Subscription Rates: One month by carrier \$4.00; One year by carrier \$40.00; Three months, postage paid \$1.00; Six months, postage paid \$2.00; One year, postage paid \$4.00.

AMERICAN RESS ASSOCIATION GENERAL OFFICES NEW YORK AND CHICAGO BRANCHES IN ALL THE PRINCIPAL CITIES

L. G. Pendergast, of this city, is the first man from the new legislative district to file for representative.

B. C. Kiley, editor of the Grand Rapids Herald-Review, who has just been named postmaster by President Wilson, is receiving many flattering newspaper comments from the state press.

Charles Scheers, president of the Northern Minnesota Editorial Assoc., will probably enter the race for state senator from Hubbard and Becker counties.

Familiarity Breeds Contempt. Kitchen utensils are such common things that sometimes we are prone to think but little of the money which is spent in a year for these every-day necessities.

Page 667, of catalog 82 of a Chicago mail order house is devoted almost entirely to "Wire Goods," and here we find a curious state of affairs, because when we come to compare the catalog prices with those charged by regular retail merchants in the home town, we see that taken as a whole, the mail order price—the figure obtained by adding the prices on all the separate items—is at least 25 cents higher than it should be according to the prices asked by the home town dealer.

Judge Charles W. Stanton for governor—that's the right ticket. Every democratic Democrat would gladly stand by Stanton. He is one of the noblest men of Minnesota and would make a winning campaign.—Albert Lea Standard.

Neither the Republican nor Democratic party likes the nonpartisan primary. Each is preparing in its own way, and with due respect to the "spirit of the law," to nullify it as far as possible. The people, however, are eager to see the law tried.—Wheelock's Weekly.

Walt Smith and his smile will go through the primaries and election and win in a walk. When the range does send men down to St. Paul, they are of the class that win. Walt just happens to be of the breed that can't help making friends. And he can have that old office of state treasurer as long as he can keep smiling.—Blwabik Times.

To "break in" a new pen point quickly dip it in ink and hold it in the flame of a lighted match for a second. Wipe and dry with a cloth and then it will hold ink as well as one much older.

An Incentive. Mrs. Crawford—I thought you said you weren't going to the sewing circle? Mrs. Crabshaw—But, my dear, I didn't know then about the things you have told me.—Judge.

Practical Fashion Hints

Artistic Inexpensive Curtains and How to Make Them.

The curtains next the window may be of plain net, embroidered handkerchief linen, scrim or the sheers of batiste. These may be hung flat against the window or straight at the sides, but it is not now considered correct to loop them back.

This is a Perfect Pattern. Transfer 14188 can be supplied to readers on receipt of price, 15 cents. Fill out the coupon and enclose stamps or coin to the Pattern Department of this paper.

COUPON form with fields for Name, Street and No., City and State, Pattern No., and Sizes.

CITY PLANNING FOR 1914.

In the United States the year 1914 should witness a notable advance for city planning in three distinct directions. First—A great many more cities and towns should receive the benefit of it. This will be city planning's quantitative advance, due in large part to such sweeping legislation of the last few months as the 1913 act of Massachusetts, which requires every city or town of the Commonwealth, if containing a population of 10,000 or more, to create a planning board; as the Pennsylvania act of 1913 creating a department of city planning in the twenty-three third class cities of that state and as the 1913 act of New York authorizing every city and village of the latter state to create a planning commission.

Second—There should be a qualitative advance commensurate with the quantitative. This will reflect the growth of knowledge and experience and the inspiration and enlarged opportunities. The gains here should be registered especially in emphasis upon the social service aspect of city planning—on what city planning can do, not so much for the appearance of the town as for bettering the living and working conditions of all classes of people in all kinds of towns.

Third—There should be an advance in the scientific study of city planning principles. This should be evidenced in an inauguration of new courses and in an enlargement of the existing courses of city planning instruction in the universities. Such advance will naturally result from the foregoing demands.—Charles M. Robinson in Survey.

SOME NEW CITY MANAGERS.

Several Towns and Cities Have Recently Adopted This Project. The city manager plan of governing a city has been in operation now just

Chronic Stomach Trouble Cured. There is nothing more discouraging than a chronic disorder of the stomach. It is not surprising that many suffer for years with such an ailment when a permanent cure is within their reach and may be had for a trifle? "About one year ago," says P. H. Beck, of Wakeles, Mich. "I bought a package of Chamberlain's Tablets, and since using them, I have felt perfectly well. I had previously used any number of different medicines, but none of them were of any lasting benefit." For sale by all dealers.—Adv.

