Another edition of the Sentinel heralds the "self-inflicting" candidate for state senator, and still twelve important questions remain unanswered. You'll have to hurry, Mr. Wilson, if you wish to convince the voters that you're a real man.

Special Alfalfa Service.

It is with pleasure that the Pioneer announces that it has arranged for a special series of articles upon the subject of alfalfa raising in northern Minnesota. All over the state there is a rapidly growing interest in this wonderful crop.

Farmers and business men want to know about alfalfa, what kind of land is best suited to its growth, how to prepare the land, the prevention of weeds, selection of seed, inoculation, time to seed, methods of seeding, care during the different seasons, cutting the crop, etc.

Realizing this interest the editor of this paper has arranged to publish a series of articles upon this important subject. These articles will be prepared by an expert who knows his subject thoroughly, a man who will write plainly, briefly and to the point. Watch for this series. The first one follows, the topic being, "Preparation of the Land for Alfalfa."

The field which is to go into alfalfa for a period of from three to ten years should have the very best preparation it is possible to give. This preparation should begin a year or two before it is time to seed the alfalfa. The application of ten to fifteen loads of well rotted manure per acre is a good practice, but not absolutely essential. If manure is applied, be very sure that it is well rotted, therefore free from all weed seeds. The land should then be seeded to corn or potatoes, or it should be summer tilled.

If seeded to a cultivated crop, it should be kept well cultivated during that season and no weeds of any kind should be allowed to mature seed. If the land is summer tilled, the same conditions should prevail. This cleans the land of weed seeds, liberates large quantities of available plant food, and conserves the soil moisture.

Such land should not be plowed the following spring, it may be disced very lightly early in the season and then harrowed at intervals with a heavy iron harrow in order to start all weed seeds possible and destroy them before they make any growth. The alfalfa seed bed should be mellow and firm, free from weed seeds and well supplied with water to a depth of five or six feet. This insures the proper medium for the development of a good root system the first year.

S. O. S. for Amendment No. 3. Unless a vigorous campaign of publicity is put at the last minute for Amendment No. 3, it is lost! To put up such a campaign takes money.

The treasury of the Northern Minnesota Development association is bare. Even Secretary Mackenzie's salary is unpaid for several months back.

Therefore an emergency call for funds to be used in urging the adoption of this amendment has been made, and those interested in the development of Northern Minnesota should respond quickly. Checks should be sent to F. B. Myers, Biwabik, who is chairman of the committee having this campaign in charge, says the Duluth Herald.

Amendment No. 3 is by far the most important in the list to Northern Minnesota. It authorizes the setting aside of a revolving fund to be used in making firebreaks and building roads through and around state lands. It will be the first step toward a definite policy of state development ever taken by the state.

But unless an extraordinary campaign can be put up for it in the week that remains before election day, it will be lost by neglect. Amendment No. 3 needs not only votes, but money.

The S. O. S. sign is out for Amendment No. 3! Chicago has 236,311 females who are employed.

EDITORIAL EXPLOSIONS

Billy Hamm works Senator Works, Democratic campaign manager; then Senator Works works Hammond into saying that the breweries are not mixing into Minnesota politics. By their works ye shall know them.—Kanabec Times.

Those Democrats who figure Banker W. E. Lee is not much of a campaigner will have their eyes opened after the 3rd of November. Mr. Lee goes about in a quiet way, but those close to him in past campaigns say he never passes up an opportunity to reach out and grab what comes his way.—Cambridge Independent-Press.

It is generally admitted that many men are elected to office owing to the fact that they are blessed with a strong personality and by meeting the voters make a decided hit. This is what the electors should look out for. They should size up a man and see what he is worth, find out what he stands for, and above all, if he is well qualified. The best advice that can be given is to vote for the man who bears the better reputation and is the best qualified.—Mankato Press.

One who reads a good many weekly papers in this part of the state might be led to think that the voters were going to stay at home November 3. We don't read the signs that way in this locality. The voters are wide-awake. They are not talking very loud, but they are thinking deeply and will register those thoughts at the polls on election day. There never was a time when voters read so much and thought so deeply as they are reading and thinking this year.—Lakefield Standard.

OLD-TIME COLD CURE—DRINK HOT TEA!

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time during the day or before retiring. It is the most effective way to break a cold and cure grip, as it opens the pores of the skin, relieving congestion. Also loosens the bowels, thus breaking up a cold.

Try it the next time you suffer from a cold or the grip. It is inexpensive and entirely vegetable, therefore safe and harmless.

RUB RHEUMATISM FROM STIFF, ACHING JOINTS

Rub Soreness from joints and muscles with a small trial bottle of old St. Jacobs Oil.

"St. Jacobs Oil" is a harmless rheumatism cure which never disappoints, and doesn't burn the skin. It takes pain, soreness and stiffness from aching joints, muscles and bones; stops sciatica, lumbago, backache, neuralgia. Limber up! Trade in Foreign Countries. In foreign countries you come into competition with the best goods from every land. An article must have merit of the highest order to win esteem. In many of these countries Chamberlain's Cough Remedy is the most popular medicine in use for coughs and colds because it is the best. For sale by All Dealers.

THIS is how news of the Real Tobacco Chew spreads! A man tucks the little chew of "Right-Cut" away—gets the rich tobacco taste and the comfort of it and feels so good about it that he just can't help talking about it to his friends. Mellow, sappy tobacco—seasoned and sweetened just enough.

Take a very small chew—less than one-quarter the size of ordinary tobacco. For many years this soothing, healing any eruption comes and its strength chew that suits you. Tuck it away. Then let it rest. See how easily and evenly the real tobacco taste comes, it satisfies without grinding, how much less you have to spit, how few chews you take to be tobacco satisfied. That's why it is The Real Tobacco Chew. That's why it costs less in the end.

It is a ready chew, but fine and short ahead so that you won't have to grind it with stones. Grinding on ordinary candied tobacco makes you spit too much.

One small chew takes the place of two big chews of the old kind.
