Lumbering Not Dead.

There is a firmly fixed idea generally prevalent throughout the state of Minnesota that the lumber industry in this state is dead. This is far from true, though it must be acknowledged that the ravens cutting of our once seemingly limitless pine forests has reduced this great industry to a mere shadow of its former self.

Foreign countries have proved, and New York, Massachusetts and Pennsylvania are now proving, that lumbering is not solely a pioneer industry which must die out with advancing civilization. Scientific reforestation of timber lands is now an exact and certain science, and it is high time for Minnesota to give this science a chance to preserve and perpetuate the rapidly decreasing pine forests of the northern portion.

Such a chance will be given the Minnesota forestry service if the voters of Minnesota at the election of Nov. 3 will cast a favorable vote for the Ninth Constitutional Amendment which empowers the state forest service to reforest several hundred thousand acres of non-agricultural land, which the present constitution says must be sold for agricultural purposes.

Value of Enthusiasm.

What a contrast the different sections of the country form to each other in the matter of displaying enthusiasm. For instance, on the day when the Boston National league ball nine clinched its lead in the pennant race, on its home grounds, scarcely a ripple of enthusiasm stirred the small and chilly crowd of fans.

The opposite thing is seen in any concert park where southern people gather. Watch them cheer when the band plays "Dixie!"

If Boston wins the world's series contests, even the reserved New England temperament will boil over, says an exchange. But as a rule, the north and east is slow to express feelings; the west and the south is spontaneous and unreserved.

Too many people, as they acquire, or think they acquire, culture, feel that it is undisciplined to show warm admiration. They think that an air of cold criticism shows more experience of life.

All of which is a mistake. Enthusiasm is one of the great forces of the world. The more freely it is expressed, the more freely people feel like going ahead and doing things.

EDITORIAL EXPLOSIONS

If the next legislature will enact a county option law and at the same time pass an amendment to the constitution allowing the voters of the state an opportunity to vote on state-wide prohibition, the temperance cause will receive the consideration due the subject. Both measures go hand in hand and should receive equal support.—Cambridge Independent Press.

W. S. Hammond, Democratic nominee for governor of Minnesota, is rather mystifying in his "keynote" letter. Mr. Hammond is non-committal on leading questions of the state, and his attitude upon the license issue is a "mystery." A man to be governor of Minnesota should have an opinion and should be strong enough to come out and support that opinion.—Cokato Enterprise.

It beats all how strong Hammond is in distant localities, according to Democratic reports. Now, in Isanti county, Lee is a great deal stronger than he was on June 16, and, we get similar reports from our neighboring counties of Miller, Lac, Kanabes, Pine, Chisago and Anoka. We believe that in the coming election he will carry all the counties he did at the primaries by increased majorities—and some besides. He can't lose.—Cambridge North Star.

What is believed to be the largest armory in the world, having a floor 200 by 600 feet, is being erected in New York for a National guard regiment.

English Red Cross nurses wear male riding costumes.

Scientific Farming

WHEAT AND THE HESSIAN FLY.

Farmers Invited to Co-operate in Destruction of Pest.

(Prepared by the United States department of agriculture.)

"Has your wheat been infested by the Hessian fly this season?" is a question that the United States department of agriculture is now asking farmers. The information is desired that there may be general co-operation between all concerned in reducing the devastations of the fly. There is every indication that the pest will be unusually troublesome to the crop next fall.

Every wheat grower in the country who suspects that his crop has been infested is requested to send his name to the department's bureau of entomology at Washington with a request for a question blank. The question to be answered is merely as to whether the wheat grower's crop was infested at certain seasons. The farmer will then be asked to forward some of the infested wheat plants for examination, postage to be paid by the government. He will also be asked to give his name, address and nearest railway station.

Probably no other insect causes more damage to the wheat crop in the United States than the Hessian fly, although there are certain years when the chinch bug exceeds the fly in its devastations.