CATARRH OF THE THROAT

Is Liable to Produce Catarrhal Deafness

CLARENCE BOWMAN.

A Case of Catarrhal Deafness.

Mrs. Wm. Bowman, R. F. D. 1, Coon Rapids, Iowa, writes: "Some time ago I wrote you about my little boy, Clarence, five years of age. He was troubled with his ears. They were very sensitive to the touch, and he was quite deaf at times. He seemed to be worse after catching cold. I had taken him to doctors, but they did not seem to be able to relieve him, and I was very much afraid he would lose his hearing entirely. He was getting more deaf every day."

Catarrh Causes Many Diseases. Many diseases are caused by taking cold. A cold is very likely to settle in the nose, causing nasal catarrh. It may settle in the upper part of the throat, called the nasal pharyngeal space. In this space are two little tubes called eustachian tubes, that lead to the middle ear.

about a year, and the experiment is being watched with interest by municipal experts all over the land. The following towns recently revised their charters to provide for administration of Cincinnati under the Hunt administration. He began his administration on the 1st of this year.

The city of Titusville, Pa., which has become, under the Clarke act, commission government, has created by ordinance the office of city manager, and appointed to fill it H. A. Holstein, city engineer.

HENRY M. WAITE, CITY MANAGER OF DAYTON, O.

tration under the city manager form: Terrell, Tex.; Amarillo, Tex.; Cadillac, Mich.; Manistee, Mich. Dayton, O., has installed as its first city manager Henry M. Waite, chief

Chamberlain's Tablets for Constipation. For constipation, Chamberlain's Tablets are excellent. Easy to take, mild and gentle in effect. Give them a trial. For sale by all dealers.—Adv.

that loss of hearing is apt to be overlooked. A person may lose half his hearing before he knows it. For instance, suppose a man can hear his watch four feet from the ear. If he loses his hearing to the extent that he can only hear the tick of his watch two feet from the ear he may not suspect it at all. His hearing is good enough for ordinary purposes. He goes on without the slightest suspicion that he is losing his hearing. He may have ringing in the ear, or cracking and snapping sounds in the ear, or a feeling of pressure in the ear, or he is not aware that he is losing his hearing.

Testing the Hearing. It is a good thing to test your hearing with a watch. First hold the watch against your ear, then move it gradually away from the ear and see how far away from the watch you can actually hear it tick. Try it on the other side of the head if both ears are alike. If you find that you are unable to hear the watch on both sides alike and at a distance of four feet from the ear, you may know that deafness has already begun. You should begin taking Peruna at once. Gargle the throat with cold, strong salt water, as directed in the "Illa of Life" sent free by Peruna Co., Columbus, Ohio. Persist in this treatment until a cure is effected.

The Best Way to Gargle. Sometimes catarrh of the nasal pharyngeal space will cause an accumulation of secretions in the throat, that completely all the space. Unless these secretions are promptly removed by frequent gargling polyoid may be formed. Once formed the polyoid or adenoids, as they are sometimes called, will require a long time with the gargling to remove. Gargling according to the proper method will sometimes remove polyoid or adenoids, and no surgical operation is required.

In order to understand exactly what is meant by proper gargling send for a free copy of the "Illa of Life." During the whole course of gargling Peruna must be taken according to directions on the bottle.

People who object to liquid medicines can now obtain Peruna Tablets, engineer of Cincinnati under the Hunt administration. He began his administration on the 1st of this year. The city commissioners of Springfield, O., on Dec. 27, elected as city manager Charles E. Ashburner, who had been city manager of Lynchburg, Va.

The Richest Country. The "richest country in the world" is this one of ours—the United States of America. There is no other country that can hold a candle to this. France is rich, Great Britain is rich, but the United States is richer than France and Great Britain combined. We have many billions to spare.—New York American.

Are you satisfied to go along the same old way—the same old wages? Wouldn't you rather be in a position at better pay? It's up to you. You can if you take your business course in the

Little Falls BUSINESS COLLEGE. IT'S THE SCHOOL FOR YOU. Write today or telephone for particulars at our expense.

Studying the Kindergarten. The kindergarten—its place in the educational system, its social value to the community and its future development—is the subject of special study by a newly organized division of the United States bureau of education. The new division, which is made possible by a co-operative arrangement between the National Kindergarten association and the government, is directed by Besse Locke, secretary of the association, with headquarters in New York.
