BATTLE IMMINENT IN THE MEDITERRANEAN

Messina, Italy, Aug. 8.—With their decks cleared for action and every gunner at his post the German warship Goeben and cruiser Breslau steamed at full speed out of the harbor here.

It is known the British Mediterranean fleet, which pursued the two warships after they escaped from the French squadron, is cruising off the port and the Germans will have to fight.

They were given the choice by the Italian government of remaining in port until the end of the war or of putting to sea and taking their chances.

That there has at least been a battle is admitted at the admiralty, which says English shipping is now safe, the German warships having been driven to Holland. The fact that German warships have fled to home waters is accepted everywhere as meaning that England's power on the sea is supreme.

BIG ROLLER COASTER BUILT

Thrilling Dips and Dives at Great Minnesota State Fair. Did you ever take a ride on a big roller coaster about half a mile long and find yourself fairly gasping for breath, though thrilled by pleasure, as you make the deep dips and sharp turns? If you have experienced the sensation you know why some persons are so crazy about it that they refuse to get off until they have taken a dozen rides or more.

A gigantic roller coaster has been erected at the Minnesota State Fair grounds this summer that is said to be one of the largest ever built in the Middle West. It will please thousands at the Fair, Sept. 7-12. A cable car, which is so high that a view of all the grounds is afforded. Then the car is suddenly released, and a long deep dip is taken that leaves a great empty space in your stomach. You shoot up a hill, take a sharp turn, another dip, a dozen more ascents, dips, and dives, and back you are again ready for another ride.

Near the coaster a big Carousell, similar to several merry-go-rounds put together, is being built that will prove to be an attraction of considerable importance. It is to be a permanent structure. Going?

The Good Roads Exhibit at the Minnesota State Fair, Sept. 7-12, is designed to compare good and bad methods of road building. Going?
