

FEELING IT OUT

(Copyright.)

"Not Quite Warm Enough, Fellers."

UNIVERSITY TO REACH THOUSANDS

(Continued from first page.)

week in June and will draw many people from each of the cities to be visited.

Grand Rapids is to entertain the next meeting of the Northern Minnesota Editorial association and the men in charge of that meeting would like to have it during their university week but feel that the attendance will be small if it is the same week as the International Falls meeting as few of the editors could remain away for four days.

Minnesota Represented.

Philadelphia, Pa., April 26.—More than 1,500 star performers on cinder path and field, comprising the greatest collection of athletes ever assembled for a single meet with the single exception of the Olympic games in London several years ago, will compete on Franklin Field tomorrow in the eighteenth annual carnival of relay races and field sports under the auspices of the University of Pennsylvania. The entries include nearly 300 different teams for the various class and inter-collegiate relay races and nearly 200 entries for the special events. The contestants will represent every section of the country east of the Missouri river and Canada as well. Minnesota and Iowa will represent the district west of the Mississippi, and McGill University, of Montreal, will uphold the reputation of Canada. Of the big universities of the United States there will be star athletes from Princeton, Yale, Harvard, Columbia, Dartmouth, Michigan, Chicago, Indiana, Minnesota and other Western institutions.

Besides the class races, the stellar events will be as usual, the one-mile, two-mile, and four-mile championships of America, the freshman relay championship, and the following individual track and field events: One hundred yard dash, 120-yard high hurdle, running broad jump, running high jump, pole vault, shot put, hammer throw and discus throw.

The mile race promises to be the greatest event of the day, as, besides the Canadian champions, Chicago, the American champions; Illinois, the champions of the West; Pennsylvania, Syracuse, Columbia, the indoor champions; Dartmouth, Massachusetts Institute of Technology, Ohio, Wesleyan and other big institutions are entered. It will be one of the most representative college races, and the winner will have every right to the title of champions of America.

Effort to Save Richeson's Life.

Boston, Mass., April 26.—The hearing on the appeal for commutation of the sentence of Clarence V. T. Richeson, confessed slayer of Avis Linnell, who is sentenced to die in the electric chair during the week of May 19, will come up before Governor Foss this morning. William A. Morse of this city, and John L. Lee of Lynchburg, Va., counsel for the former preacher, will ask for the commutation of their client's sentence and the governor will thereupon decide whether it shall be presented to the executive council. It is understood that one point that will be urged in favor of commutation is the fact that Richeson's confession saved expense, it is estimated, would have

the state the expense of trial. This amounted to fully \$45,000.

Carolina Oratorical Meet.

Rock Hill, S. C., April 26.—College orators, accompanied by large delegations of students, gathered in Winthrop college today for the annual contest of the South Carolina Inter-collegiate Oratorical association. The institutions represented include the University of South Carolina, Charleston college, Erskine college, Clemson college, Presbyterian college of South Carolina, Wofford college, Furman University and Newberry college.

Dr. Pearsons Ill.

Chicago, April 26.—Physicians watching at the bedside of Dr. Daniel Kimball Pearsons, philanthropist and benefactor of small colleges, said today that his condition had slightly improved. He is suffering with pneumonia and for three days oxygen has been administered hourly. The ninety-two year old patient, although too weak to see his friends, declares to his physicians that he will recover and attain the century mark.

HIGH SCHOOL NOTES.

Wednesday noon the junior and senior classes of the High school held a joint meeting. The junior ball and other important matters were discussed. No definite action was taken.

The Chemistry class of the High school has begun the testing of foods. Milk, meats and other substitutes have been tested already. Much interest is being shown in this work.

Confederate Memorial Day.

Atlanta, Ga., April 26.—Today was observed as Confederate Memorial Day throughout Alabama, Mississippi, Florida and Georgia. The holding of memorial exercises and the placing of flowers on the graves of Confederate dead formed the principal features of the program in all cities and towns where the day was observed. In many cities public offices were closed and business largely suspended.

