Several Recruits Accepted; Equipment and Supplies are Complete.

The Bemidji Naval Militia is ready for service.

Lieut. E. A. Barker of the Bemidji division today advised Captain Guy A. Eaton of the Minnesota Naval Militia that the Bemidji "Jackies" are ready for duty. The men have packed their clothing, their equipments are complete and they can on train on a short notice.

Boys Work Hard.

The boys have been working hard for the past four or five evenings marking and packing their equipments.

Developments in today's Mexican situation may mean that the naval militia will not be called for service immediately. The militia members, however, are expecting a call at any time. They were notified Tuesday to have everything ready for a call.

The men are very enthusiastic in regard to the possibility of seeing actual service. Every man wants to go and is anxiously waiting the call. That some of them were disappointed because they did not get a call today was evident at the city hall where they met this morning.

There are now 65 members in the Bemidji division. Three recruits admitted last evening are Evan Olson, Leon Battles and Lee Simonson.

Impressed With Pines.

Last evening he was taken to the Birchmont Beach hotel and around Lake Bemidji.

Today he went by train to Cass Lake with Senator McGarry and party to visit that city and to investigate road conditions. He will not inspect the roads from Cass Lake to Brainerd as Senator McGarry will submit plans for the roads which are to be constructed between these two points.

The party returned to Bemidji this afternoon and left immediately for the park. From Park Rapids the party will motor directly to Sauk Center, then back to Wadena, then on the Little Falls road to Elk River and then back to Brainerd.

Mr. Clarkson stated last evening that he would probably render a decision as to the selected route immediately upon his return to St. Paul.

MINNESOTA GUARDS ARE GIVEN STRICT PHYSICAL EXAMS

Gopher Hospital Corps Becomes Prominent in Activities of Camp Bobleter.

VERY FEW MILITIA MEN ARE DECLARED UNFIT FOR SERVICE

Troopers Send Requests for Home Papers; Civilians Urged to Salute Flag.

(United Press Staff Correspondent) Camp Bobleter, Fort Snelling, Minn., June 29.—Although Minnesota's national guard is seventeen hundred perfectly good miles from Mexico's border, the Minnesota hospital corps became prominent in camp activities today.

Physical Exams.

Every recruit and "old guard" here today was given a strict physical examination. Gophers don't usually show signs of physical debilities. The climate here seems to forbid that. So there were not a great many of the boys sent back home because of the examination.

There were a few, however, declared physically unfit. These were the men who rumor said had murmured against the federal oath. Just the murmuring was enough. No matter how fit they really were, they were barred from service because, officers said, men who don't want to fight, are not wanted to fight.

Dance in Evening.

Guardsmen are experiencing real hardship in getting dancing partners. They have been forced in their evening dances to select half of their number, tie a white band around their arms to characterize them as "ladies," and dance with them on the hard ground of the company streets. Guardsmen who don't spend their evenings dancing spend their time reading letters from "back home," and reading their local newspapers.

Papers Hard to Get.

These newspapers from home are hard to get. Members of the guard today appealed to their friends and relatives "back home," through the United Press, for the home paper. They can get all the city papers at the camp, they say, but it's the home paper they want. Those guardsmen having the papers are always surrounded by others from their home town.

Anti-typhus units were administered to some members of the guard today. Dr. A. J. Sheeley of the University of Minnesota is in charge of this work. Three treatments will be given every man at intervals of from seven to ten days. These treatments usually make the recipient quite ill for a few hours.

Shortage of Uniforms.

Some officers today admitted that it would be impossible for all the guard to get away before the first of the week. This is on account of a shortage of uniforms, blankets and other articles of bedding. Guard officers won't forward their men until this equipment comes.

Guard officers today appealed to the United Press to ask visitors to the camp to salute Old Glory, waving over regimental headquarters, at the entrance to the infantry camp, where the majority of visitors go. They ask that civilians bare their heads when passing the flag. Such action is not required of civilians, although soldiers are required to salute it. "The flag and what it represents is what we are fighting for," one guardsman said today.

Engineers Arrive.

Brownsville, Tex., June 29.—The first section of the U. S. engineering corps from Washington reached Harlingen, Tex., today. It consisted of 100 men and 28 cars of equipment.

CARRANZA ACCEDES TO THE DEMANDS OF PRESIDENT WILSON

Immediate Break Between Mexican Government and the United States is Averted.

WASHINGTON WAITING FOR DE FACTO GOVERNMENT REPLY

Reported That General Trevino is Fortifying Chihuahua City; Mines in Outskirts.

(By United Press) Washington, June 29.—Carranza has ordered the release of the 23 American prisoners and equipment taken in the Carrizal battle and has acceded to the demands of President Wilson. Official confirmation that the prisoners were released was received today.

An immediate break between the United States and the de facto government was averted by the action of Carranza. Whether a state of war has been prevented or merely postponed no one here would attempt to say.

Relations Still Strained.

San Antonio, June 29.—General Trevino's release of the U. S. troopers who have been held prisoners since the Carrizal battle will not affect troop movements. The relations between the United States and Mexico will continue strained until Carranza declares his attitude.

Reply is Awaited.

Washington, June 29.—It is considered that danger of immediate hostilities between the United States and Mexico has been averted on account of Carranza's release of the prisoners held at Chihuahua City. Carranza's reply to President Wilson's note is awaited. The first news of the release of the Carrizal prisoners officially came from General Funston this morning.

No Cause for War.

Mexico City, June 29.—The Carrizal incident has not become a cause for war, the United Press learned today authoritatively.

Cavalrymen Missing.

Columbus, June 29.—Six U. S. cavalrymen are missing since the Carrizal battle. They still may be wandering in the Chihuahua desert or may have perished from thirst and hunger. Captain Morey, before leaving for an El Paso hospital today, said he thought that six of the men escaped into the desert following the battle.

Women Join Forces.

Mexico City, June 29.—The wife and daughters of General Carranza have accepted an invitation to become members of the Mexican ambulance brigade and will give their services to the ambulances in case of need.

Officers Watch Moves.

San Antonio, June 29.—Conditions at Piedras Negras, opposite Eagle Pass, are closely watched by staff officers. General Francisca Murgula has a strong force ready for instant action.

In addition to three batteries of field artillery which left for Eagle Pass last night, there are two regiments of United States infantry and one battery of field artillery already there. It is known that several large national guard units will be sent to Eagle Pass at once.

Have Supplies Ready.

Washington, June 29.—War department officials believe they have perfected arrangements by which ample supplies of food, equipment and clothing will be provided for all troops called into the Federal service, no matter how great the numbers may be.

Plan to Polio Mexico.

Washington, June 29.—South American officials propose and will take official action upon a plan to have the United States, Argentina, Brazil, Chile and possibly other Latin-American republics to police Mexico and restore the country.

Fortifying City.

El Paso, June 29.—It is reported that General Trevino is fortifying Chihuahua City. Entrenchments are being built throughout and mines have been placed in the outskirts of the city.

One Injured in Wreck.

Terre Haute, Ind., June 29.—A freight engine side-wiped a troop train from New York and one trooper was injured this morning.

To Move Chinese.

El Paso, June 29.—Prominent Chinese today asked Washington for permission to bring 500 Chinese from Juarez to El Paso on account of the anti-Chinese feeling.
