NEW YORK AND CHICAGO

BRANCHES IN ALL THE PRINCIPAL CITIES

Today is Friday the thirteenth and the second candidate for the state senate from this district is announced. Who'll be the next.

Bemidji now has two men who want to become senators and one who wants to become a member of the House. A few weeks ago it was hard to find a single man who would consider making the run, and yet we agreed that the office should seek the man.

## A Potent Movement

Minnesota is so fair a land that already more than half the household goods shipped over a certain trunk line to the Northwest stop within this state. If her merit were known, she would settle more rapidly and more profitably than any other state of the Union.

How well it is, then, that several hundred of her leading men should organize themselves into an association to make that merit known! The Minnesota Farm Lands association, we venture to think, is the beginning of one of the most potent movements in the life of the state. It is the beginning of co-operation, of superiority to sectional jealousy, of an understanding of the state's rare blessings.

Something of co-operation had already been achieved, under the lead of the immigration bureau a movement has been under way to correlate the advertising done by commercial clubs, railroads and improvement associations. This start was important and valuable. The new Farm Lands association will not disregard it. The aim of the leaders is to provide means and influence to expand it.

In that year when all Minnesota pulls together for her common welfare new farms will be cleared, new villages will spring up, new industries will be established, as though by magic. These land men have the vision to see where business advantage really lies. They may not attain to everything they desire. But they have shown the way and it is our judgment they will find the people of Minnesota ready to walk in it.—Tribune., Minneapolis.

## \*\*\*\*\* EDITORIAL EXPLOSIONS \*\*\*\*\*

That Minnesota is forging ahead, more rapidly than any state in the Union is shown by actual government figures on value of farm crops. Last year the value of our crops was exceeded by only five states. Only four years ago Minnesota ranked tenth in the value of its crops.—Norman County Index.

A conference will be held at Hinckley March 14, to elect delegates to the conference to be held at Minneapolis March 19 by those members of the Republican party who are opposed to Gov. Eberhart and select a candidate. In the old days this would be called a county convention. Now it is a "conference."—Hinckley Enterprise.

Elimination is prominently before the public at this time. The "outs" are strong for the elimination conference called by a number who are opposed to Gov. Eberhart. They don't want him for governor, and desire the people to rally to their call to select some one else, but as the people have the last shot at the primary and general elections, it looks as if a comparatively few of the politicians who are pushing themselves into publicity, would likely be disappointed. Just because a man says he wants a job no particular reason why he will be favored. The statement is made by the authors of the call for the elimination conference that the prairies are afire with enthusiasm over this question. Thus

far we have felt no heat or have we noticed any smoke.—Stillwater Gazette.

## Practical Fashion Hints

By Alice Gibson

7668

Poplins are very strong for dress purposes this season and come in many of the most pleasing and newest colors. One shade that is very popular, is mahogany; it combines well with several darker shades and is generally becoming.

No. 7668 is an afternoon dress that would make up well in silk poplin. If intended for dressy use, the chemise, collar and cuffs would be attractive of lace over chiffon, or of a figured silk crepe. An unusually effective crepe for this purpose has a raised design, giving the effect of wool embroidery; it is rich and will do much to make a plain little dress attractive.

This design requires for size 36 5/4 yards of 36 inch material. Poplin is wide and may be purchased from 75 cents a yard and up.

The pattern is cut in 5 sizes; 34 to 42.

## This Is a Perfect Pattern.

Be sure to give right size, measuring over the fullest part of the bust for

dimensions. It may be obtained by filling out the coupon and enclosing 15 cents in stamps or coin, to the Pattern Department of this paper.

What Makes the Difference.

