Sick women are invited to consult Dr. Pierce by letter, FREE. Address Dr. Pierce, Invalids' Hotel, Buffalo, N. Y.—Adv.

An exchange gives the following as the "Knocker's Creed:" I believe that nothing is right. I believe that everything is wrong. I believe that I alone have the right idea. The town is wrong, the teachers are wrong, the things they are doing are wrong and they are doing them in the wrong way anyway. I believe I could fix things if they would let me. If they don't I will get a lot of other fellows like myself and we will have a law passed to make others do things the way WE want them done. I do not believe that the town ought to grow. It is too big now. I believe in fighting every public improvement and in spoiling everybody's pleasure. I am always to the front in opposing things and never yet have I advanced an idea or supported a movement that would make people happier or add to the pleasure
