

THE RIGHT WORD IN ITS PLACE

You Can Acquire Knack of Using Language by Taking Advantage of This Offer.

Have you the magic of the necessary word?

If not, why not? The Pioneer is at present offering to you the opportunity of obtaining to what degree you will the faculty of free expression of thought through the use of an extensive vocabulary, which has brought fame and fortune to many noted men.

Many fortunes have been made and may be made from words. The Pioneer in offering to you the New Websterian 1912 Dictionary, illustrated, supplies you with the mine which, when operated by you, will certainly better your fortune through increasing your ability of expression, add much to your enjoyment of life, and perhaps bring you the success which you covet.

Rudyard Kipling has acquired a fund of words that gives him invariably the right word in the right place; Conan Doyle's powerful descriptive style is merely a structure of words rightly understood and rightly applied, and each of these Englishmen receive from 50 cents to \$1 a word every time he sells an article.

Rufus Choate, the most successful jury advocate of his time, refused to enter the court room until he had found a new word for use in that day's speech. Senator Ingalls, the most powerful orator of the Fiftieth Congress, when asked how he acquired his wonderful command of language replied:

"For years I have made a practice of searching the dictionary for words that are new to me, and then using them in conversation and public speaking."

The opportunity of which these men have taken advantage is open to you. Compare your limited success with your limited vocabulary and you may see your failures in a new light, and realize why you do not have the same chance as the man with the more fluent speech and apt way of expressing his thoughts.

If you are hampered by a limited library, get busy and clip coupons for the New Websterian 1912 Dictionary, Illustrated. Keep it at your elbow in your office or in your home and use it constantly. Do not pass a word you do not understand when you are reading or listening to a sermon or lecture—look it up in the dictionary and you will find that your fund of general information and your vocabulary will grow apace and you will be worth more to yourself, to your employer and to your friends.

The distribution of dictionaries has proved such a popular idea that the Dictionary Department is busy all day long showing the books to those who are anxious to see what they are going to get as soon as they have collected six consecutive coupons. Not one book will be given out until the six days expire. It is expected that sets of coupons will begin to arrive with a rush then.

This Dictionary is not published by the original publishers of Webster's Dictionary or by their successors. It has been revised and brought up to the present date in accordance with the best authorities from the greatest universities, and is published by the well known Syndicate Publishing Co. of New York City.

Miss Jessie Dodge gave a miscellaneous shower for Miss Jessie Johnston at the former's home on June 29, at which eight young ladies were present. The afternoon was spent in playing games and in sewing for the bride to be. At the close of the afternoon Miss Johnston was presented with a booklet containing the favorite recipes of each guest, also some presents from friends. On July Fourth Miss Jessie Johnston and Will Avery went to Bemidji, at which place they were united in marriage. Mr. and Mrs. Avery returned in the evening and will make their home at the groom's farm, near here. The young couple are well known and have the best wishes of the community.

Lawrence Dodge who has been laid up for some time as a result of a runaway accident, is improving somewhat and is able to get about on crutches.

Last Friday evening a meeting was held at the home of Wm. Gerlinger to discuss the feasibility of moving the church which now stands useless at Farley, into this community, so that the meetings which are now held in the school house, may be held in the church. Committees were appointed to look after arrangements. Rev. S. E. P. White of Bemidji came up to attend this meeting.

Next Sunday, July 14, the Sunday school, which has been carried on without complete organization, will be organized. Officers will be elected and permanent classes established. All meetings next Sunday will be held at the Spur 106 school house.

NYMORE LOCALS

The Fourth of July celebration at Nymore proved a great success. No one was hurt, and there were no accidents.

The first thing on the program was the parade which started at 10 a. m. The parade consisted of the band, several floats, the firemen, members of the Village Council, and seventeen head of horses, ridden by the mill employees.

Leona Alton drove a team of dogs. George Voltz rode a cow and caused great laughter among the on-lookers. Mrs. McQue and Miss Lillie Reinke were the chief dress makers of the day.

