OFFICIAL COUNTY AND CITY PROCEEDINGS

BOYS-GIRLS MAKE RECORD.

Seventy-five of the 86 counties of Minnesota were represented in the boys' and girls' club breadmaking contests at the state fair. Thirty-eight canning teams took part in demonstration. Several cans of fruits and vegetables were marked 100 by the judges and the exhibit as a whole surpassed any other of the kind at the fair. The quality of the corn exhibits made by the young farmers was the best since this particular contest was started several years ago. The poultry clubs staged their first demonstration.

All the pigs but one entered in the pig club competition were from registered stock, whereas only two of all the entries in the first state contest were registered animals.

T. A. Erickson of the extension division of the university college of agriculture, state leader of boys and girls club work, was congratulated by Miss Gertrude Warren of Washington, national leader, for the commanding position taken by Minnesota toward the practical education of its young for farmers and homekeepers. Three hundred girls from 79 counties were housed at the agricultural college and prepared their own meals at a maximum cost of 15 cents for breakfast and 25 cents for dinner.

One hundred fifty boys were in camp at the fair grounds. It was a great week for the young farm club members.

NYMORE WILL GET NEW WELL.

Well, it commences to look as if Nymore was going to get that well it has long been expecting and its citizens are commencing to take a new view of the situation, so far as their part of the city is concerned. At the meeting of the city council Monday night, when the subject of improved fire facilities was broached by Alderman Bagley, and P. J. Lahr gave a talk on taxes, he referred to insurance in Nymore and cited curtailment of insurance owing to lack of proper fire protection.

Then it was brought out that the former village is going to get a deep well and pump which will supply all needed water, and mains will be laid to the Lincoln school and the business district, which will take care of the insurance problem at the school and permit new business houses to be erected and those at present improved. Then the village will commence to advance.

TWO CLOVER CROPS PAY HANDSOMELY.

Guess this Northern Minnesota country is strong in the line of crop raising, for along comes a report from Becida, and the "goods" show for it, that the clover seed crop in that vicinity was a top notcher this fall and two of the growers, who brought in their seed to Bemidji for shipment to the Northrup-King company realized handsomely upon their seed crop of clover.

This seed concern paid E. K. Nyhus of Becida a check for \$3,590 for seed raised on 20 acres, and the same firm paid Fred Barr of the same vicinity \$1,190 for the seed raised on eight acres.

That's "some land" over Becida way.

Klarkquist & Sons, who have the general contract for the building of the new dormitory for the Normal school, have the concrete foundation well along and soon the side walls will commence to rise as the brick is beginning to arrive on the site.

From all reports, there will be another big building year in 1920, and several important structures are already being planned for erection, each of a substantial and ornamental nature in both business and residential districts.

STATE OFFICIALS IN
NORTH MINNESOTA
ARE SEEKING SITES

Would Locate Epileptic Colony
in Wooded Tract; Also
Locate Paper Mill

St. Paul, Oct. 1.—Seeking sites for the proposed North woods colonies for epileptics and feeble-minded patients and for the proposed state-owned paper mill, state officials and committeemen of the Minnesota Editorial association left St. Paul Saturday for Northern Minnesota. The tour will be personally conducted by J. A. O. Preus, state auditor and custodian of state lands, and will continue a week.

Chairman Charles E. Vasaly, C. J. Swendsen and Ralph Wheelock of the state board of control, Senator W. A. Nolan, Grand Meadow, of the state board of visitors, and E. V. Millard, state drainage engineer, and Frank A. Day of the Fairmont Sentinel and C. M. Atkinson of the Mesaga Ore, Hibbing, committeemen of the state editorial association, make up the party accompanying the auditor.

Establishment of colonies in which feeble-minded and epileptic wards of the state may be given suitable outdoor work, such as lead-clearing and gardening, was authorized by an act of the 1919 legislature. The law permits the use of a suitable tract of state land and provides funds for buildings which probably will be

erected and made ready for occupancy next year.

The board of control party will spend a day examining possible sites for the feeble-minded colony between Northome and Bemidji, both parties planning to be in International Falls and Ranier Wednesday, going there from Bemidji possibly by auto.

GARDENS TO CIRCLE LONDON

Plan Started in Metropolis to Establish Self-Supporting Agricultural Suburbs.

London.—Millions of pounds are to be spent in the creation of a system of industrial garden cities which ultimately will rim metropolitan London. The scheme, just outlined, is the most elaborate city-building project ever undertaken in England and is an adaptation of the model industrial town idea originated some years ago in the United States.

Building on the first of these "flower garden" suburb cities is to begin next month north of London, according to newspaper announcements. The town will be self-supporting and will cover several thousand acres. Within its precincts will be an agricultural area. Its populace will be supported by several engineering industries to be located there.

The project is an attempt not only to solve London's housing system, which has become a grievous one, but to prevent an overwhelming congestion of the city's industries and other commercial activities.

\$3,500
REWARD

The Bemidji Pioneer will pay rewards aggregating \$3,500 to men and women of Bemidji and surrounding territory. YOU can share. All you need do is gather votes in the great Profit-Sharing Circulation Campaign, just starting. The rewards range from an \$1,185 Oakland Touring Car to Cash Commissions. The prizes will be given to those who poll the highest vote totals. Votes come with subscriptions and in coupons which are printed in The Pioneer.

By starting now and turning in \$25 worth of subscriptions between now and October 11, you will receive 200,000 bonus votes, over and above all the regular votes. This is the biggest and best special offer of the campaign. Start now.
