 BRANCHES IN ALL THE PRINCIPAL CITIES
 Right on top of the suggestion that Bemidji be provided with a "white way," comes the proposal that an automobile truck apparatus be provided to replace the fire team.
 What is bothering a lot of our citizens the most just now is whether the same police force will be on the job after March first, and if not, who the new cops will be.
 With no candidate in the field against him, and the possibility that the Socialists will not secure another in place of Thomas Bell, who has refused to run, Alderman Tom Smart should worry.
 The program for the joint convention of the Northwestern and North Central Educational associations, which is to be held in Bemidji next week, has been announced, and comprises features which will cause hundreds of northern Minnesota instructors to visit this city.
 Plans for the "Boys Congress" have been formed, and the kids will have entire control of the two day session. Many boys of all northern Minnesota, as well as those of Bemidji are showing much interest in the affair, and it will bring several hundred lads of between 14 and 20 years in age to this city.
 The Brainerd Despatch says, "The Bemidji Pioneer is authority for the statement that Frank S. Lyeon is liable to be the senatorial candidate from that district. There is no better 'timber' in the northern part of the state for the position as Mr. Lyeon is one of the Beltrami county men who accomplish things, just the kind of men this northern section needs in the state legislature."
 On February 19 and 20, the members of the Minnesota Editorial association will meet at the Radisson hotel in Minneapolis for the forty-eighth annual meeting of the organization. Such men as former president William H. Taft, President Vincent of the University of Minnesota; Allen D. Albert, associate publisher of the Minneapolis Tribune, and E. L. Clifford, advertising manager of the Minneapolis Journal, are on the program, to say nothing of cream of the talent from the ranks of the association.
 Ever since he broke into baseball Charles W. Murphy has been a funder of trouble. Many have been the enemies of the president of the Chicago National league club. But it remained for Frank L. Chance, pilot of four of the pennant winning Cub teams, to make a deadly and direct accusation against Murphy. Chance declares that Murphy more than any other man in baseball stands responsible for the Federal invasion. There are some who say that baseball would be better without C. W. M.

 There is a good deal of talk about the high cost of living and yet this cost could be easily reduced in the average if the people were deatrous when we look at the enormous amounts annually spent for things most of which come under the head of luxuries. For instance, the American people spend two hundred

ALFALFA PROVERBS
 By Charles M. Carroll.
 Alfalfa enriches the ground.
 Alfalfa is a drought resister.
 Alfalfa is the best soil doctor.
 Alfalfa adds humus to the soil.
 Alfalfa increases the milk flow.
 Alfalfa is high in feeding value.
 Alfalfa balances the corn ration.
 Grow your protein—don't buy it.
 Alfalfa sod grows larger corn crops.
 Alfalfa is the greatest of all sub-soilers.
 Alfalfa has no equal as a hog pasture.
 Alfalfa keeps stock in good condition.
 Alfalfa should be grown on every farm.
 An alfalfa field is a hog's idea of heaven.
 Fox tail is the greatest enemy of alfalfa.
 Growing alfalfa is good business farming.
 Alfalfa means more money and better homes.
 Raise what you feed and feed what you raise.
 Alfalfa does things and never loaf on the job.
 Alfalfa with a fair chance always makes good.
 Alfalfa fills the hay mow and pays for the privilege.
 Alfalfa is the cheapest and best feed for beef cattle.
 Alfalfa insures larger yields from the crops that follow.
 Alfalfa contains more protein per ton than clover or corn.
 Alfalfa yields from two to three times as much as clover or timothy, and is more valuable hay.
 million dollars for candy, five hundred million dollars for automobile, eight hundred million dollars for jewelry, one billion and two hundred million dollars for liquor. The last item alone exceeds the amount we spend for bread, meat and clothing. A little curtailing in these luxuries would soon make up for the extra cost of living, although there seems to be no disposition in that direction. —Fairmont Independent.
 Antiquity of Spectacles.
 The ordinary magnifying spectacles with convex lenses came into use some time near the end of the thirteenth century. Their invention is generally attributed to two Italians, Arnaldi and Spina. As a matter of fact at this time old people in Germany were wearing glasses. According to G. H. Oliver, writing in the British Medical Journal, the first use of concave lenses was of much later date, probably not until the middle of the sixteenth century. It appears that at first the doctors were down on glasses because they interfered with the sale of lotions for weak eyes. Their first mention by a doctor is credited to Bernard Gordon, professor in Montpellier, who informed the world that they were unnecessary, thanks to his wonderful lotions. In these early days their use was limited for many reasons. They were clumsy and ill shaped, making the wearer conspicuous and subjecting him to ridicule oftentimes of far from gentle type. And above all they were very expensive.
 What Cures Eczema?
 We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our own public. After careful investigation we have found that a simple wash in D. D. D. Prescription, can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it. —and although there are many so-called Eczema remedies sold, we ourselves hesitatingly recommend D. D. D. Prescription.
 Drop into our store today, just to talk over the merits of this wonderful Prescription.
 Barker's Drug Store 217 3rd St Bemidji Minn.

