The Weekly Pioneer. Eight pages, containing a summary of the news of the week. Published every Thursday and sent postage paid to any address for \$1.50 in advance.

Published every afternoon except Sunday by the Bemidji Pioneer Publishing Company. G. E. CARSON. E. H. DENN. MARSHALL J. DANZ, Editor.

who lives in this city. The home of every citizen is threatened. Do not put off getting to work with your fly killers. Encourage our children to enter the lists of swatters and join the "head them off legion." It does not matter so much how you do it, provided you do it now. That is the only effective way to head them off.—Wisconsin State Journal.

THE SUMMER SCOURGE.

FLIES are disease carriers and originate in filth. They are born in filth; they thrive in filth; they prefer filth as an environment. With filth laden feet they drag their way through the butter; with filth covered wings they flounder in the milk; with filthy bodies they succumb in the sirup.

One female fly lays about 120 perfect eggs. These eggs hatch in ten days. It may be assumed that they result in sixty perfect females. These females lay 120 eggs each. The eggs hatch in ten days and result in 3,600 perfect females. The 3,600 lay 120 eggs each, which hatch in ten days and result in 210,000 females, and so on. If therefore one energetic fly becomes productive on April 15, how many energetic flies will one manure pile give forth by Oct. 31? Kill the early fly.

Small Print Bad for Children. Small print lends the young scholar to look too closely at his books. He is not yet familiar with the forms of the words, and his eyesight has not yet reached its full acuteness. For easy vision he must have retinal images larger than those which satisfy the trained reader. To obtain these larger images he brings the book too near to his eyes, or his eyes too near the book, and this is apt to be injurious.

Look to Your Plumbing. You know what happens in a house in which the plumbing is in poor condition—everybody in the house is liable to contract typhoid or some other fever. The digestive organs perform the same functions in the human body as the plumbing does for the house, and they should be kept in first class condition all the time. If you have any trouble with your digestion take Chamberlain's Tablets and you are certain to get quick relief. For sale by Barker's Drug Store—Adv.

Straight at It.

There is no use of our "beating around the bush." We might as well out with it first as last. We want you to try Chamberlain's Cough Remedy the next time you have a cough or cold. There is no reason so far as we can see why you should not do so. This preparation by its remarkable cures has gained a world wide reputation, and people everywhere speak of it in the highest terms of praise. It is for sale by Barker's Drug Store.—Adv.

To Cut Cardboard.

Cardboard is used for so many purposes that it is well to know the way to get straight edges. Never use scissors for the purpose, for that makes ragged edges. Instead use a ruler, preferably a brass-edged one, and lay it on the cardboard with the brass edge upward. As the ruler has a bevel edge the brass is a fraction of an inch above the board when it is properly placed. Now get a very sharp penknife, hold the ruler firmly and draw the knife along the brass edge. Do not attempt to cut through the cardboard the first time, but merely score it deeply. Now remove the ruler and cut through the incision. The result will be a clean-cut edge, such as a picture dealer makes on mats.

Shortening of the Day.

For a long time it has been known that the tides act as a brake on the rotating earth and that they tend to lengthen the day. The effect is, however, so slight that it cannot be measured in any length of time at man's disposal. It may be estimated, with the aid of certain assumption and upon the data available, MacMillan has made the necessary computation by the formula used by engineers. He finds for the increase of the length of a day one second in 460,000 years.—Harper's Weekly.

Canvassing and Suffrage. If you should happen to meet a handsomely gowned woman carrying that looks like a mop handle in one hand and a lot of tinware in the other do not imagine she is moving. She is merely working for the cause, according to the New York Times.

One of these workers who was encountered by an acquaintance explained the system. In order to get inside the homes she was selling a vacuum washer and while she explained its saving qualities she put in a word for woman suffrage. In the Fifth avenue and West Side homes she talked to laundresses, but on the East Side she saw the women of the house. All of the profits made on the washer are turned over to the organization.

For Roumania's Charity.

Carmen Sylva, the poetess queen of Roumania, is issuing a new series of postage stamps to aid the charities in which she is interested. Unlike most stamps of this kind, the Roumanian queen's issue is good for all mailing purposes. The four designs of the new series will represent (1) the queen of Roumania spinning, the motto on the stamp being "God guide our hand"; (2) the queen weaving, motto "Woman weaves the future of the country"; (3) the queen nursing a wounded soldier, motto "The wounds dressed and the tears wiped away," and (4) an allegorical picture, motto, "But, glory, honor and peace to all that do good." Another set of stamps of similar character, issued in 1907, bore a picture representing the Princess Maria and her children receiving a poor family at the gates of their palace.

Found a Cure for Rheumatism.

"I suffered with rheumatism for two years and could not get my right hand to my mouth for that length of time," writes Lee L. Chapman, Mapleton, Iowa. "I suffered terrible pain so I could not sleep or lie still at night. Five years ago I began using Chamberlain's Liniment and in two months I was well and have not suffered with rheumatism since." For sale by Barker's Drug Store.—Adv.