Louisiana Bankers in Session.

Covington, La., April 26.—A large and representative gathering of financiers and business men marked the opening here today of the annual convention of the Louisiana State Bankers' association. The program for the meeting covers two days and provides for addresses by several bankers of wide reputation and the discussion of numerous questions relating to banking and finance.

Sigma Delta Chi Meeting.

Greencastle, Ind., April 26.—The first annual convention of Sigma Delta Chi, the only strictly college national journalistic fraternity, began today at De Pauw University, where the society was first organized three years ago. Delegates from ten universities and colleges are attending the meeting, which will continue over to tomorrow.

Admiral Thomas to Retire.

Washington, D. C., April 26.—The navy will lose a veteran and efficient officer tomorrow, when Rear Admiral Chauncey Thomas, recently in command of the Pacific fleet, will be placed on the retired list on account of age.

FISH INDUSTRY VALUABLE.

Cox Says Red Lake Indians Should Conserve This Resource.

Speaking of the Red Lake Indian reservation, William T. Cox, who had just returned from an overland trip, said in the St. Paul Pioneer Press: "Red Lake deserves to be much better known than it is. With the exception of Lake Michigan, it is the largest body of fresh water wholly within the United States. It covers an area of nearly 400 square miles.

"Red lake is remarkable in that despite its immense size, it contains no islands, and that its shore is practically a continuous sand beach. The deepest portions of the lake are only about 35 to 40 feet, but the bottom is so uniform that a sail boat or steamer can take a straight course without danger of striking reefs or sand bars. The surrounding country even in topography and breezes on the lake are dependable so that this splendid body of water offers perhaps the best opportunity in the world for yacht racing, ice-boat racing and similar sports.

"Red lake has no muscullonge but is well supplied with white fish, pike and other food fishes. The fishing here is well since it will now be possible, owing to an interest in conservation, to provide for proper supervision of the fisheries when they are developed to see that favorable conditions are maintained for the reproduction of the fish and continuance of the industry. It would be much more sensible for the government to encourage a conservative development of the fisheries of Red lake and thus lead the 1,200 Indians living on its shores to become self-supporting through a line of work for which they are suited than to spend untold sums trying to make farmers of them.

"The fish of Red lake are worth far more to the Indians, if the government only thought so, than all the pine on the reservation and all the land which may ever be allotted to them. The present reservation includes the country on the south and west sides of the lake, together with the pine covered peninsula and embraces about 400,000 acres."

Iowa Observes Arbor Day.

Des Moines, Ia., April 26.—Pursuant to the proclamation of Governor Carroll, Iowa observed Arbor Day today by the planting of trees and shrubs and the holding of special exercises in public schools throughout the state.

Take Choir to Norway.

Northfield, Minn., April 26.—Preparations are being completed for the trip in 1912 of the St. Olaf choir of St. Olaf college of this city to Norway. About forty are to make the trip.

To Can Beef for Summer.

Cut the meat and pack in Mason jars (up to the neck) with salt and pepper (one tablespoonful salt to two quarts meat), pepper to taste. Seal jars tight, wrap jars around them and stand in wash boiler, (have a board in the bottom of boiler, I made a rack of thin boards), cover jars well with cold water, let boil 2 to 4 hours; cool, remove jars, screw tight again, stand on end to be sure they don't leak.

Will keep all summer. The rag keep the jars from bumping and breaking when boiling.

ST. PAUL A GOOD MARKET.

Figures of Stock Yards Show Many Sales Per Year.

In a small circular which it has just issued, the St. Paul Union Stockyards company is making a bid for western business claiming that it affords a better market for livestock than many in the east. In support of this it says that of the total receipts during the year 1911, the following proportion was sold: cattle, 89 per cent; hogs, 99.7 per cent; sheep, 53 per cent; horses, 56 per cent.

