Prints the News Is Appre-  
ciated Outside of Bemidji. Read what the Akeley  
Tribune, published at Akeley, says:

The Bemidji Daily Pioneer  
Started the week in a brand new  
dress of type. The Pioneer is  
giving excellent news services.  
The increased advertising pat-  
ronage and circulation is evi-  
dence that the paper is appre-  
ciated by the public.
