THIS PAPER REPRESENTS FOREIGN ADVERTISING BY THE AMERICAN PRESS ASSOCIATION

Now that we have cleared away the Socialist holders of the city offices, it should be remembered that there is to be a fall election for county "jobs."

State Treasurer Walter J. Smith is to have opposition, R. L. Johnson of Austin having filed. Mr. Smith has served two terms and has made a very efficient official. He will be reelected.

As yet we have no candidate for state senator. Several likely men have been mentioned but none seem to be willing to make the race. In the meantime northern Beltrami county and Koochiching politicians are becoming anxious and may select a man.

Charles Murphy has sold his 53 per cent of the stock of the Chicago Cubs, and says that he is forever through with professional baseball. Murphy has been nothing but a source of trouble in major league ball for years and his absence will be welcomed by many who are prominent in governing the national pastime.

One of the most successful meetings of the State Editorial association ever held took place last week in Minneapolis at the Radisson hotel. More interest than usual was shown and much good is expected from the convention. H. C. Hotelling of the Mapleton Enterprise was elected president in accordance with the tradition of advancing the first vice-president. J. C. Morrison of the Morris Tribune was chosen first vice-president. Harry W. Wheelock of Wheelock's Weekly, second and Farley N. Dare of the Walker Pilot third vice-president. None of these officers developed any contest in the election. Herman Roe of Northfield likewise was chosen for another term as secretary and David Ramaley, of St. Paul, was re-elected treasurer with little opposition.

The election of the executive committee resulted in the choice of Frank J. Meyst, Minneapolis, E. K. Whiting, Owatonna, and N. H. Ingersoll, of Brainerd. The constitution was amended to bring the annual convention on Friday and Saturday instead of Thursday and Friday as heretofore. This change was made for the convenience of the editors of weeklies, who usually make up their papers on Thursday. In accordance with the constitutional provision that the convention shall alternate between the Twin Cities, St. Paul gets the next convention.

Alva G. Swindlehurst took hold of his duties as receiver at the Cass Lake Land Office last week. Mr. Swindlehurst is one of the absolutely fair broadminded democrats whom even the republicans are glad to see fair well at the hands of his party. Especially do the people of this county wish him well. For nearly twenty years he has been engaged in newspaper work at Wadena, where he grew to manhood, and during all this time he has worked for the best interests of the county as a whole and has never slighted any district or person.—Menagho Journal.

The state hotel inspector is going to visit Kelliher, now that the hostelry has burned down and half a dozen lives lost. The Kelliher hotel has been built about three years and in that time no inspector has entered its doors. The reason given is that it is impossible to visit the four or five thousand hotels in the state within three years, yet we notice that the number of general stores exceed the number of hotels, several times over—and every one of them has been visited. But it is nothing new that the length of a yard stick or the adjustment of the sugar scales should be of more importance than the safety of human lives.—Walker Pilot.

Practical Fashion Hints

A feature of this little dress (6433) which makes it especially suited to wash materials is the opening at the top of the sleeve and underarm. The dress may be opened and laid flat on the ironing board. As illustrated it is developed in white linen and embroidered with an attractive raised design; the edge of the neck is scalloped and these scallops may be continued down the shoulder and underarm's closing.

If preferred the underarm seam may be closed and the shoulder seam only left open. Linen, madras, crepe, or gingham may all be used to advantage with this design. For a child of eight this pattern requires 2 1/2 yards of 36 inch material. The pattern is cut in 5 sizes; 2, 4, 6, 8 and 10 years.

This Is a Perfect Pattern. Be sure to state right size, passing the tape around the fullest part of the breast well up under the arms. It may be obtained by filling out the coupon and enclosing 15 cents in stamps or coin to the Pattern Department of this paper.

The Chain of Lakes. North Missouri's famous hunting ground, known as the Chain of Lakes, having resisted all attempts to drain and cultivate, has been allowed to return to its natural state. The Chain of Lakes is wilderness surrounded by rich farming land, towns and good country roads. This section was the original happy hunting ground for the Indians of the west. On the banks of the Chariton river, at the edge of the lake territory, they pitched their wigwams, built a stone fort or dam and put up an ingenious fish trap, for there were no game wardens in those days. That trap, repaired and strengthened from time to time, was inherited by white men who followed the Indians and operated half a century. Then the game wardens, attracted by the ancient fish trap's fame, went over to the river and blew it up with dynamite—Argonaut.

