## At The Brinkman Tonight

THE HARRY ST. CLAIR STOCK COMPANY PRESENT  
THE ROLLING COMEDY DRAMA IN THREE ACTS

## BEHIND THE SCENES

A play entirely different from anything yet presented to by the stock company. The second act depicts life behind the scenes using the entire company. It shows the trials of a manager who has had a bad season and as a last resort gives a benefit performance and on the opening night, his leading lady refuses to go on, unless all back salaries are paid. As he is unable to pay her, he is in despair and about to close the house, when one of his ballet girls comes to his rescue, and proves to be the hit of the night and puts him on the road to fame and fortune. A specially selected chorus of popular young ladies give a very interesting musical number and Miss Connie Hallet late of London England will be seen in a very charming musical number, as also will Ivan Hamby who supports her in the comedy. On Friday night a handsome silk dress length will be given away and a special Saturday afternoon matinee will be given on which occasion, as a special feature, pictures of the present War with Mexico will be shown.

## I TOOK PE-RU-NA

Was Able to Sleep and Eat Again

Mrs. Mueller says: "I keep Peru-na in the house constantly. When I am not feeling well I take a few doses. It always restores."

Mrs. Mueller's story of her experience with Peru-na fully explains why she always keeps Peru-na on hand.

A few years ago P. O. Box 321, Hawley, Minn. she was very sick. The trouble seemed to be the stomach and liver. She suffered great pain. Was unable to get anything to help her. She was growing weaker and weaker. She became tired of life.

Somebody suggested that she write to the Peru-na Co. She did so. Through their advice she began to use Peru-na. In a letter from her at this time she says: "Through the use of Peru-na I have regained my health. I took only a bottle and a half when I was able to sleep and eat again and my nervousness disappeared."

No wonder Mrs. Mueller keeps Peru-na in the house. Under similar circumstances Peru-na would be in every house in the land.

Any one taking Peru-na ought to have a free copy of the "His of Life." Address Peru-na Co., Columbus, Ohio.

People who object to liquid medicines can now obtain Peru-na Tablets.

on the first voyage of the season by the City of Bemidji.

A big can of excellent metal polish can be had for 25c a can at Roe and Markusen's grocery. Ask for Parrot Metal polish when you order your groceries from them. Phone 207 or 206.—Adv.

Mr. Moller is a candidate for the seat of Commissioner Myhre on the board of county commissioners, who does not desire re-election from the third district, and says that the possibilities for his winning at the primaries appear bright.

A man wanted to send some money to his old mother in Ireland. He wasn't sure the drafts from the Northern National Bank could reach out into the little town so far away. But she got the money promptly and without any red tape.—Adv.

Peter Daily, of West of town, arrived home Monday afternoon from Wisconsin, where he attended several sales of Holstein cattle. While there he bought two calves and they cost him about \$100.00. One of the calves was three months old and the other one two years old. The animals, arrived here Saturday afternoon by express. Mr. Daily is a believer in full blooded stock and he already has one of the finest herds of dairy cows in this section of the country.—Todd County Argus, (Long Prairie)

The Roe and Markusen Grocery store are boasting of Parrot Metal polish. It cleans without scratching copper, brass, nickel or aluminum. It is 25 cents a can. Call 206 and a can will be brought to your door.—Adv.

Galveston, Texas, May 1.—Norman Lind of Minneapolis, son of John Lind former governor of Minnesota and unofficial envoy to Mexico since the recall of Ambassador Henry Lane Wilson, was landed as a refugee from the United States battleship Connecticut early today, after he, in company with 570 other refugees, had lain in quarantine in Galveston channel since early Sunday. He was traveling in Mexico, he says, and he had come to Tampico from Vera Cruz, the day after the American marines were arrested. He said he

Health a Factor in Success  
The largest factor contributing to a man's success is undoubtedly health. It has been observed that a man is seldom sick when his bowels are regular—he is never well when they are constipated. For constipation you will find nothing quite so good as Chamberlain's Tablets. They not only move the bowels but improve the appetite and strengthen the digestion. They are sold by all dealers.—Adv.

