FIVE THOUSAND DRUGGISTS

Units in Opinion Regarding One Medicine

If any one should know the value of a medicine it is the retail druggist who sells it.

Therefore when over five thousand of the best retail druggists in the country recommend Vinol, our delicious cod liver and iron tonic, without oil, as the greatest tonic reconstructer and strength creator they have ever sold, it must indicate the value of Vinol.

We could publish columns of such testimony as the following:

Mr. E. C. Spens, Druggist of Alpena, Mich., says: "Vinol is the ideal tonic reconstructer, as it really today is the best remedy we have on our shelves."

Dr. C. F. Burcholtz, the leading druggist of Springfield, Ohio, says: "Vinol gives better satisfaction than any medicine I have sold in my store."

We ask every run-down, nervous, debilitated, aged or weak person or any person suffering from chronic coughs, colds or bronchitis, to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim.—Barker's Drug Store, Bemidji, Minn.—Adv.

CONTRACTORS ATTENTION.

JOHN MOBERG.

HOW TO CUT DOWN LIVING EXPENSES

Any Bemidji family can make a big saving and also be much healthier by eating the deliciously appetizing "Minnesota" Spaghetti at least twice each week in place of meat.

"Minnesota" Spaghetti is four times as nutritious as beef-steak and yet costs only about one cent a dish. It contains more proteins than most foods and is therefore more strength giving and less fattening.

It is fine for children—making their bodies strong and healthy. And they are very fond of its rich, nut-like flavor.

Insist on getting the genuine "Minnesota Spaghetti, made from the very best durum wheat with all the wonderfully nourishing Gluten left in.—Adv.

FERTILIZING OATS.

By A. L. Stone, Experiment Station, Wisconsin Agricultural College.

[National Crop Improvement Service.]
Oats do best on soils that are not too fertile and the direct application of fertilizers is generally inadvisable as liable to produce lodging of the grain and consequent loss. Where oats are grown in rotation following corn which has been well manured, there is no need of manuring the oats themselves as enough plant food will be available for the oats after the corn has been removed. Rotation alone will not add fertility. On soils too poor to raise good crops of oats, the application of barnyard manure at the rate of ten to twenty-five loads per acre should be used, or where manure is not available, whatever elements the soil lacks should be furnished.

Commercial fertilizers may best be applied with a fertilizer attachment to the grain drill and at the time of sowing the grain.

DO YOU KNOW THEY HAVE APPENDICITIS

Many Bemidji people who have chronic appendicitis, which is not very painful have doctor for years for gas on the stomach, sour stomach or constipation. E. N. French & Co. state if these people will try simple buckthorn bark, glycerine, etc., as compounded in Adler's, the German appendicitis remedy, they will be surprised at the QUICK benefit. A SINGLE DOSE relieves these troubles INSTANTLY.—Adv.

Barnum's First Circus Exhibit.
P. T. Barnum launched his career in the show business by exhibiting a remarkable negro woman, believed to be 160 years old, and said to have been a nurse to George Washington. An old bill of sale was exhibited, properly dated, concerning Joyce Heth, then 54 years old, and evidence was also furnished that she was nurse to George Washington. Everything seemed so straightforward to the young man that he was eager to become the proprietor of this novel exhibition, which he purchased for \$1,000, \$500 of which he paid down, selling out his interest in the grocery business, and the other \$500 he borrowed. He saw that the thing to do was to make people talk and become curious and excited over rare spectacles. Regardless of expense he advertised in New York, Boston and Philadelphia, and the halls were thronged until Joyce Heth died.—Joe Mitchell Chapple in National Magazine.

Correct.
"What," asked the Sunday school teacher, "is meant by bearing false witness against one's neighbor?"
"It's telling falsehoods about them," said one small maid.

"Partly right and partly wrong," said the teacher.
"I know," said another little girl, holding her hand high in the air, "it's when nobody did anything and somebody went and told about it."—Lippincott's.

Awaiting Orders.
The stationmaster on the Eastern Indian railway had been given strict orders not to do anything out of the ordinary without authority from the superintendent. This accounts for his sending the following telegram:

"Superintendent's Office, Calcutta: Tiger on platform eating conductor. Please wire instructions."

FILES CURED IN 6 TO 14 DAYS

110,000 Buick Users

Every One a Buick Booster

There is a certain prestige that owning your own motor car gives you in your community.

There is a certain satisfaction in knowing you own a car that will take you anywhere and bring you back. It is this quality of dependability which has put 110,000 Buicks on the road, and it is this same quality of dependability which has made every one of those 110,000 Buick users a Buick booster.

The Buick overhead valve motor has more power per cubic inch of piston displacement than any other type of motor ever built. It costs us more to make but it costs you less to run it.