A number of years ago there was in Kansas general co-operation between grain dealers, millers and farmers to restrict the ravages of this dangerous insect. According to their own estimate, over a million dollars was saved by prompt action and thorough measures. This year the department hopes to secure general co-operation throughout the country in combating the pest. There are indications that its ravages may be severe. Already in Iowa and Oklahoma there have been threatening outbreaks of the insect.

Not only are federal and state organizations of the government co-operating in this campaign, but others, such as the National Millers' federation, are working to secure better control over the Hessian fly. The individual wheat grower is asked to send his samples of infested straw before the middle of September, and sooner if possible, as after that the fly will have hatched and have entered into

WOMAN ON THE BATTLEFIELD.

What she gives to a nation.

Shall we say that women contribute only the bandages, the nursing, cheering and comforting the wounded? No! They contribute the fighters! What sort of help and inspiration can a woman be who is enfeebled and broken-down by diseases and weaknesses peculiar to her sex. Can she hope to be a capable mother or an efficient wife?

The mighty restorative power of Dr. Pierce's Favorite Prescription speedily causes all womanly troubles to disappear—compels the organs to properly perform their natural functions, corrects displacements, overcomes irregularities, removes pain and misery at certain times and brings back health and strength to nervous, irritable and exhausted women.

It is a wonderful prescription prepared only from nature's roots and herbs with no alcohol to falsely stimulate and no narcotics to wreck the nerves. It banishes pain, headache, backache, low spirits, hot flashes, dragging-down sensation, worry and sleeplessness surely and without loss of time.

Why should any woman continue to worry, to lead a miserable existence, when certain help is at hand? What Dr. Pierce's Favorite Prescription has done for thousands it will do for you. It is not a secret remedy for its ingredients are printed on wrapper. Get it this very day at any medicine dealers in either liquid or tablet form. In the meantime address Doctor Pierce, Invalid's Hotel, Buffalo, N. Y., and simply write "Dear Doctor." Please send me without charge further information," and you will receive the advice of a Physician Specialist absolutely free; 126 page book on women's diseases sent free.

LARGE ATTENDANCE
AT LECTURES AT
THE CITY HALL

First Lecture Well Attended

Butterfly baking is what you become accomplished in when you secure the help and information imparted by Mrs. Sloan, at the free baking school—baking that is light and airy as the crest of the wave—sparkling in crispness—delicious in flavor—every mouthful nourishing. Such baking, such delight is attainable every time. If you secure the helpful suggestion given by these experts and use K. C. Baking Powder, as they suggest and all around excellence are sure to command themselves to your favor. Don't pass lightly the recommendations of your friends who are saying such nice things about K. C.—but do as they did—get a 25c can and try it—bring the certificate found therein to the baking school and get your "Cook's Book." You will say as they do: "I was surprised and so pleased that I tried K. C." There are no words of praise adequate to express all the pleasure it use elicits. Don't neglect taking advantage of the opportunity to secure such valuable information as is imparted at the baking school and learning all that K. C. Baking Powder really means to you. The "Cook's Book" can also be recommended to you. It is safe to say that it's equal has never been offered before and its possession will gladden the heart of any housewife. Every recipe in it is a gem and the change from the old dishes you have been baking these recipes make possible, are sure to be appreciated by you.

Bake with K.C. Baking Powder

The following palatable baked dishes will be served after being illustrated at Wednesday's session: Chocolate Cake, Prime Kuchen and Apple Fritters. Don't miss witnessing the illustration of the collection of five dollar recipes. Bring your "Cook's Book" with you to the class. It will help you follow the work more closely, and add to your pleasure and convenience. Ladies out of the city may mail their certificates to Mrs. Sloan and the "Cook's Book" will be mailed to them. K. C. Baking Powder makes every bake day a success and delight.

K. C. Baking Powder makes every bake day a success and delight.

Don't miss witnessing the illustration of the collection of five dollar recipes. Bring your "Cook's Book" with you to the class. It will help you follow the work more closely, and add to your pleasure and convenience. Ladies out of the city may mail their certificates to Mrs. Sloan and the "Cook's Book" will be mailed to them. K. C. Baking Powder makes every bake day a success and delight.