At the exercises the young ladies of Nymore took part by singing several patriotic songs. Mrs. T. J. Martin read the Declaration of Independence. Mr. T. J. Martin delivered a short address. He was followed by a brief talk by the mayor, John Olson.

The Solway band furnished the music for the day.

The amusements in the afternoon were the races which were as follows:

100 yard dash, won by Maurice Bentley; second, Harvey Supry. 3-legged race, won by Melvin Larson and Frank Smith. Sack race, Pete LeMarch. Ladies' race, Ethel Krog. Potato race, John Reinke. Fat man's race, C. Anderson. Girls' race, Roseeta Dowling. Horse race, Rete Wold. Tug-O-War, fire department. Boys' foot race, Arthur Johnson. Directly after the races dancing began in the bowery.

Mr. and Mrs. Henry Nye returned

Tuesday evening from Minneapolis. Fred Morrell, Mrs. Nye's uncle, accompanied them home.

An exciting ball game was played at the Nymore ball park Sunday afternoon when the Green Lumber Boys played the Dry Lumber Boys of the Crookston mill. The game turned out with a score of 12 to 4 in favor of the Dry's.

Nymore has commenced to put in cement sidewalks. John Olson has the contract to put in cement walks for several families living on B avenue. When completed it will amount to one-block.

Peter Bergman purchased a lot of M. Larson this week.

M. Larson has completed the addition on his store this week.

Kappa Sigma Fraternity. Louisville, Ky., July 10.—An army of 2,000 Greek letter men recruited from colleges and universities throughout the country took possession of Louisville today, the occasion being the twentieth biennial grand convocation of the Kappa Sigma fraternity. The sessions of the gathering will last three days and will be liberally interspersed with features of entertainment.

The Kappa Sigma fraternity in America was founded at the University of Virginia in 1869. It derives its origin from an ancient European secret order which was founded at the university of Bologna about 1395, and spread later to the universities of Paris, Florence and Orleans. Since its introduction into America the growth of the fraternity has been very rapid and it is now represented at the leading colleges of the country by 78 chapters.

ONE REASON WHY CHILDREN DIE

So close is the present day connection between the city and country, that the habits of cleanliness of farmers, especially those who sell milk, has a close relation to the number of deaths of young children. July, August and September are the months when the greatest number of small children die of intestinal diseases. It has been found that these same months are the ones in which milk contains the largest number of bacteria, the high point in both cases being August.

The bacteria in milk which a grown a person may drink and never know it often causes the death of children. The bacteria cannot be seen, and unless attention has been called to it, the farmer does not know how they get in the milk. But no milk is absolutely free from these germs, and they grow with marvelous rapidity, especially if the milk is warm. This is why milk should be cooled and kept cool after it comes from the cow, and of course great care should be taken to prevent dirt of any sort on the cow or around the milk pail. No one wants to be even the unconscious cause of the death of a child.—State Board of Health Talk.

Blackbirds' Courage

At Heriot Gardens, a new and pretty suburb of Burntsland, a cat upon a garden wall was about to pounce upon a female blackbird sitting on her nest of eggs, when her mate, which was on the watch, sounded the alarm. Acting together, both set upon the cat with a vigor that hustled it off the wall into a neighboring garden. The birds pursued it along the path, keeping at close quarters till it escaped under cover. Victory was complete, and the enemy has not approached the place since.—London Globe.

Tallest Tree in the World

The tallest tree in the world is the Australian eucalyptus, reaching a total altitude of 480 feet. The biggest are the mammoth trees of California, some of which are 376 to 376 feet in height and 108 feet in circumference at the base. From measurements of the rings it is believed that some of these trees are from 3,000 to 2,500 years old. The oldest tree in the world is said to be on the island of Kos, off the coast of Asia Minor. It is several thousand years old, but just how many no one has dared to say. The tree is carefully preserved by a wall of masonry around it, and the trunk is 30 feet in circumference.

"H'm, that's different," growled the angry pater. Then he started after Willie.