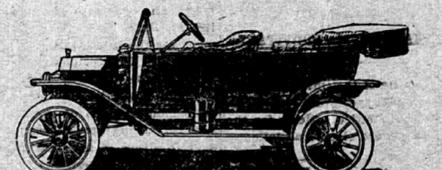

The Cheerful Life
 It is the right of everyone to live and enjoy the cheerful life. We owe it to ourselves and those who live with us to live the cheerful life. We cannot do so if all health takes hold of us.
 The wife, mother and daughter suffering from hot flashes, nervousness, headache, backache, dragging-down feeling, or any other weakness due to disorder or irregularity of the delicate female organs—is not only a burden to herself, but to her loved ones.
 There is a remedy. Forty years experience has proven unmistakably that

 Ginseng in China.
 Much of the American ginseng sent to China brings small prices because it shows cultivation, being smooth, round and light in color. What is wanted is the wild looking root. The central theory of the use of ginseng decoction is that it combines in itself the virtues of nature—wind, water, woods, the elements and wild nature generally; hence the gnarled, twisted wild root is the ideal, and any domesticated or cultivated variety is merely a substitute. This substitute ought to be as near like the wild as possible. If the root grows in the shape of or seems to bear some resemblance, even by severe stretch of the imagination, to some animal it has increased virtue in the trade. For this and similar reasons it is necessary that the small head of the root joined to the rest of the root by a small neck shall remain a part of the product. Breaking off such little heads reduces the value of the root in the Chinese market by fully half, as a rule. —Chicago News.
 South Africa's Feathers.
 Next to gold and diamonds feather raising is the most profitable of South Africa's industries. The ostrich yields between \$2,000,000 and \$3,000,000 per annum to the subcontinent. There are some 500,000 birds in South Africa, and they yield an average of from \$4 to \$5 worth of feathers per head per annum.
 Steed on Her Rights.
 Coroner—You say you told the servant to get out of the house the minute you found it was on fire and she refused to go? Mrs. Burns—Yes. She said she must have a month's notice before she would think of leaving. —National Food Magazine.
NOSE AND HEAD STOPPED UP FROM GOLD OR CATARRH, OPEN AT ONCE
 My Cleaning, Healing Balm Instantly Clears Nose, Head and Throat—Stops Nasty Catarrhal Discharges. Dull Headache Goes.
 Try "Ely's Cream Balm."
 Get a small bottle anyway, just to try it—Apply a little in the nostrils and instantly your clogged nose and stopped up air passages of the head will open; you will breathe freely; dullness and headache disappear. By morning! the catarrh, cold-in-head or catarrhal sore throat will be gone.
 End such misery now! Get the small bottle of "Ely's Cream Balm" at any drug store. This sweet, fragrant balm dissolves by the heat of the nostrils; penetrates and heals the inflamed, swollen membrane which lines the nose, head and throat; clears the air passages; stops nasty discharges and a feeling of cleansing, soothing relief comes immediately.
 Don't lay awake to-night struggling for breath, with head stuffed; nostrils closed, hawking and blowing. Catarrh or a cold, with its running nose, foul mucous droppings into the throat, and raw dryness is distressing but truly needless.
 Put your faith—just once—in "Ely's Cream Balm" and your cold or catarrh will surely disappear.

A WARNING!
 If you are in the market for a car of this price. Remember the CADILLAC went in to foreign countries and competed in the greatest technical test ever given motor cars. No restrictions as to price, in fact some cars ranged as high as \$7000.00; yet the American car, selling at \$1975, won first honors for itself, giving to it a distinction by which it has become known.