## AROUND THE WORLD ON A DROP OF OIL

Did you ever stop and think what a wonderful piece of mechanism a good watch like the Bemidji Special is? Take the hairspring for instance. One mile of this wire weighs less than half a pound. The balance wheel makes 18,000 vibrations an hour—57,000,000 a year. It moves 3,558 miles a year on less than one-tenth of a drop of oil.

If a locomotive, having six foot driving wheels, were started at the equator, and should run until its wheels had performed the same number of revolutions that a balance wheel does in one year, it would make more than twenty-eight complete circuits of the earth.

The Bemidji Special is adjusted to every change and condition. Baked in an oven, frozen in a refrigerator, adjusted to position, put through a 700 hour test for accuracy, can you wonder why this wonderful watch is The Standard of this community today.

## FIVE YEAR GUARANTEE

We give a five year guarantee with each Bemidji Special watch—because they give us the least trouble in making good our guarantee. with Mexico will be shown and immediately after the play, the home talent of Bemidji will compete for three prizes given by the company for the best three local artists. On Sunday night, the attraction will be the much talked of play by August J. Evans, "St. Elmo" or the Saving Grace, in which each and every member of the company will appear to best advantage. It is unnecessary to give a description of this beautiful story of human interest, as nearly every one has read the celebrated book of the same title, and so will know that in seeing the St. Clair Stock Company in "St. Elmo" they are sure to witness one of the best productions of this celebrated play to be found in any City today. Prices remain the same, altho' in larger cities it is customary to charge advanced prices for the production of St. Elmo.

## Cure for Stomach Disorders

Disorders of the stomach may be avoided by the use of Chamberlain's Tablets. Many very remarkable cures have been effected by these tablets. Sold by all dealers.—Adv.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from ten drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

## Overland \$950

The Mechanical Construction of This—  
The World's Greatest Motor Car Value—  
Could Not be a Bit Finer

THE Overland motor is the same in principle, design, action and fundamental construction as the motor used in the \$3000, \$4000 and \$5000 cars!

The Overland frame is of open-hearth steel identical with that used in the \$3000, \$4000 and \$5000 cars!

The Overland steering knuckle bolt is of 3 1/2% nickel steel, just the same as those used in the \$3000, \$4000 and \$5000 cars!

The Overland drive pinion is of 3 1/2% nickel steel, the same as used in the \$3000, \$4000 and \$5000 cars!

The Overland live axle, which is the driving shaft of the rear axle, is of Chrome nickel steel, the same as used in the \$3000, \$4000 and \$5000 cars!

The Overland front axle, a one-piece drop-forging, is the same as used in the \$3000, \$4000 and \$5000 cars!

The Overland steering knuckle is the same as that used in the \$3000, \$4000 and \$5000 cars.

The Overland radiator in quality is the same as used in one of the most prominent \$4000 cars!

The Overland fenders, in quality and material are the same as used on the \$3000, \$4000 and \$5000 cars!

We use more aluminum, on larger and more important parts, than any other manufacturer in the world. Where others and often makers of \$5000 cars, use cast iron at 3 cents per pound we use aluminum at 25c per pound!

Each separate Overland test and inspection for quality of material and accuracy of machining is far more thorough than the methods used by manufacturers of \$3000, \$4000 and \$5000 cars!

The significance of these facts should mean much to those who expect to buy a car. A practical demonstration will mean a great deal more.

Telephone the Overland dealer and make your appointment as early as possible.

Here is the proof. The Overland sales in Minnesota in 1913 exceeded those of any other company, except one, that being the Ford, and they are not a competitor of the Overland. The Overland is positively the highest grade car in the world today, selling at anywhere near the price. It has a magneto, where some cars of similar price have substituted.

The Overland could have saved THREE MILLION Five Hundred and Fifty Thousand Dollars if they had sacrificed their magneto. Proof. Manufacturers of the \$3,000, \$4,000 and \$5,000 cars are using same magneto ignition.
