NORMAL KINDERGARTEN ENTERTAINS PARENTS
A very interesting program was put on by the pupils of the kindergarten-primary department of the Normal Saturday afternoon, at the Normal auditorium, under the direction of Miss Hahn. The program was the climax of the work done in the department during the past six months, as the principal part of the program consisted of a play entitled "Mother Goose's May Party."

VAST RICHES IN OLD MINES
Wealth Awaits Lucky Prospector Who Can Find One, Though Many Are Known to Exist.

We are all familiar with Sir Rider Haggard's "King Solomon's Mines" nor was he by any means the first to put forward the theory, though in a romance, that many old and out half-worked mines might yet await the patient toil of the searcher. Except in cases where there had been long-continued use, it is not at all improbable that there are ancient mines ready to reward the intelligent methods of today. But now in Idaho, we are told, "the lost" gold mine of the Upper Salmon river district has been rediscovered. A rich ledge had been found by two prospectors and worked by them a little; then they fell out and a Spokane policeman, who had the secret from one of them, sought the mine for 20 years; then he fell out, and now it has been found anew, to enrich the finders, for the ledge proper is said to be from four to six feet wide with a rich quartz streak that shows the gold shining in its grasp. The gold has always been there and somebody for many years has believed it to be there; it only needed to be found to add another to the romances of fact.

Daily Fashion Hint

TRICOTINE OF RARE CHARM.
A lovely design in dark gray held in at the waist with a heavy black satin cord. The dress buttons straight down the front and while the narrow effect is retained at the shoulders, the line is long to give the kimono effect. The sleeves flare above the wrists. Collar and pocket flaps are of self-material, while the vest is of crepe georgette. To reproduce in medium size requires 3 1/2 yards 48-inch material, with 1/4 yard georgette.
Pictorial Review Dress No. 8427. Sizes, 34 to 46 inches bust. Price, 25 cents.

WANTED ALL HE COULD GET
Elderly Passenger in Airplane Was Looking for Some Thrills for His Good Money.

Last summer Kokomo, Ind., had the usual airplane pilot who took passengers up for \$1 a minute. The pilot was approached one day by a man who was ensly within earshot of eighty years. The pilot took him aboard and soared around in "straight flying," in order not to give the elderly passenger any thrills that would be dangerous to his heart action. After the customary fifteen minutes he slid gracefully to the ground and motioned his passenger to alight. The old man complied, and then walked up to the aviator.

"Say," he exclaimed, "are you a real flyer? What about Immelman turns, barrel rolls, loop-the-loops, nose dive, tail spin, falling leaf, pancake, and so on? Can you do any of those things?"

"Sure," replied the aviator, "but I did not think you cared about any of those things. They are a trifle risky, you know, and might upset your stomach."

"Well, I paid for a good ride and I expected some of those things," the passenger countered, "and I would like to get them. Give me all you got. Tumble around in the air like a porpoise in the ocean."

The aviator told him to climb aboard and he would accommodate him. He gave the passenger "all he had."

"That's fine!" exclaimed the passenger, as he climbed out of the cockpit the second time. "That's the way I like to ride!"—Indianapolis News.

GOT FACTS SLIGHTLY MIXED
Representative Osborne Evidently Had Not Taken Keep Notice of Position of Sherman Statue.

One of the best speeches in the house in years came from Representative Osborne of California the day of the Pershing parade, says the Los Angeles Times. Having been one of the soldiers who marched up Pennsylvania avenue at the close of the Civil war for a final review by General Sherman, he was able to draw a beautiful and striking contrast with the return of the veterans of 1919.

At one point in the address the representative spoke feelingly of how Sherman, at the head of the column, at Fifteenth street and Pennsylvania avenue had turned on his horse and looked back at the advancing veterans.

"Thus," said Mr. Osborne, "the figure of Sherman, cast in bronze, sits today at the head of Pennsylvania avenue, as he sat that day more than fifty years ago."

The reference to the Sherman statue aroused great interest and many were the pilgrimages made to the statue within the next few days to see how Sherman looked gazing down the avenue. But horror of horrors! It developed that Sherman was looking not toward the advancing column, but toward the White House, which stands in an opposite direction.

Now Osborne is looking for the man who placed it thus.

Wild Section in Southern France.
An almost forgotten region lately pointed out by Samuel Wells to the Liverpool Geographical society is southern and midland France, with the desert lands on the Mediterranean. Here the wild horse and a breed of buffaloes are still extant, and great rocks, gorges and caverns are features of the country. The immense caves abound in remains of the stone and bronze ages, while wonderful stalactites hang from the roofs. The buildings show architecture centuries old, especially that of the Roman period.

A Bright Idea.
"That photographer has a bright idea."
"What is it?"
"To print his pictures on a phonograph record of the voice."
"What's the idea?"
"To be able to say that his portraits are speaking likenesses."

"Sundown Trail"

A great picture of the golden days of old California—when whole communities of men lived for months without the sight of a woman, lured to lives of adventure by the chance of striking it rich. A story of great heart appeal, made still more delightful by the marvelous Sierra Settings, the charming old-fashioned dresses and amusing stovepipe hats, the courtesy of the men and the beauty of the women. A picture in which that fine actor, Monroe Salisbury, fills the eye and heart.

Bore Effectually Cured.
They tell the story in one of the local mills of a man who used to rather bore his fellow employees by the tales of his experiences in other factories. Finally the men decided that they were going to "cure" him and for a week one of them asked him about his former positions. He would say at the end of an account, "Well, how long did you work there, Jack?" Jack, glad to find a sympathetic audience, explained and talked at length. In the meantime his inquisitor kept a strict account of the positions and the length of time which he said that he stayed at each. At the end of the week he was confronted with a notebook in which were recorded his statements. They totaled a long list of places and 78 years of service. As the man was not yet 50 the absurdity of it struck everyone and they say that he took it with good grace and mended his ways forthwith.—Lawrence Telegram.

Motto First on Copper Coins.
The motto "In God We Trust" was first used on the copper 2-cent pieces issued in 1864, being introduced by James Pollock, the director of the mint, with the approval of Secretary of the Treasury Salmon P. Chase. The words also appeared on the 1866 issue of the double eagle, eagle, half eagle, silver dollar, half dollar, and nickel 5-cent pieces in place of the long existing motto of "E Pluribus Unum." In the trade dollar issue of 1873 both mottos were retained, "In God We Trust" appearing on the obverse. The Lincoln cents and silver half dollars at present in circulation bear both mottos.
