Lars Bjorge of Crookston, who has a claim near Blackduck, came in yesterday from a business trip to Crookston, and after visiting in this city for several hours, left for Blackduck last evening. Mr. Bjorge has a big damage suit against the M. & I. Railway company, having sustained severe injuries while attempting to board a moving passenger train at Blackduck last winter.

T. J. Burke and W. A. Currie left last evening for the Littlefork country, where they will hunt for moose and deer for several days. They will camp at the home of a settler on the Littlefork river, and will traverse one of the best sections of the state for big-game shooting. Both gentlemen are good shots, and have considerable experience in the woods, so that we do not fear that we will hear of the slaughtering of some neighbor's cattle or horses, in a mistake for moose or deer.

Dr. Henderson left last evening for International Falls on a professional visit.

Lion shirts are selling rapidly. Some good ones left. \$1.50 shirts for 69c. Schneider Bros.

The judge was accompanied by George Moody, court reporter, who will officiate at the term. It is not anticipated that the term will be of any considerable length, as there are not many cases to consider.

Fred W. Rhoda, clerk of court, accompanied by his brother-in-law, Edmond Young, left last evening for Turtle River, and from that place went to the home of William Gallagher, near the Turtle River dam, southeast of the village of Turtle River, where they will hunt for the balance of the week. Both are good shots, and experienced huntsmen, and they will, no doubt, get their full share of game that is allowed by law.

John Hillaby, first lieutenant of Company K and captain of the company's football team, went to Cass Lake today, going over on the Standard Oil company's oil wagon, of which he had charge. Mr. Hillaby will try to arrange a football game with the Cass Lake eleven to be played here next Sunday afternoon. The last game between these two elevens was a closely-contested one, Company K winning by a score of 5 to 0. A game here would undoubtedly prove highly interesting.

**Flour Talks # 9**

There is a reason for our confidence in Occident Special Patent Flour that we have not told you. We bake more bread perhaps than any reader of these talks.

If you are particular about the flour you use you ought to see our bread bakers. They are severe critics. It keeps our wheat buyers and millers humping to keep Occident Flour up to our laboratory standard.

And don't we make good bread? Golden brown loaves with the crispy, flaky crust throwing off that delicious browned flour smell that fills your kitchen every bake day, and makes the little folks (and grown-ups too) beg a warm outside crust from mother. But our bakers don't bake for the good looks or the good smell. They bake to determine the food value, and the baking quality and quantity of Occident Flour. And they keep at it—everlastingly—with their ruthless tests, and measures, and temperatures—and when they say, "No!"—that batch doesn't get the Occident brand.

So you see we know every sack of Occident Flour is worth the few cents more and is as good from your bread point of view as it is from our flour standpoint. And we tell you grocer to return your money if you aren't satisfied. Insist on this label.

The edges of the water around Lake Bemidji are gradually freezing, and it will be but a few days when the entire lake will be frozen in. Last year, the last of the open water was frozen in the lake on November 29th. And those seeking whitefish netting are getting fine catches, as this is the season when the fish come to the shallow parts of the lakes, and are easy prey for the man with the "string lasso."

**THE DOCTOR'S QUESTION**

Advice Against the Use of Harsh Purgatives and Physics.

A doctor's first question when consulted by a patient is, "are your bowels regular?" He knows that ninety-eight per cent of illness is attended with inactive bowels and torpid liver. This condition poisons the system with noxious gases and waste matter which naturally accumulates and which must be removed through the bowels before health can be restored.

Salts, ordinary pills and cathartics may be truly likened to dynamite. Through their harsh, irritating action they force a passage through the bowels, causing pain and damage to the delicate intestinal structure which weakens the whole system, and at best only produces temporary relief. The repeated use of such treatments cause chronic irritation of the stomach and bowels, hardens their tissues, deadens their nerves, stiffens their muscles and generally brings about an injurious habit which sometimes has fatal results.

We have a positive, pleasant and safe remedy for constipation and bowel disorders in general. We are so certain of its great curative value that we promise to return the purchaser's money in every case when it fails to produce entire satisfaction. This remedy is called Rexall Orderlies. We urge you to try them at our entire risk.

Rexall Orderlies are very pleasant to take, they act quietly and have a soothing, strengthening, healing influence on the entire intestinal tract. They do not purge, gripe, cause nausea, flatulence, excessive looseness, diarrhoea or other annoying effect, and they may be taken at any time without any inconvenience.

Rexall Orderlies overcome the drugging habit and cure constipation and all similar ailments, whether acute or chronic. They are especially good for children, weak persons or old folks, Price 36 tablets, 25c. and 12 tablets 10c. Barker's Drug Store.

**Bilious?** "How are your bowels?" the doctor always asks. He knows how important is the question of constipation. He knows that inactivity of the liver will often produce most disastrous results. We believe Ayer's Pills are the best liver pills you can possibly take. Sold for over 60 years. J. C. Ayer Co., Lowell, Mass.

Just to remind you of the importance of saving your teeth. That's my business.