The figures for receipts and sales are as follows:

	Receipts	Sales
Cattle	538,637	479,293
Hogs	910,733	908,700
Sheep	712,126	376,900
Horses	7,709	4,364

Daily capacity of yards:
18,000 cattle,
35,000 sheep,
12,000 hogs,
5,000 horses.
Feeding sheds for 75,000 sheep.

CARE OF RUGS AND CARPETS

Their Usefulness May Easily Be Shortened by Careless Handling When Cleaning.

No matter what the size or quality of a rug, it is a mistake to shake it by the end to beat it free from dust. The force required to grasp it securely and the sharp snap and jerks are ruinous to the binding and fringe.

A rug sometimes becomes badly creased. To remedy this, turn it upside down and wet the crease with a moistened broom until the rug is quite wet. Stretch the rug tight and let it remain over night, after tacking it with tinned tacks, which do not rust. Here is a good way to clean carpets without taking them up—it will also clean rugs thoroughly: Sprinkle them generously with yellow cornmeal that has been well dampened in weak ammonia water. Sweep off in a few minutes and you will be surprised to see the clean and bright appearance of your carpets and rugs.

Should you accidentally spill oil or soot on your carpet, you can extract all the oil by covering the spot with buckwheat flour, allowing it to remain several hours before sweeping. Repeat again if not all removed by first application. To get rid of the soot, you will need to spread some coarse salt thickly over the spot. Let it remain a short time and when swept off you will find the spot removed. This remedy will not hurt the finest carpet.

When ink is spilled on carpets or rugs it should be covered immediately with salt, and keep putting on salt until there is no sign of the ink through the salt, let it remain over night, and when you sweep it off next morning there will be no sign of the ink left on the carpet.

When taking up carpets there is no necessity for the clouds of dust that some women let loose in the air by improper management. If paper was laid under the carpet the work is easily done. After drawing all of the tacks without turning up even a corner of the carpet, begin at one end of the room, and with an assistant, carefully roll the carpet from one end to the other. Lift it carefully and carry it to the clothes line. Draw the papers, with the dust on them, carefully together, placing them on top of each other until all are in a pile. Fold them over to prevent the dust scattering off, and carry them outdoors to be burned. Sprinkle the floor with cold water and sweep up, then wash with soap suds, and the task is accomplished with no dust to settle on the walls.

He Speaks Twenty-Three Languages.

Sir Charles Elliot, the newly appointed principal of Hong Kong university, who speaks 23 languages, may probably hold the record as a linguist in these degenerate days. But in the past he would not have borne off the belt so easily. There was Elihu Burritt, for instance, the "Learned Blacksmith," born in Connecticut in 1810, who whilst working as an apprentice at the forge taught himself French, Latin, German, Italian, Greek and Hebrew. During early manhood he mastered Sanskrit, Syriac, Arabic, Norse, Spanish, Dutch, Polish, Bohemian and Turkish; then turning his attention to minor languages and dialects, persevered in his studies until he was able to read, write and speak in 60 different ways.

But it took an equal linguist to tell when Elihu Burritt was telling the truth.—From the London Chronicle.

Eggs on Toast (Southern).

Chop very fine six hard-boiled eggs; have ready one pint of white sauce; season with a saltspoon of salt, a pinch of pepper and a hint of nutmeg. When the sauce boils turn in the eggs, boil five minutes longer. Toast nice pieces of bread; spread with butter, cover with some of the egg mixture; sprinkle lightly with grated cheese; set in the oven for five minutes; remove, dress on a dish and serve.—Plantation Style.

Orange Cream Pudding.

Two tablespoonfuls of powdered gelatin, one cupful of boiling water, two cupfuls of orange juice, two cupfuls of whipped cream, two cupfuls of sugar and yolks of two eggs. Dissolve gelatin in boiling water, then add sugar, orange juice and yolks of eggs, beat all well together, then add the whipped cream. Pour into a wet mold and turn out when firm.
