tacked these parasites. When a
number of these worms get into the number of these warms get when a
windpipe and become swollen the with
blood breathing becomes difficult and
even bloed breathing becomes difficult and
even Impossible. Gaping, the charac-
tever texistic symptom of the gapes, is the
natural result of this choking. Other Symptoms.
There are other symptoms, of Some of these are the shaking of th
head, the contracting and the erten head, the contracting and the exten
sion of the nek, the drooping of the
wings and a pecullar staggering gatt donbtless caused by the choking and
the exhaustion of the chicks. Once in a great while gaping will be
caused by a touch of bronchitis, but as a rule it is associated only with the
attacks of the tiny reddish worms tha attacks of the tiny redilsh worms tha
fasten themselves in the chicks
trachee trachee. They not only choke the
chicks, but they cause an irritation ling of the air passages.
Weak chicks, attacked by gape
worms, will die nine times out of ten, as it is very hard to relleve them.
The strong chlcks may have vitality enough to overcome the trouble, but
they will lose in growth. The worms are sometimes extract
ed from the upper throat by means of a looped horsie hair. This is a tedions
operation and hardly worth while operation and hardly worth while
when there are many chicks to be looked after. The best plan is to tso
late the sufferers and move the re they have been feeding. Forcing the chy have been theelimg. $u$ ort, fine, dry
chlck-sto brenthe lime llme, will force the worms
alr to
sages. As a rule, though, the chicks sages. hardly strong enough to stand such
measures.

In older birds the tapeworms an
round worms cause some losses. round worms cause some losses. The
round worm is a colindrical, smooth
parasite, tapering at both parasite, tapering at both the front
and the rear, but the front is more
pointed than the rear. They are inpolnted than the rear. They are in-
testinal parasites, bloodsuckers and by the growing bird or the laying hen.
When very' numerous they canse darrhea or in some instances a stop-
page of the intestines. page or remedy is two grains of san-
The
tonin for each bird, dissolved in the toninking water or mixed in and fed
with with a mash. The round worm is
white in coloring and may vary from
one-thlrd of an inch to five inches in length.
Now
Now and again serious outbreaks of
the tapeworm in poultry are reporte from various parts of the country. The
chief remedies used for tapeworm in chlef remedies used for tapeworm in
fowls are extract of the male fern,
turpentioe, pumpkin seeds, the areca turpentine, pumpkin
hut and Epsom salts.

## Chamberlain's Cough Remedy

It soothes and heals the inflamed air passages, stops the tick-
ling in the throat, and by its tonic effect enables you to thrgw
off the disease. Chamberlain's Cough Remedy is quite different
from the ordinary cough medicine, for it not only soothes but
also heals, so that the effected parts are restored to a healthy
condition and the danger of a future attack is removed. I firmly
believe that it is the best and most reliable preparation ever pro-
duced for coughs and colds."