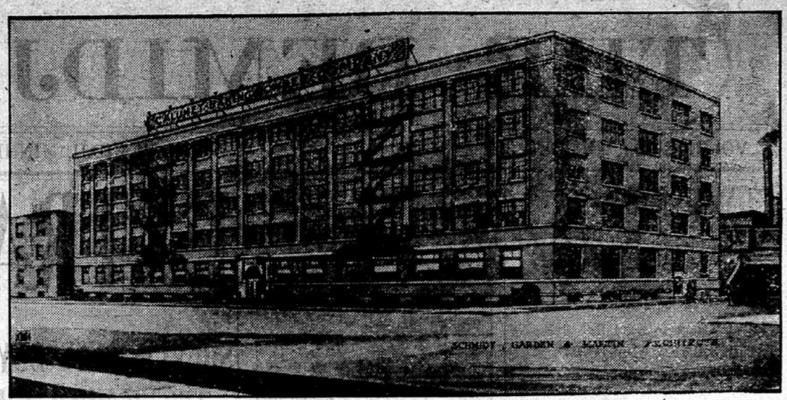

Where the Lemon Came From.

The lemon, which is going to be dear this year on account of a shortage in the crop, has a very clear history. Unknown to the Greeks and Romans, it was introduced into Spain by the Arabs in the twelfth century, and in 1494 was being cultivated in the Azores and shipped in large quantities to England. The lemon tree, of which there are forty-seven varieties, is particularly fertile, a good specimen in Sicily ripening as many as 3,000 lemons during the season.

How Do You Take Your Defeat?

The way one takes his defeat is a pretty good test of his caliber. The strong one uses his failures for stepping stones instead of stumbling blocks. I know a very successful young woman who has made it a rule to use every misfortune that comes to her as a point of departure for something better. She has had losses and misfortunes which would have crushed most people, but they only stiffen her resolution, nerve her up for a new start.

An Immense New Industrial Plant For Chicago

When completed, the new plant of the Calumet Baking Powder Company, now under course of construction, at South 41st Avenue and Fillmore Street, will prove a fitting monument to the ability, honesty and progressiveness which have rendered possible the tremendous growth of one of Chicago's most prominent industrial institutions. This immense plant, the estimated cost of which is \$250,000, is a strictly modern five story and a basement, fire proof, reinforced concrete building. Size, 280 ft. x 100 ft. One of the novel and interesting features of this, the largest and most efficiently equipped Baking Powder plant in existence will be a cantilever shipping platform projecting over to a switch track on a level with the second floor.

Ten-Center.

A man with a thirst for information as well as his other thirst which was equally habitual, entered the bar of a downtown hotel and started a conversation with the prescription clerk.

"When a man orders a drink," said the customer, ordering a drink and pouring it high, "do you ask him whether he wants 10 or 15 cent goods?"

"Never," replied the pharmacist. "Why don't you?"

"Well, we size a customer up. We give him the sort that he appears to be used to having. And we seldom miss a guess."

"That's very interesting. Well, I must be going. What do I owe you?"

"Ten cents."—Cleveland Plain Dealer.

His Request.

"So you have determined to sue me for breach of promise?"

"Yes."

"With damages?"

"Of course."

"Well, say, I've got just one favor to ask you. Don't sue me for less than \$100,000. I haven't got a dollar in the world that I can call my own and it might help my credit."

Cough Medicine for Children.

Too much care cannot be used in selecting a cough medicine for children. It should be pleasant to take, contain no harmful substance and be most effective. Chamberlain's Cough Remedy meets these requirements and is a favorite with the mothers of young children everywhere. For sale by Barker's Drug Store.—Adv.

Good Sleeper.

Their political dispute, according to the account in the Kansas City Star, had not been confined to words, and at last one of the antagonists, with great dignity, said to the other: "Sir, you have called me a crook and a fool, you have broken my spectacles, you have punched me twice. I hope you will not rouse the sleeping lion in my breast, for if you should, I cannot tell what may be the consequences."

HOW'S THIS?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

Take Hall's Family Pills for constipation.

NOW IS THE TIME to plan your Business course for next fall.

Be business like about it and make your arrangements early. The big point for you to decide is "What School shall I attend?"—what school will give me the best returns for the money—is it reliable—what kind of a man is back of it—is he reliable—what do the best business men of his community think of him—is the school well equipped—is it up-to-date—does it get results—is it dependable. These are the questions you should ask and get straight from the shoulder answer to them. Your choice will then be the

Large advertisement listing various merchants and their services, including Northern Grocery Company, Tom Smart, Furniture, Barker's Drug, and others.

Head Off the Flies.

Do you know what a lot of those tombstones in our beautiful cemeteries are?

Fly specks! That is what they are. They were made by flies—house flies and stable flies. They can not be wiped out with a damp cloth. They are there to stay.

There were something like 100,000 of them erected last year. Every single one of them—no matter what the carving might say—was set up as a monument to the greatness of the fly—and in less degree to the carelessness of the people.

We raise an awful row when there are lax quarantine laws against smallpox or cholera or bubonic plague.

The health departments are doing very well considering what they have to deal with. But the fly—the dirty, deadly fly that kills its thousands every year—what do we do about that?

Maybe you smile every time you see the phrase, "Swat the fly!" You call the people who are going after the pestiferous insect cranks, and you let it go at that. And all the time the flies are spreading filth and diseases over your homes, they are killing your babies and infecting you yourself with deadly diseases.

Is it not about time you faced the real situation? The house fly is more deadly than any wild animal.

This is not a theory. It is a fact. We are going to try to eliminate the fly from the face of the earth. And we are starting our eliminating process when there are few flies. We want to head them off this season. And you have got to help if you want to save your baby and your home from the danger of disease which the fly brings.

This is a personal campaign—a personal matter with every person
