

## NO DOUBT ABOUT SMALLER CITIES

(Continued from first page).

commissioners are watched. Whenever a question comes up now, there is no doubt what the people think.

They knew when and where business is done and who is responsible." Dr. Schaper met with the charter commission in the afternoon informally and warned them of mistakes which are apt to creep into the charter and cited cases in other cities. He advocated strongly a budget provision. Asked to advise on the number of commissioners needed here, he

refused saying that the charter members knew local conditions and needs better. Although Dr. Schaper invited discussion of the subject last night, no questions were asked. At the meeting with the charter commission, he discussed the plans for Bemidji as far as they have been outlined. Several ladies attended the meeting last night and it was predicted that more would have been out had the weather been better.

## FRIEDMANN HAS TAKEN LONG STEP

(Continued from first page).

aware of the wonder he has apparently worked and certainly desires to obtain the legitimate rewards of his work and years of sacrifice devoted to research work. He has not accepted a dollar for his services since he came to New York, but he expects to realize on his discovery ultimately. Fourteen years' bending over microscopes in a laboratory have not tended to make him particularly communicative. As the result of these attributes, he was not so frank at first as the newspaper men and physicians thought a genuine world benefactor should be. The result was a storm of criticism.

But the young doctor was supremely indifferent to criticism. Instead of country in a huff, he settled down to being broken in spirit or quitting the task of proving that he has a cure completely accomplished his object, but as gone so far in the attempt that he has become the most talked of man for tuberculosis. Today he has not of the day in the world's highest medical circles.

## WYNNE.

Mr. Lundmark sawed wood for Ole Staffne and Carl Thulin last week. Math Berg has been hauling hay from near Nebish during the past week.

John Erickson and Seth Anderson recently returned from Ray, Minn., where they have spent the winter trapping; being obliged to quit trapping on account of the deep snow.

George Elliott made a business trip to Nebish the other day. George Creighton called on Carl Winger one day last week.

Olaf Lundeen of Island Lake, made a lively drive out to the Staffne farm last Saturday. Gust Berg of Aure was through here last Saturday circulating a petition to establish a Farmers Co-Operative creamery. The prospective territory to embrace the towns of Roosevelt, Buzzle, Maple Ridge and Liberty and the creamery to be located at the four corners of these towns.

Roy Elliott called at the Wynne home one evening recently. George Creighton had the misfortune to fall and break a rib last Saturday.

Fritz Johnson returned home from camp last Friday.

## How Spent.

"Contrary to general opinion, the securing of money is not a very difficult task, if one is willing to work. The real importance of finances for a man or woman, for a boy or girl, is what is done with the money after it is earned."—J. J. Hill.

## SCHOOL ATTENDANCE.

The census inquiry as to school attendance in Minnesota, was merely as to whether the person enumerated had attended any kind of school at any time between September 1, 1909, and the date of enumeration, April 15, 1910.

The total number of persons of school age—that is, from six to twenty years, inclusive—is 648,775, of whom 443,761, or 68.4 per cent, attended school. In addition to these 9,463 persons under six and 9,643 of twenty-one and over attended school. For boys from six to twenty years, inclusive, the percentage attending school was 68.1; for girls, 68.7. For children from six to fourteen years, inclusive, the percentage attending school was 88.8. The percentage for children of this age among native whites of native parentage was 88.8; among native whites of foreign or mixed parentage, 89.2; among foreign-born whites, 86; among negroes, 90; and among Indians, 77.8. There is little difference between urban population and rural as regards the percentage of school attendance for the ages from six to fourteen, but of persons from fifteen to twenty, inclusive, 34.7 per cent in the urban population as against 39.6 per cent in the rural were reported as attending school.

## TREAT FOR HOUSEKEEPERS

Bemidji housekeepers are delighted with the delicious, nut-like flavor of "Minnesota" Macaroni. Many say they never knew macaroni could taste so good and be so firm and nutritious and so easy to prepare. The "Minnesota" Macaroni, now sold by leading Bemidji grocers.

There is a big difference in macaroni as sold in the stores. "Minnesota" Macaroni is made from the very best durum wheat with all the wonderfully nourishing gluten left in. It is easily digested, very nourishing, and costs only about one cent a dish.

Try the handy "Minnesota" Cut Macaroni, which is cut into uniform pieces—it cooks more evenly and is quicker to prepare.—Adv.
