MILADY'S LAST YEAR

AUTO FROCK WILL DO FOR THIS YEAR, TOO

Chicago, Jan. 24.—Nineteen sixteen automobiles and milady's 1916 auto frocks are to be trimmed in last year's trimmings. Driving costumes need not be altered one whit, said representatives of more than one hundred makes of cars at the Chicago automobile show which started Saturday at the Coliseum. A change in upholstery this season would make that part of the car from 150 to 600 per cent more than a year ago—due to the war, they said. Manufacturers there are using trimmings ordered a year ago and milady need not change her auto habit unless she so elects.

In women's cars, tan, white and gray upholstery will predominate. In the heavier cars the usual black and buff trimmings will be most in evidence. The keynote in automobile making this season, say manufacturers, is simplicity and refinement. Cars are going to be more luxurious and less gaudy. "We had a great quantity of silver trimmings ordered for our electrics, and until our woman decorator came along and told us it was bad taste we thought we had something pretty nice," admitted a prominent Chicago auto maker today. "These silver trimmings went to the scrap heap. We have built our car along lines of simplicity and have done away with all gaudy trimmings."

NEBRASKA BOY

ATTRACTS ATTENTION AS SMALL FARMER

Table, Neb., Jan. 24.—Arnold Martin, a former Swiss farmer who resides near here, has attracted international attention as a twenty-acre farmer. Recently at Denver he won prizes in every class, but the thing about which Mr. Martin is most pleased and proud is that corn he raised was selected by the Chinese commissioner at the Panama-Pacific exposition to be sent to China, where, under the supervision of the Chinese government experts, the seed is to be propagated, acclimated and adopted.

There are few small farms in this locality, many of them running 160 and even 640 acres. Mr. Martin received his training as a small acreage farmer in Switzerland, and he finds no difficulty in making twenty acres pay and pay well, besides getting prize-taking crops.

IF YOU WANT A GOOD FARM Why Not Buy It Direct From the Owner The price I will ask for this will mean a big sacrifice on my part and publish it in this advertisement it will be kept a secret between myself and the prospective buyer. I have been a resident on this same property for 22 years and feel certain that any one seeking a real bargain will buy a tract of this property on sight. All I ask is that you look at it before you buy elsewhere. The fact of the matter is I have more land than I feel able to look after, and anxious to sell parts of it in order to improve the balance. If you buy you can depend on one thing and that is that I will continue to be your neighbor, together with others living in this vicinity. There is some satisfaction in knowing that only one man can get a "rakeoff" if you deal with the man who owns the land he wants to sell. You will spend less time, that is wasted time, by being taken direct to the property he has for sale. I have 240 acres of the best land in the county, located on the "Divide", three miles east of Hines and four miles from Blackduck. Twenty-five acres in hay and crops and sixty acres seeded to clover and timothy grasses. I Will Sell It in 40, 80, 120 or 240 acre tracts. Terms easy. See this before you buy. I must sell. Find out why. Red Lake. Three forties are still timbered. There is a fine consolidated school at Hines, Minn. The bus calls daily for the children. Interested parties are requested to write or call at the BEMIDJI DAILY PIONEER OFFICE for references or further information. We might add also that in no other locality will you find a finer lot of neighbors and a more pleasant place to live than right in this particular section. W. M. VAIL Owner