European Monkeys. One of the rarest of living creatures is undoubtedly a European monkey. The only place on the continent where these animals may be found is on the rock of Gibraltar. They are of the variety known as Barbary apes and are about the size of a terrier dog. A most noticeable feature is that they do not

GLASS OF SALTS CLEANS KIDNEYS

If your Back is aching or Bladdered bothers, drink lots of water and eat less meat

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys. Keep your kidneys clean. Like you and irritate the entire urinary tract. Keep your bowels clean, by flushing them with a mild, harmless saline which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from 4,500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active. Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous saline is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

possess tails. Only about twenty of the apes exist, and only by incessant protection and artificial feeding is the species preserved. Many theories are advanced as to how these apes first came to Gibraltar. A popular idea is that a subterranean passage exists between the rock and the adjacent coast of Africa, and that the monkeys passed to and fro, but the more material of fact theory that they were originally imported by some inhabitant is probably correct.—London Answers.

Contentment. The blind Mme. du Defand rejoiced that her affliction was not rheumatism; Spurgeon's recipe for a contented heart was never to chew pills, but to swallow the disagreeable and have done with it. Darwin's comfort was that he had never consciously done anything to gain applause, and Jefferson never ceased affirming his belief in the satisfying power of common daylight, common pleasures and all the common relations of life. Esopoff, when commiserated on the smallness of her hands, insisted that longer ones would be cumbersome. Robert Shaft. Her's specific for a blue Monday is to whistle all the Brahms tunes he can remember. Dr. Cuyler, when very ill, replied to a relative's suggestion of the glorious company waiting him above, "I've got all eternity to visit with those old fellows; I am in no hurry to go," and old Aunt Mandy, when asked why she was so constantly cheerful, replied, "Lor, chile, I jes' wear this world like a loose garment."—Atlantic.

A Model Child. George III. was such a thrifty king that we cannot doubt that he bugged the little chap, of whom Thackeray tells this delightful story, and longed to knight him on the spot. One day, when the king and queen were walking together, probably at Kew, they met a little boy—they were always fond of children, the good folks—and patted the little towhead. "Those little boys are you?" asked the king. "I am the king's beef eater's little boy," replied the child. On which the king said, "Then kneel down and kiss the queen's hand." But the innocent offspring of the beef eater declined this treat. "No," said he; "I won't kneel, for if I do I shall spoil my new breeches."—Youth's Companion.

BE MIDJI DRUGGIST HAS VALUABLE AGENCY. E. N. French, Bemidji, Minnesota. Agency for the simple mixture of buckthorn bark, glycerine, etc., known as Adler-I-ka, the remedy which became famous by curing appendicitis. This simple remedy has powerful action and drains such surprising amounts of old matter from the body that JUST ONE DOSE relieves sour stomach, gas on the stomach and constipation almost IMMEDIATELY. THE QUICK action of Adler-I-ka is astonishing.

HAVE DARK HAIR AND LOOK YOUNG

Don't Stay Gray! Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea and Sulphur.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or straggled appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a sponge or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.

On which the king said, "Then kneel down and kiss the queen's hand." But the innocent offspring of the beef eater declined this treat. "No," said he; "I won't kneel, for if I do I shall spoil my new breeches."—Youth's Companion.

FOR RENT—6 Room house 700 America ave. Apply 509 Minnesota avenue.

FOR RENT—Small house centrally located. Inquire Geo. T. Elletson, post office.

Subscribe for the Pioneer. It is a curious fact in psychology that nobody can stay at the same mental and physical level for twenty-four hours together. In the morning you are more matter of fact, for instance, than later in the day. It is in the morning that the best brainwork is done, too—brainwork of the sort that requires industry and clear thinking. And it is about 12 in the morning that your body reaches its highest point of energy. In other words, you are stronger, though almost imperceptibly, at 11 in the morning than at 8 in the afternoon. You reach that highest point twice in the day, for about 5 in the afternoon the muscular energy has risen again. But from 5 onward it declines steadily all through the evening and on till between 2 and 3 a. m.—New York Press.
