Home Cookery

Meat Turnovers.

Chop the meat. If the quantity on hand is small mix with it leftover potato or rice. Season with salt, pepper, onion, etc. Place filling on circular pieces of biscuit dough about the size of a saucer. Fold over the dough and crimp edges together. Bake for about one-half hour in a hot oven. Serve with brown sauce.

Peanut Soup

Heat one pint of milk until lukewarm. Add two rounded tablespoons of peanut butter mixed to a smooth paste with a little of the milk. Salt to taste. Thicken with one teaspoonful of butter or savory fat mixed with one tablespoonful of flour. Bring almost to the boiling point and serve.

Mock Duck.

On a round steak cut thin place a stuffing of breadcrumbs well seasoned with chopped onions, butter or other fat, salt, pepper and flavorings such as sage, celery seed, etc., if desired. Roll the steak around the stuffing and tie in several places with a string. If the steak is tough, steam or stew the roll until tender before roasting in the oven.

French Toast.

Beat up together one egg, one cupful of skim or whole milk and salt to taste. Place a small quantity of butter, bacon fat or other suitable fat in a broad bottom frying pan. Dip slices of stale bread into the egg and milk mixture until they are thoroughly moist and fry on both sides until a golden brown. Serve hot with or without sirup.

Cheese and Greens Roll.

Cook two quarts of spinach, Swiss chard or other greens. Drain and dress with one tablespoonful of butter. Chop and add one cupful of grated cheese and breadcrumbs enough to make a mixture sufficiently stiff to form into a roll. Place in an oblong pan and cook in a moderate oven for twenty minutes. When cold the mixture may be sliced in one-half inch pieces and served on lettuce leaves with salad dressing.

Meat and Breadcrumb Cakes.

To four parts of chopped or ground meat add one part soaked breadcrumbs, a small quantity of chopped onion and salt and pepper to taste. Mix and form into small round cakes. Brown the cakes in butter or other fat, turning them.

Pigs on Pasture.

Pigs on pasture usually get enough exercise. They should have a clean, dry, well ventilated shelter to guard against exposure to storms and to supply shade. A concrete wallow will add to the pigs' comfort, and a layer of oil on the water will keep down lice. Clean bedding also helps to keep away lice, as will an oiled sack on a rubbing post or sprinkling the pigs with crude oil every two weeks.

To supply mineral matter and a tonic the following mineral mixture is good. It always should be accessible. Dissolve the coppers in hot water and sprinkle over the mixture: Coppers, two pounds; slaked lime, four pounds; wood ashes, one bushel; sulphur, four pounds; salt, eight pounds; fine charcoal, one bushel.
