## OUR NATIONAL MISTAKE

While disaffection and disloyalty are at a minimum in thi country, still looking into the past we can see a responsible for hhat disloyalty exists among American citizens.
If when, in spite of the earnest efforts of our government, war was forced upon us, we had accepted the challenge in the right spirit, much misunderstanding might have been averted We should have accepted the gauge of battle as wholly unt avoidable. We should have seen, which many or us war wa that if America maintaining them. Viewed in this light, there could be no question as to the duty of every citizen; Tha duty would have stood out most plains
try and her institutions, or TREASON. Instead of thus accepting the inevitable, however,
ur old American way at once began to argue and dispute over the right of our government to enter a "foreign" war; never realizing, in our blindness, that this so-called "foreign" war was as much our war as it was any other nations. We'snow have seen that the ultimate object of the efrere singled out fo aimed at the viaifice to be the German banker at the beck and call of her military despotism, from whrom she expeeted ultit mately to collect the enormous toll of money that the holocaun should cost her.
But, as we have stated, we have been for a year debating as to the rights of our governmen, hits to the services of our money and our property, all the time losing sight of the basi fact that not only did all that we possess belong to our govern ment in its need, but that we ourselves are but now be no Amer that governmen, we have lost sight of the fac can pome extent, that our very FIRST duty is to government, without it all rights, privileges and benefits come to naught. that of the right or wrong of murder, arson, theft, or any other human transgression. The disloyal mise or any other criminal There can be no other view of the question, because in any other view lies the seeds of anarchy and the destruction of al law. And law is the only forc

Drive the truth home to every man, that his very citizenhip carries with it an iron-bound obligation to render his all, if demanded, to his government whenever the emergency arise if demanded, to his government whe misen.

RHEA NOT A CANDIDATE FOR CHARITY The Williams Northern Light rises to devote considerable of register of deeds and in the course of its remarks the Light says that the entry of Mr. Rhea is inexplicable," as he has a position as "cashier of one of the leading banks of the coun with unlimited tenure." The Light thengoes is that all
should vote for a man who is competent and at the
same time needs the employment.
It is reasonable to presume that any man has the great American privilege of being a candidate for an elective office, no matter whether he has wealth or not a nickel to his name.
Mr. Rhea is not cashier of one of the leading banks of the Mr. Rhea is not cashier of one of the leading one of the leading financial concerns of Beltrami. He is assistant cashier and a wage earner. In other words, he has a job. He is not seeking
the office because he "needs it." Mr. Rhea doesn't believe a public office is a charitable institution. Like any other can didate he feels he is fully qualified to fill the position and defeated will not exhibit any saffron hue in his makeup. The candidate espoused personally by the Northern Light is a splendid man. No question about that. But we of the southern part of the county never heard of his "needing" a that he is.

Why inject the personal gimlet in sounding the praises of any particular primary canduate, so long as it afect anothe who is a man of reputation, standing unque busines ability and loyalty?

## THE GIANT IS AWAKE

The giant is awake at last. It has taken a year of sustained effort, and the mobilizing of an army of close to two million men, before we awoke from our siumbiser, $D$.
awake at last, and doing things-with a big awake at last, and departments are running smoothly, and the of supplies of every conceivable description are being rushed across the Atlantic; Army after army is being trained and dispatched, until the American forces and equipment on the other side are fast attracting the attention of the world and sending The Kaiser's boast to Mr. Gerard, that he had 500;000 German reservists in this country, and ready to take up arms
at his word of command, has the ring of a huge joke. If they are here, they at least know how to preserve whole skins. We have hit our stride at last, and now let's keep it up
till complete victory is ours. Kaiserism, with its attendant train of evils, must perish from the earth. And let us not for one moment forget that AMERICA IS
THE DECIDING FACTOR IN THE WAR.

Vigorous steps should be taken to punish any person conabroad. The families and friends have enough anxiety to bear, without being made the vietims of irresponsibble sensation mongers.