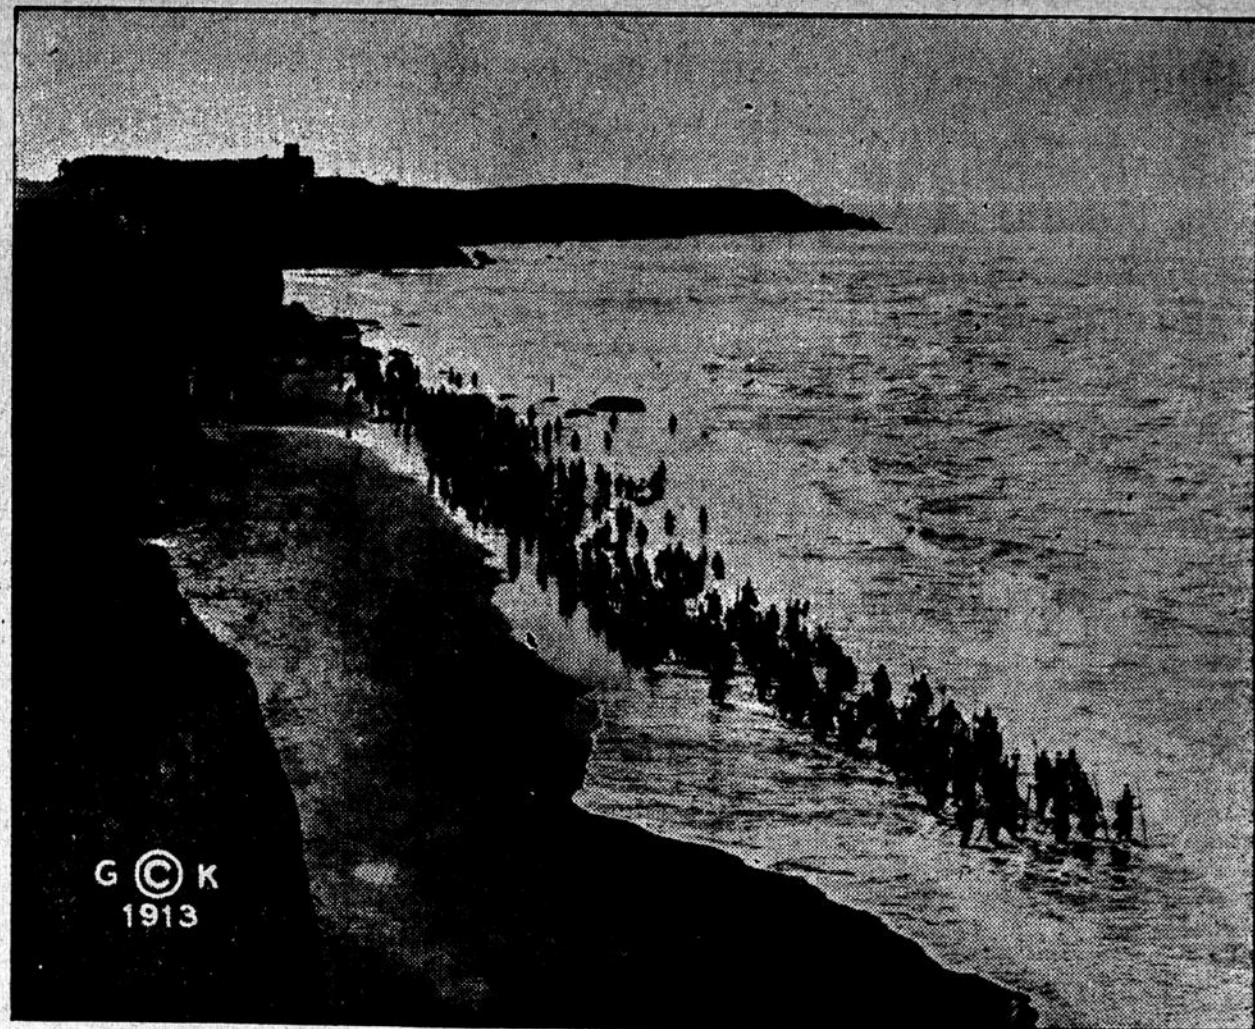

Willie—Paw, what is an imperial? Paw—An imperial is a gontee on the chin of a great man, my son.—Cincinnati Enquirer.

## Freckle-Face

Now is the Time to Get Rid of These Ugly Spots

Do you know how easy it is to remove those ugly spots so that no one will call you freckle-face

Simply get an ounce of othine, double strength, from your druggist, and a few applications should show you how easy it is to rid yourself of freckles and get a beautiful complexion. The sun and winds of February and March have a strong tendency to bring out freckles, and as a result more othine is sold in these months. Be sure to ask for the double strength othine, as this is sold under guarantee of money back if it fails to remove the freckles.—Adv.
